Never be satisfied with less: Systems from Miele Professional

With Miele Professional, you are choosing top-class quality. This applies not only to our machines which reliably live up to expectations on a daily basis and give rise to the great trust professional users place in the Miele brand. Miele's proverbial quality goes far beyond this.

As a company now run by its fourth-generation proprietors, Miele remains true to its responsibility to its products and processes, its employees and business partners and towards conserving natural resources. This is reflected in choice materials as well as in the design and production of our machines. Clients benefit from innovations 'Made in Germany' which set standards throughout the industry as well as from a product design which has received multiple awards for ergonomics and functionality, and from low running costs.

Reliability and responsibility form the bedrock of Miele's entrepreneurial activities and find expression in many different ways. Carefully matching systems from Miele Professional cover a wide range of requirements and offer the peace of mind of an efficient and award-winning service network.

Miele Professional stands for reliable, durable products, high-class cleaning results and comprehensive customer service. For you as a professional user, there is simply no reason to be satisfied with less!

'Immer Besser.'

Why sustainability is so important to us.

Our planet is experiencing far-reaching changes —
Changes which are only just starting to impact us.
We all bear responsibility for a better and more sustainable future —
from large multinational companies right down to the smallest family units.

'Immer Besser' stands for our conviction of being forever better in everything we do. It motivates us time and time again to develop better, more intelligent machines so that the households and businesses that use them can be more sustainable — from one generation to the next.

For our planet –
the only home we have.

Saving our common home is a race against time. That's why we keep on setting ourselves ambitious targets and are continuously expanding our commitment.

With these promises, we intend to continue along the path we have already embarked on:

Sustainability at all levels

We are continually working towards making sustainability an essential component of every phase of the product life cycle – throughout the entire value creation chain and, in particular, during use by our customers.

Manufacturing machines that leave no traces.

It is our intention to develop the best products and services with the least possible impact on the environment – with the aim of them being completely CO₂ neutral.

We give old machines new life in a bid to reduce waste

Our aim is to create a circular value creation chain with net-zero waste, in which all the materials used in our machines are returned to the cycle at the end of a product's life.

360PRO – The system solution for your dental practice

Profit from our holistic system throughout your surgery. High-performance dental solutions can be used to not only optimise your instrument cycle but also to cut down on time and costs. And for your utility room and your staff room, Miele Professional offers efficient solutions to cover both laundry care and dishwashing. We also invite you to profit from our tailored financing models and our after-sales service – round the clock. Comprehensive solutions. From one single source.

With Miele Professional, you are choosing top performance and quality. High-quality products which rise to meet expectations each and every day are the reason for the trust professional users place in our company:

97% of all customers* claim they would buy from Miele Professional again next time round.

Leading instrument manufacturers recommend Miele

Miele Professional stands for the safe and hygienic reprocessing of instruments whilst at the same time ensuring the ultimate in material compatibility and value retention. That is why leading instrument manufacturers recommend using Miele systems to reprocess their instruments.

Delivery and site access (optional)

Machine is delivered and, subject to agreement, transported to place of use

Installation

Machine is installed and levelled, and connected to all supplies (according to installation plan)

Commissioning

Machine is thoroughly checked and handed over to client in full working order, including providing instructions on use to staff

Further services

Service calls according to selected options or service contract

Highest service quality – from commissioning to comprehensive service package

Miele Professional is synonymous with exceptional quality – not least when it comes to service. Blanket service coverage enables a response within 24 hours. And, thanks to on-board spares, first service visits result in around 90% first-time fixes. It is no coincidence, therefore, that Miele's customer service has been awarded top ratings for outstanding service for many years.

Comprehensive service from the very start

Even before a machine is installed, Miele's sales force is available to provide you with in-depth advice. Experienced experts assist in selecting the most suitable machines and configurations to suit individual needs. On request, feasibility calculations can be provided, along with tailored financing packages.

Following the commissioning of new machines, maintenance, repairs and IQ/OQ performance checks are available from Miele Service.

Service to meet professional expectations

Highly qualified Miele service engineers oversee the delivery and commissioning of machines and are available to perform various routine checks during machine operation. This prevents faults occurring in the first place and offers an opportunity to optimise operating parameters on an ongoing basis. In addition to this, regular checks and maintenance safeguard the value of your investment.

Advantages at a glance

- Quality service through blanket network of medical device technicians (more than 230 technicians in Germany alone)
- Short response times and on-site servicing within 24 hours
- 90% of service calls result in first-time fixes
- Reliable spares service, key functional genuine spare parts available for 15 years after series production ceases.

Customised service contracts and inspections

Miele Professional offers surgeries of all sizes tailored service contracts. In honouring these contracts, Miele service engineers regularly assess and evaluate the condition of machines. Depending on the contract concluded, this comprises an analysis of functionality and safety with respect to all key components, including replacement as and when necessary.

Miele Customer Service also offers a whole range of performance and process checks which are performed at various points throughout the life of the machine. Specially trained technicians carry out process tests in accordance with legal requirements and standards as well as country-specific recommendations.

Single-source supply

Miele also offers service packages for Steelco products. Technicians are suitably trained and the required spare parts can easily be accessed via Miele. Miele also offers performance qualification services for products from other manufacturers.

Further services and contracts

Performance qualification

Performance qualification includes the validation of processes to ensure cleaning, disinfection and sterilisation performance.

Maintenance contract

Maintenance involves the replacement of parts subject to wear and tear as part of preventative maintenance. In addition to this, regular checks and maintenance safeguard the value of your investment.

Full-service maintenance contract

Alongside regular maintenance, a full-service maintenance contract from Miele Professional also covers the costs of further potential repairs.

Hygiene inspection

Miele offers ProHygiene tests for washing machines and dishwashers. A bioindicator provides proof of disinfection on these machines.

Miele MOVE. Your digital solution for the efficient management of machines, data and processes.

Intuitive, transparent, efficient.

Miele MOVE connects thermal disinfectors and small sterilisers, optimises processes and saves time and money in the process. Digital solutions combine convenient user interfaces with useful functions and direct service support to continuously optimise work in your dental practice. Make your next move!

Process data acquisition for safe documentation

High hygiene standards apply to the reprocessing of medical instruments. Miele MOVE provides support in monitoring and documenting special-purpose programmes with detailed data capture. Operating data is saved and visualised using easily comprehensible protocols and process charts. This allows prescribed process parameters to be observed, programme data to be kept as legal evidence and approvals to be linked to individuals.

Notifications makes for short response times

Treatment and the reprocessing of medical instruments should not be jeopardised by downtimes and faults. Miele MOVE automatically informs you of the status of your machines. This way, your team is notified directly of the programme status or technicians can be alerted in the event of interruptions. This accelerates processes, increases productivity and reduces running costs.

Service optimisation through direct service contact

Machines used in the cleaning, disinfection and sterilisation of instruments are essential in maintaining hygienic processes in your practice. Miele MOVE reduces downtimes: the digital platform automatically generates detailed notifications which can be forwarded straight to Miele or an authorised Miele service partner by email. This speeds up the repair process.

Dashboard & widgets for an intuitive user interface

Miele MOVE makes managing your compatible machines convenient and secure. A clearly structured dashboard, customisable widgets and self-explanatory symbols make sure that you can concentrate on your work now that you can check the hygiene status at a glance.

The hygiene room – perfect solutions covering thermal disinfectors, sterilisation and documentation

360 PRO

Tried-and-tested Vario TD Dental cleaning programme

The Vario TD Dental programme developed by Miele is ideal for the routine reprocessing of all thermally resistant instruments in compliance with DIN EN ISO 15883. This approach is particularly gentle on materials and is especially recommended for the reprocessing of transmission instruments. Hot air drying on the PG 8591 thermal disinfectant ensures that instruments are dried thoroughly at the end of the process.

Examples of installation in a run of cabinetry

Room size: approx. 250 x 250 cm (length x width)

Hygiene room with L-shaped run of units

An L-shaped hygiene room offers additional elbow room and storage space. The unclean side with the sink and thermal disinfector is separated even more distinctly from the clean side with the small steriliser, process documentation and label printer through the angled configuration.

Room size: approx. 300 x 200 cm (length x width)

Hygiene room with 2 separate runs of units

This is the optimum solution for practices with a large amount of space and several practitioners. The unclean side with sink and thermal disinfector is physically separated from the clean side with the steriliser, documentation and label printer. Cabinets on both sides create space on the worktop and further reduce the risk of cross-contamination.

Room size: approx. 300 x 150 cm (length x width)

Hygiene room with continuous run of units

With this arrangement, reprocessing occurs along a continuous run of units. The unclean side includes a sink and a thermal disinfector. Chemicals, depending on the model, can be accommodated in a base unit, in the integrated tank, in the machine plinth or in a proprietary Miele dispensing unit. A glass panel separates this area from the clean side with its small steriliser, process documentation and printer for sterile item labels.

Room size: approx. 250 x 250 cm (length x width)

Room size: approx. 300 x 150 cm (length x width)

Miele thermal disinfectors – the perfect solution to meet your needs

Exclusive

The PG 8591 thermal disinfecter provides exceptional performance, efficiency and safety when it comes to cleaning, disinfecting and drying dental instruments. Thanks to the active DryPlus hot air drying feature with HEPA filtration, this is the ideal solution for reprocessing intricate and narrow-lumened instruments.

The all-rounder

The PG 8581 thermal disinfecter represents a universal solution for cleaning and disinfecting dental instruments. The combination of spray pressure, sensors and application-specific programmes on the PG 8581 thermal disinfecter guarantees outstanding reprocessing results.

ProCare Dent:
Carefully matched
process chemicals

More information
on Page 54 ff.

Ergonomic

The new PWD 8532 thermal disinfectors provide an ergonomic working height for convenient loading and unloading, without the need to stoop or bend. Furthermore, two 5 l canisters of process chemicals can be stored space-savily in the plinth.

Compact

New, compact PWD 8531 thermal disinfectors achieve safe, top-class reprocessing results while also enabling flexible positioning. With their space-saving design, the new thermal disinfectors can be placed on top of any run of units, even in small hygiene rooms.

PWD 8531, PWD 8532 thermal disinfectors

Miele benefits with a payback

Greater efficiency for smaller practices

- As countertop version, free-standing or built-under - a solution for every hygiene room
- A right-sized chamber adapted to suit reprocessing in small surgeries
- Capacity: 12 injector nozzles and instrument sets* for up to 70 patients

* Instrument set consisting of mouth mirror, probe and forceps

Convenient operation

- Direct-access buttons for fast access to programmes
- 4" colour display
- Visual control thanks to all-glass door
- Easy-to-clean glass surface

Greater safety

- Proven Miele quality benefitting from Miele's significant experience in application technology
- Independent systems for the continuous monitoring of process parameters, in particular pressure and temperature.
- Comprehensive process documentation

High quality

- Integrated water softener for optimum results
- Dry Plus hot-air drying to preserve the value of instruments
- Triple water filtration for optimum rinse results
- High-quality stainless steel used in chamber, on spray arms and on filters for product longevity

Simple dispensing

- Automatic and simple dispensing of liquids via two dispenser pumps.
- On the PWD 8531, process chemicals are dispensed from integrated chemical reservoirs during the appropriate reprocessing phases.
- On the PWD 8532 with its plinth, dispensing is from two integrated 5 l canisters.

Thorough drying

- Ideal solution for lumened instruments
- DryPlus hot air drying with an upstream HEPA H 14 filter (retention rate: 99.995%)

Our new thermal disinfectors for small dental practices

A compact, high-performance package – in Miele quality

| Thermal disinfectors | PWD 8531 | PWD 8532 |

PG 8581, PG 8591 thermal disinfectors

Miele benefits with a payback

Greater performance

Miele thermal disinfectors excel in terms of cleaning performance combined with high throughput.

- The innovative heater pump adjusts pump pressure to the programme stage in question, thereby ensuring optimum results.
- Capacity: 44 lumened instruments + instrument sets* for up to 160 patients

* Instrument set consisting of mouth mirror, probe and forceps

Greater safety

The new generation raises the benchmark in terms of hygiene and safety in the reprocessing of instruments.

- Multi-stage filtration system is highly efficient in removing dirt particles from the wash water
- Laser technology is used to weld the chamber, which does not contain visible heater elements, to give a perfectly smooth, crevice-free finish offering no nooks or crannies where blood or soil can accumulate

More convenience

Numerous convenience features make work processes easier for users.

- The patented salt container is located in the door for easy access.
- AutoClose: Slight contact between the door and the casing is sufficient to automatically close the door
- 'Touch on Steel' controls: The control panel consists of a continuous, flush stainless steel surface.

Safety through monitoring

The thermal disinfectors feature spray pressure and spray arm monitoring and some models also monitor water conductivity. These advanced sensors make a considerable contribution towards ensuring the reliability of reprocessing.

The integrated sensors monitor deviations from the selected programme parameters, allowing rapid intervention on the part of users.

Efficient drying

- EcoDry: After the programme ends, the door of the PG 8581 opens automatically thanks to the AutoOpen function. This releases hot, moisture-laden air, allowing the load to dry and cool down faster.
- DryPlus hot-air drying on the PG 8591 with upstream HEPA 13 filter represents an ideal solution when dealing with narrow-lumened instruments.

Tested Miele quality

The high requirements of a typical working day demand reliable products. For this reason, all Miele thermal disinfectors undergo extensive testing and optimisation in the Miele laboratory. Miele's longstanding experience in application technology is incorporated into its assessments so that all products meet Miele's high quality standards and ensure excellent cleaning performance with constantly high wash pressure – for reliable reprocessing results. Constant high spray pressure and repeatable reprocessing results.

Model overview

Features, programmes, cycle times

Certification:

The PG 8581 and PG 8591 are fully compliant with the EU Medical Device Directive.

Maintenance: Every 24 months or after 1000 hours at the latest.

Equip your thermal disinfector with:

- Baskets and components from Page 24
- Process chemicals on Page 54 ff.
- Process documentation on Page 68 ff.

* In combination with Miele ProCare Dent 40 surfactant.

Dental components for the safe reprocessing of instruments in thermal disinfectors

Miele benefits with a payback

Broad product portfolio

We offer the perfect reprocessing solution for all types of instruments – depending on requirements, in the form of adapters, inserts or injection nozzles.

Innovative solutions

Through ongoing exchanges with users, we arrive at practical solutions which can be reconfigured to suit individual disciplines.

High capacity

Up to 44 lumened instruments in addition to instrument sets – consisting of a mouth mirror, a probe and forceps – for up to 160 patients can be reprocessed using a variety of inserts and adapters in the PG 85xx.

Highly versatile

Thanks to our modular approach, loads can be put together to reflect instrument throughput.

Safety for peace of mind

Reliable reprocessing is based on many years of experience in application technology and fully compliant documentation.

Top-class efficiency

Our products are characterised by longevity, top quality and the guaranteed availability of spare parts.

Components to meet all needs – Sample uses

General dental medicine

Sample load for the reprocessing of lumened and non-lumened instruments

| Components | Description | Mat. no. |
|----------------|--|-----------------|
| A 105/1 | Upper basket, height-adjustable, without injector nozzles, for various instruments. | 10777260 |
| A 836 | Injector nozzle set, for lumened instruments used in dental applications. | 11054660 |
| A 800 | Tubular filter, for safe and economic reprocessing of lumened instruments. | 09960680 |
| A 804 | Cleaning brush, for optimum cleaning of A 800 tubular filter. | 09960720 |
| A 803 | Holder, for loading of transmission instruments. | 09863100 |
| AUF 1 | Holder, for reprocessing of transmission instruments in O 177/1 upper basket. | 05159510 |
| ADS 1 | Silicone adapter, for transmission instruments when using AUF 1 or AUF 2. | 05159530 |
| ADS 2 | Silicone adapter, for transmission instruments when using AUF 1 or AUF 2. | 05159540 |
| ADS 3 | Silicone adapter, for transmission instruments when using AUF 1 or AUF 2. | 05159550 |
| A 801 | Adapter for use of AUF 1 and AUF 2 in combination with A 105. | 09862940 |
| A 813/1 | Adapter, for transmission instruments with external spray channel. | 11763880 |
| A 814/1 | Holder, for reprocessing Air Scalers and piezo scaler tips. | 11691870 |
| A 819 | Irrigation sleeve, for lumened instruments. | 10721750 |
| E 337/1 | Insert, for upright instruments. | 07984130 |
| A 830/1 | Insert for separable mouth mirrors. | 11729480 |
| E 430/1 | Insert to accommodate a variety of instruments. | 06643200 |
| E 473/2 | Filter with lid, for various small components. | 10623720 |

| Components | Description | Mat. no. |
|--------------|--|----------------|
| A 151 | Upper basket, for various standard DIN mesh trays and various inserts. | 9862410 |
| A 315 | Module, for increased capacity and reprocessing of lumened instruments in dentistry. | 11055980 |
| E 430/1 | Insert to accommodate a variety of instruments. | 06643200 |
| E 198 | Insert, for up to 6 mesh trays/kidney dishes. | 07984040 |
| E 197 | Insert to accommodate a variety of instruments. | 07984090 |

Components to meet all needs - Sample uses

Implantology and Orthodontics

Sample load for reprocessing up to 18 large trays and 22 lumened instruments

| Components | Description | Mat. no. |
|----------------|--|-----------------|
| A 105/1 | Upper basket, height-adjustable, without injector nozzles, for various instruments. | 10777260 |
| A 836 | Injector nozzle set, for lumened instruments used in dental applications. | 11054660 |
| A 800 | Tubular filter, for safe and economic reprocessing of lumened instruments. | 09960680 |
| A 804 | Cleaning brush, for optimum cleaning of A 800 tubular filter. | 09960720 |
| A 803 | Holder, for loading of transmission instruments. | 09863100 |
| AUF 1 | Holder, for reprocessing of transmission instruments in O 177/1 upper basket. | 05159510 |
| ADS 1 | Silicone adapter, for transmission instruments when using AUF 1 or AUF 2. | 05159530 |
| ADS 2 | Silicone adapter, for transmission instruments when using AUF 1 or AUF 2. | 05159540 |
| ADS 3 | Silicone adapter, for transmission instruments when using AUF 1 or AUF 2. | 05159550 |
| A 801 | Adapter for use of AUF 1 and AUF 2 in combination with A 105/1. | 09862940 |
| A 865 | Perfect hold for MF and 3F syringes | 11709860 |
| A 813/1 | Adapter, for transmission instruments with external spray channel. | 11763880 |
| A 819 | Irrigation sleeve, for lumened instruments. | 10721750 |
| E 523 | Insert, for 6 mesh trays. | 05649700 |

| Components | Description | Mat. no. |
|--------------|---|-----------------|
| A 151 | Upper basket, for various standard DIN mesh trays and various inserts. | 09862410 |
| A 317 (2x) | Insert, for 6 mesh trays. | 11710110 |

Components to meet all needs - Sample uses

Orthodontics

Sample load for the reprocessing of instruments, forceps and dental impression plates

| Components | Description | Mat. no. |
|----------------|--|-----------------|
| A 105/1 | Upper basket, height-adjustable, without injector nozzles, for various instruments. | 10777260 |
| A 836 | Injector nozzle set, for lumened instruments used in dental applications. | 11054660 |
| A 800 | Tubular filter, for safe and economic reprocessing of lumened instruments. | 09960680 |

Components: Baskets and inserts

for PWD 8531 and PWD 8532

APWD 060

Basket, for various inserts and mesh trays.

- Loading HWD 230, 370 mm, 395 mm
- A depth of just 370 mm is available in the area of the basket coupling across a width of 50 mm.
- H 85, W 395, D 469 mm

APWD 061

Basket, for handpieces, different inserts and mesh trays.

- Equipped with 6 holders for handpieces, contra-angles and turbines
- 6 injectors Ø 3.8 mm x 15 mm for saliva extractors
- Active inner drying of dental hand-pieces and contra-angles
- Loading dimensions H 230, W 320, D 395 mm
- H 85, W 395, D 469 mm

APWD 062

Insert, for upright instruments.

- Suitable for probes, tweezers and mouth mirrors
- H 122, W 124, D 395 mm

APWD 063

Insert, ideal for up to 8 trays or cassettes.

- Equipped with 9 holders, spacing: 40 mm
- H 110, W 180, D 390 mm

| Article | Description | Mat. no. | Art. no. | EAN no. |

| APWD 063 | Insert for the optimum loading of up to 8 trays or cassettes. | 11017170 | 68406300D | 4002516066675 |

Components: Holders, adapters and nozzles

for PWD 8531 and PWD 8532

APWD 064
Blind stopper, for sealing connections not occupied by transmission instruments.

- H 23.5, W 25, D 25 mm

APWD 067
Adapter, upper section for adapters for reprocessing transmission instruments.

- Can only be used with matching APWD 068 lower section
- H 18.5, W 35, D 35 mm

APWD 068
Adapter, lower section for use on injector rail of APWD 061 injector basket.

- Can only be used with matching APWD 067 upper part
- H 30.5, W 40, D 40 mm

APWD 069
Filter, prevents particles from entering transmission instruments.

- To avoid blockages by micro particles
- Stainless steel, reprocessable
- H 1, W 30, D 30 mm

APWD 070
Silicone adapter, for holding transmission instruments, Ø 19–21 mm

- Can only be used with APWD 067 holder
- H 20.5, W 27, D 27 mm

APWD 071
Silicone adapter, for holding transmission instruments, Ø 14–17 mm

- Can only be used with APWD 067 holder
- H 20.5, W 27, D 27 mm

Components: Holders, adapters and nozzles

for PWD 8531 and PWD 8532

APWD 072

Injector nozzle, for optimum reprocessing of hollow instruments, e.g. saliva extractors.

- Suitable for the APWD 061 basket
- Using adapter APWD 073
- Figure shows APWD 072 with APWD 073 adapter
- Ø 3.8 x 50 mm

APWD 073

Adapter, for additional APWD 072 injector nozzles in APWD 061 basket.

A 822

Adapter for use of A 814/1 in the injector baskets of PWD 8531 and PWD 8532.

- For use in injector basket APWD 061
- H 16, W 20, D 20 mm

Further components for all thermal disinfectors on Page 48 ff.

Baskets and basket components

for PG 8581 and PG 8591

A 105/1 Upper basket, height-adjustable, without injector nozzles, for various instruments.

- Right-hand side: space for 22 injectors
- Left-hand side free for inserts
- Active internal drying of lumened instruments
- Active inner drying of dental hand-pieces and contra-angles
- A 800 tubular filter can be used in both injector manifolds
- Integrated spray arm
- Clearances H 225 +/- 30, W 360, D 445 mm (depth of 460 mm is available on the left-hand side with a width of 215 mm)
- H 202, W 528, D 528 mm

Items included:

- A 838 set of spanners [qty]: 1

A 836 Injector nozzle set, for lumened instruments used in dental applications.

- For use in A 105/1 upper basket
- Pack of 22 dental injector nozzles (A 833)

A 102 Upper basket, height adjustable, for inserts.

- Loading HWD 205 +/- 30 mm, 475 mm, 443 mm
- With integrated spray arm
- Open front
- H 206, W 528, D 527 mm

A 151 Upper basket, for various standard DIN mesh trays and various inserts.

- Vertical clearance dependent on upper basket combination with A 102 H 230 +/- 30 mm A 105 H 210 mm
- Loading width 490 mm, depth: 498 mm
- H 88, W 529, D 522 mm

A 315 Module, for increased capacity and reprocessing of lumened instruments in dentistry.

- Increases the injector capacity from 22 to 44
- Backwards-compatible with all A 151 products on the market
- Compatible with all standard dental & ENT accessories
- Suitable for use with upper baskets A 101, A 102 and A 105/1
- Injector nozzles not provided
- Active inner drying of dental hand-pieces and contra-angles
- A 800 tubular filter for use in either injector rail (not provided)
- Loading dimensions when used in A 151 lower basket whilst at the same time using A 105/1 upper basket: H 210 +/- 30, W 383, D 479 mm
- Injector rail vertical clearance when using upper basket: A 105/1 135 mm +/- 30 mm
- H 145, W 492, D 542 mm

Items included:

- A 838 set of spanners [qty]: 1

A 800 Tubular filter, for safe and economic reprocessing of lumened instruments.

- Filter made from multi-ply stainless-steel mesh for load carriers
- Mesh size 63 µm
- Can be cleaned with A 804 cleaning brush
- For use in A 105/1 upper basket and A 315 module/injector
- H 405, W 22.5, D 22.5 mm

Baskets and basket components

for PG 8581 and PG 8591

A 804 Cleaning brush, for optimum cleaning of A 800 tubular filter.

- Suitable for cleaning tubular filter A 800
- Twisted wire brush with spiral bristles
- Handle with grommet
- Length 500 mm, brush length 100 mm
- H 500, W 20, D 20 mm

UBS 3 Conversion kit, for use with selected G 78 upper baskets in PG 85 series machines.

- For older load carriers without drying unit connection
- For older load carriers with welded water supply
- Conversion of upper basket by Miele Customer Service Department

Components: Holders, adapters, set of wrenches

for PG 8581 and PG 8591

A 803

Holder, for loading of transmission instruments.

- For use in A 105/1 upper basket and A 315 module together with A 800 tubular filter
- Suitable for numerous dental handpieces and turbines
- H 31.5, W 32, D 40 mm

A 812

Adapter, for transmission instruments with external spray channel.

- For use in O 177/1 upper basket
- Suitable for up to 4 transmission instruments, external spray channel
- Alternatively suitable for 3 tips of air scalers, piezo scalers
- H 480, W 44, D 44 mm

Items included:

- E 362 blind stopper [qty]: 4
- FP filter plate [qty]: 5

A 865

For perfect hold for MF and 3F syringes

- For use in A 105/1 upper basket and A 315 module
- Compatible with syringes from several well-known manufacturers
- Only for use in combination with A 800 tubular filter
- H 121.4, W 28, D 28 mm

A 838

Tool set, for adjusting basket heights and installing/removing injector nozzles.

- Set consisting of Torx wrench and open-jaw spanner
- Suitable for Miele upper baskets and mobile units

Components for reprocessing of dental nitrous oxide sedation systems

for PG 8581 and PG 8591

APWD 325

Insert for reprocessing dental nitrous oxide sedation hoses.

- Simultaneous reprocessing of up to 5 double hose sets possible
- With adapter set for secure connection to injector system
- Reliable internal/external cleaning and drying of hoses
- Parallel reprocessing of patient masks in E 146 mesh tray
- Large capacity maintained for other instruments in each cycle
- H 132, W 323.5, D 379 mm

APWD 328

Insert with extension set for reprocessing dental nitrous oxide sedation systems.

- Capacity expansion to up to a total of 5 double hose sets
- 5x clip and swivel plates
- H 77, W 90, D 100 mm

APWD 326

Retrofit set with adapters for double hoses used in dental nitrous oxide systems

- Contains 2 adapters
- Retrofit kit for APWD 325
- H 65, W 40, D 78 mm

E 146

Insert, for various instruments.

- For dental sedation masks
- Mesh width on the base 3 mm, sides 1.7 mm, lid 8 mm
- Equipped with 2 hinged handles
- For use in upper and lower basket
- H 55, W 150, D 225 mm

Components: Holders and filters for use with A 801 adapters

for PG 8581 and PG 8591

AUF 1 Holder, for reprocessing of transmission instruments in O 177/1 upper basket.

- Can also be used with adapter A 801 in A 105/1 upper basket
- Consists of: Seal, threaded bush, bracket, filter housing lower section, upper section, 5 filter inserts

Items included:
• FP filter plate [qty]: 5

AUF 2 Holder, for reprocessing of transmission instruments in O 801/2 upper basket.

- Can also be used with adapter A 801 in A 105/1 upper basket
- Consists of: Seal, threaded bush, bracket, filter housing lower section, upper section, 5 filter inserts

Items included:
• FP filter plate [qty]: 5

FP 20 Filter insert, for dental and surgical handpieces with AUF 1/AUF 2.

- To avoid blockages by micro particles
- Porosity 2
- 20 filter plates per pack
- Diameter 30 mm

A 801 Adapter for use of AUF 1 and AUF 2 in combination with A 105/1.

- H 50, W 50, D 50 mm

ADS 1 Silicone adapter, for transmission instruments when using AUF 1 or AUF 2.

- For dental and surgical handpieces/turbines with Ø approx. 20 mm
- White
- H 20.5, W 32.4, D 32.4 mm

ADS 2 Silicone adapter, for transmission instruments when using AUF 1 or AUF 2.

- For dental and surgical handpieces/turbines with Ø approx. 16 mm
- Green
- H 20.5, W 32.4, D 32.4 mm

Components: Nozzles for baskets with injector rail

for PG 8581 and PG 8591

A 832

Injector nozzle, for a variety of load items.

- Suitable for mobile injector units, with screw connection
- Optimum cleaning results thanks to lateral holes
- H 60, W 2.5, D 2.5 mm

A 816

Injector nozzle, for a variety of load items.

- Suitable for mobile injector units and baskets, screw connection
- Optimum cleaning results thanks to lateral holes
- H 90, W 2.5, D 2.5 mm

A 833

Injector nozzle, for a variety of load items.

- Suitable for mobile injector units, with screw connection
- Optimum cleaning results thanks to lateral holes
- H 110, W 4, D 4 mm

A 834

Injector nozzle, for various loads, particularly for rectoscopes.

- Suitable for rectoscopes, trocar sleeves and other load items
- Equipped with a spring (Mat. no. 4692430) for height adjustment
- Optimum cleaning results thanks to lateral holes
- H 150, W 8, D 8 mm

E 336

Irrigation sleeve, for pipettes/MIS instruments in injector units.

- Pipettes up to max. 445 mm length can be held securely
- Plastic, with screw fitting
- H 121, W 11, D 11 mm

A 817

Irrigation sleeve, for ENT instruments.

- Suitable for mobile injector units and baskets, screw connection
- Including cap and mounting clip
- Length 65 mm, diameter 11 mm
- Cap, opening Ø 6 mm (Mat. no. 4174960)
- Clamp (Mat. no. 4174850)

Components: Nozzles for baskets with injector rail

for PG 8581 and PG 8591

A 818
Irrigation sleeve cap, for securing of instruments in irrigation sleeves.

- Packaging unit with 12 caps
- Opening can be adapted to different applications
- H 20, W 20, D 20 mm

A 819
Irrigation sleeve, for lumened instruments.

- e.g. for magnetostrictive ultrasound scaler tips such as Cavitron
- Int. dimension 108 mm, ext. dimension 128 mm, Ø 11 mm
- Including cap with an opening of Ø 10 mm
- With clamp
- H 10, W 100, D 114 mm

Components: Inserts

for PG 8581 and PG 8591

- E 198**
Insert, for up to 6 mesh trays/kidney dishes.
- Suitable for 6 mesh trays or kidney dishes
 - 7 holders (6 compartments), height 160 mm, spacing 67 mm
 - For mesh tray E 197
 - H 160, W 180, D 495 mm

- E 363**
Insert, for GYN and ENT instruments.
- Mesh size: 1 mm
 - Equipped with lid
 - For use in upper and lower basket
 - Without holders for instruments
 - H 55, W 150, D 225 mm

- E 131/1**
Insert, for 5 mesh trays/kidney dishes.
- Suitable for 5 mesh trays or kidney dishes
 - Equipped with 6 holders, height: 160 mm, spacing: 80 mm
 - For lower basket
 - For mesh tray E 363
 - H 168, W 180, D 495 mm

- E 337/1**
Insert, for upright instruments.
- Suitable for probes, tweezers and mouth mirrors
 - Equipped with 4 plastic holders
 - 12 compartments, approx. 22 x 28 mm
 - 4 compartments, approx. 25 x 28 mm
 - 48 compartments, approx. 13 x 14 mm
 - H 148, W 173, D 445 mm

- E 468**
Insert, for various utensils
- Made from welded cross-wires/stainless steel with lid and compartments
 - Mesh size 5 x 5 x 1 mm
 - For reprocessing of surgical motors after removal of partition
 - Please observe reprocessing instructions from manufacturers
 - Not for use in E 198
 - H 76, W 170, D 250 mm

- APWD 329**
Insert for reprocessing dental saliva extractors.
- Suitable for up to 80 dental saliva extractors
 - 80 compartments, 18 x 18 mm each
 - Mesh size on base 8 x 8 mm
 - H 80, W 226, D 226 mm

Components: Inserts

for PG 8581 and PG 8591

E 476
Holder, for micro-instruments with a diameter of 4–8 mm.

- Also to secure surgical motors in E 468 mesh tray
- For use in trays with 5 mm mesh
- 50 per bag

E 130
Insert for the optimum loading of 10 trays.

- Equipped with 11 holders, height: 170 mm, spacing: 35 mm
- For use in lower basket
- H 180, W 180, D 445 mm

E 523
Insert, for 6 mesh trays.

- Equipped with 7 holders (6 compartments), H 145, spacing 50 mm
- H 151, W 220, D 450 mm

A 317
Insert, for 6 mesh trays.

- Equipped with 7 holders (6 compartments)
- Angle of incline can be adjusted to suit various model series
- H 142.3, W 154, D 464.6 mm

E 339/1
Insert, for up to 12 tray bases and trays.

- Suitable for 12 tray dividers or trays
- Equipped with 13 holders (12 compartments)
- Maximum tray size: 290 x 30 mm
- H 115, W 305, D 498 mm

E 378
Insert, for various instruments.

- 0.8 mm wire mesh, 1.7 mm mesh gauge, 5 mm all-round frame
- Equipped with 2 handles
- For use in lower basket
- H 110, W 460, D 460 mm

Components: Inserts

for PG 8581 and PG 8591

E 379

Insert, for various instruments.

- 0.8 mm wire mesh, 1.7 mm mesh gauge, 5 mm all-round frame
- Equipped with 2 handles
- For use in upper and lower basket
- H 110, W 180, D 445 mm

E 806/1

Insert, for 8 half-trays.

- 9 holders (8 compartments), W 295, spacing 37 mm
- Max. tray size 290 x 30 mm
- H 114, W 305, D 348 mm

E 430/1

Insert to accommodate a variety of instruments.

- Made from wire mesh with 5 mm mesh width
- H 40, W 150, D 445 mm

E 441/1

Insert, for micro-instruments.

- The mesh width on the base is 1.7 mm
- The sides are closed, stackable
- Sections w/ 6 adjustable dividers for positioning of instruments
- Can be sterilised in steam at 121°C/134°C
- H 60, W 183, D 284 mm

E 520

Insert, for root canal instruments.

- Suitable for 17 root canal instruments
- Hinged
- Can be sterilised in steam at 121°C/134°C
- H 45, W 75, D 30 mm

E 147/1

Insert, for 10-12 mouth rinsing beakers.

- Suitable for 10-12 mouth rinsing cups, max. Ø 80 mm
- Plastic-coated
- H 155, W 220, D 455 mm

Components for process chemical dispensing and plinths

for PG 8581 and PG 8591

PG 8596

Dispenser unit, for process chemicals and dispenser modules, stainless steel.

- 2 removable drawers for loading 3 x 5 l canisters each
- Interior dimensions: H 285–690, W 250, D 425–555 mm
- Capacity for 2 dispenser modules per level
Divided into 2 levels: removable drawers with drip tray on telescopic racks for supply containers with process chemicals, canister sizes (L x W x H)
Max. capacity: 6 x 5 l canisters (245 x 145 x 225 mm*).
- The lower drawer also accommodates larger containers:
2 x 10 l: 140 x 193 x 307 mm
2 x 10 l: 223 x 203 x 321 mm
2 x 10 l: 229 x 193 x 323 mm
2 à 10 l: 194 x 204 x 353 mm
1 à 20 l: 289 x 233 x 396 mm
1 à 25 l: 288 x 234 x 456 mm
- Drip tray facilitates better residual emptying of canisters
- H 835, W 300, D 600 mm

PG 8596

Dispenser unit, for process chemicals and dispenser modules, stainless steel, white.

- 2 removable drawers for loading 3 x 5 l canisters each
- Interior dimensions: H 285–690, W 250, D 425–555 mm
- Capacity for 2 dispenser modules per level
Divided into 2 levels: removable drawers with drip tray on telescopic racks for supply containers with process chemicals, canister sizes (L x W x H)
Max. capacity: 6 x 5 l canisters (245 x 145 x 225 mm*).
- The lower drawer also accommodates larger containers:
2 x 10 l: 140 x 193 x 307 mm
2 x 10 l: 223 x 203 x 321 mm
2 x 10 l: 229 x 193 x 323 mm
2 à 10 l: 194 x 204 x 353 mm
1 à 20 l: 289 x 233 x 396 mm
1 à 25 l: 288 x 234 x 456 mm
- Drip tray facilitates better residual emptying of canisters
- H 835, W 300, D 600 mm

DOS K 85/1 flex

For liquid alkaline detergents and chemical disinfectants, neutralising agent

- Peristaltic pump, adjustable via machine's electronic controls
- Integrated dispenser monitoring function ensuring high level of process security in compliance with EN ISO 15883
- Short siphon (217 mm) for 5 l canister, incl. level monitoring
- Length of connection cable: 3.00 m
- Length of suction hose: 1.80 m
- Successor for DOS K85/1

DOS K 85 flex

As per DOS K 85/1 Flex

- But with long siphon for 5 l and 10 l canisters (352 mm)
- Option: Long siphon for 20-30 l containers (467 mm) as well as matching cap available via Spares (Mat. nos. 11033480 and 11033560)
- Successor for DOS K85

UG 30-60/60-85

Box plinth, 60 cm deep, 60 cm wide.

- Suitable for all machines with a width and depth of 60 cm
- H 317, W 600, D 600 mm

UG 30-90/60-85

Box plinth, for machine and side unit, 60 cm deep, 90 cm wide.

- For use in Aqua Purificator PG 8595 and DOS cabinet PG 8596
- Stainless-steel plinth, bolted to machine
- H 300, W 897, D 542 mm

Components: Inserts

For all Miele thermal disinfectors

- E 197**
Insert to accommodate a variety of instruments.
- Mesh width on the base 3 mm, sides 1.7 mm, lid 8 mm
 - Can be sterilised in steam at 121°C/134°C
 - H 42, W 150, D 225 mm

- E 473/2**
Filter with lid, for various small components.
- Hooks in place
 - With easy-close lid
 - H 88.4, W 66, D 66 mm

- E 491**
Insert, for rotating instruments.
- Suitable for 18 turbine shafts
 - Suitable for 30 contra angle shafts
 - Also suitable for rotating instruments, such as used in podiatry
 - H 53, W 70, D 120 mm

- E 802/1**
Insert, for various vertical instruments.
- Suitable for loading probes, tweezers or mouth mirrors
 - Equipped with 3 plastic holders
 - 8 compartments, approx. 30 x 28 mm
 - 8 compartments, approx. 16 x 28 mm
 - 15 compartments, approx. 16 x 20 mm
 - H 148, W 163, D 295 mm

- A 830/1**
Insert for separable mouth mirrors.
- For use in insert E 337/1 and E 802/1
 - 3 compartments Ø 8 mm, 14 compartments 10 x 19 mm, 2 compartments 8 x 19 mm
 - Mouth mirror handles can be placed in insert compartments
 - Suitable for mouth mirrors ≥ 3
 - H 12, W 49, D 159 mm

- E 522/1**
Insert, for 9 dental impression plates.
- Fitted with 9 brackets
 - H 140, W 100, D 190 mm

Components: Inserts

For all Miele thermal disinfectors

E 521/2
Insert, for 7 extraction, orthodontic or technical forceps.

- Compartment size: 21 x 80 mm
- Also suitable for forceps, such as those used in podiatry
- H 135, W 100, D 189 mm

E 801/1
Insert, for 8 mouth rinsing beakers.

- Suitable for 8 mouth rinsing beakers, max. Ø 75 mm
- Plastic-coated
- H 155, W 200, D 320 mm

E 807
Insert, for 3 mesh trays and kidney dishes.

- 4 holders (3 compartments) H 165, spacing 58 mm
- H 144, W 140, D 290 mm

E 143
Insert to accommodate a variety of instruments.

- 1 mm wire mesh, 5 mm mesh gauge, 5 mm all-round frame
- Equipped with 2 hinged handles
- H 55, W 255, D 230 mm

A 815
Nozzle, for transmission instruments with external spray channel.

- For use with A 812, A 813/1 or in A 105/1 upper basket
- Use in A 105/1 only in combination with A 800 tubular filter.
- Consists of 4 nozzles with silicone hoses, length approx. 114 mm
- H 10, W 10, D 114 mm

A 813/1
Adapter, for transmission instruments with external spray channel.

- For use in A 105 and A 105/1 as well as in the A 315 module - Use only in combination with A 800 tubular filter
- For use in APWD 061 basket - Use only in combination with APWD 069 filter insert and A 822 adapter.
- Two-piece, comprising an upper and lower section, incl. accessories
- H 120, W 120, D 300 mm

Items included:

- E 362 blind stopper [qty]: 3
- Nozzle with silicone hose [qty]: 4

Components: Inserts

For all Miele thermal disinfectors

A 814/1

Holder, for reprocessing Air Scalers and piezo scaler tips.

- For use in A 105/1, O 177/1 and APWD 061 upper baskets
- Universal, for various tip types
- Use of several holders possible in combination with A 813/1 or A 812
- Use in thermal disinfectors PWD 8531 and PWD 8532 possible
- For use in A 105, A 105/1, O 177/1 baskets and APWD 061 and A 315 module
- For use in A 105, A 105/1 and A 315 only in combination with A 800 tubular filter.
- Can only be used in the O 177/1 in conjunction with the A 812 holder and the FP filter insert.
- Use in APWD 061 only in combination with A 822 adapter and A 813/1 adapter with APWD 069 filter
- H 480, W 220, D 220 mm

Components for reprocessing with fully demineralised water

For all Miele thermal disinfectors

PG 8595
Aqua Purificator, for two full demineralisation cartridges, stainless steel.

- Suitable for VE/TE P 2800 and VE/TE P 2000
- Accommodates ConductivityMeter CM/1
- External dimensions: H 835 (820 without lid), W 300, D 600 mm
- H 835, W 300, D 600 mm

PG 8595
Aqua Purificator, for two full demineralisation cartridges, white.

- Suitable for VE/TE P 2800 and VE/TE P 2000
- Accommodates ConductivityMeter CM/1
- External dimensions: H 835 (820 without lid), W 300, D 600 mm
- H 835, W 300, D 600 mm

SK
Fast-action coupling, for convenient replacement of demineralisation cartridges

- 2 x VA plug connection 3/4",
- 2 x quick connection 3/4"
- Incl. seals for existing hoses

UfZ
Conversion kit for second cartridge, for quick replacement with second full/partial demineralisation cartridge

- 2 x VA plug connection 3/4" for installation on second cartridge

VE P 2800
Full demineralisation cartridge, for water demineralisation

- Max. delivery: 800 l/h
- ConductivityMeter CM/1 measures remaining capacity
- Max. water inlet temperature 40°C
- pressure range 0.5-10 bar
- Resin volume 19 l
- H 570, W 0, D 0 mm

LP 2800
Water softening cartridge, empty, for manually refilling with single-use resins

- Max. delivery: 800 l/h
- Max. water inlet temperature 40°C
- pressure range 0.5-10 bar
- Resin volume 19 l
- H 570, W 0, D 0 mm

Components for reprocessing with fully demineralised water

For all Miele thermal disinfectors

E 315 Single-use resin for fully demineralised water, for regeneration of full demineralisation cartridges

- For use in the LP 2800 empty cartridge
- 20 l of homogenously mixed resins
- Carton with 2 x 10 l bags
- Vacuum sealed in plastic bags
- Including replacement filter bag

E 316 Plastic barrel, for refilling single-use resins

- With lid and funnel for single use resin
- Equipped with lid and funnel
- Refill set, max. 30 l
- Refill set for disposable resin (30 l)

VE P 2000 Full demineralisation cartridge, for water demineralisation

- Max. delivery: 450 l/h
- ConductivityMeter CM/1 measures remaining capacity
- Max. water inlet temperature 40°C
- pressure range 0.5-10 bar
- Resin volume 12.5 l
- H 410, W 0, D 0 mm

CM/1 Conductivity Meter, for measuring conductivity level and cartridge replacement indicator

- Suitable for full demineralisation cartridges
- Optical and acoustic cartridge replacement indicator
- 10-point measurement in 0 - 199.9 $\mu\text{S}/\text{cm}$ range
- One-line display, connection to external LED possible
- Including wall bracket and power unit
- H 110, W 125, D 52 mm

ProCare Dent – process chemicals for Miele thermal disinfectors

One system – Many benefits

Integrated, holistic system

- Simplicity and reliability
- Proven reprocessing results
- One single contact
- Peace-of-mind package

Top-class cleaning performance

- Each product is carefully geared to the various phases of the washing and disinfection cycle on Miele thermal disinfectors.
- Excellent cleaning results

Exceptional material compatibility

- Excellent cleaning performance combined with high-level material compatibility
- Suitable for the routine reprocessing of standard and transmission instruments
- Prevents discolouration and limescale
- Reduced stains

Excellent value for money

- Excellent efficiency through low dispensing concentrations and low water levels in all programme blocks

ProCare Dent – process chemicals for Miele thermal disinfectors

Product overview

ProCare Dent 10 MA - 5 l
Liquid detergent, mildly alkaline, 5 l, for standard and transmission instruments.

- Particularly suitable for transmission instruments
- Formulated for reprocessing in a Miele thermal disinfectant
- Very gentle on materials
- Liquid concentrate

ProCare Dent 10 A - 5 l
Liquid detergent, alkaline, 5 l for reprocessing standard instruments.

- Suitable for standard instruments (not transmission instruments)
- Formulated for reprocessing in a Miele thermal disinfectant
- High cleaning performance
- Liquid concentrate

ProCare Dent 11 A - 10 kg
Powder detergent, alkaline, 10 kg for reprocessing standard instruments.

- Suitable for standard instruments (not transmission instruments)
- Formulated for reprocessing in a Miele thermal disinfectant
- High cleaning performance
- Powder

ProCare Dent 11 A - 1 kg
Powder detergent, alkaline, 1 kg for reprocessing standard instruments.

- Suitable for standard instruments (not transmission instruments)
- Formulated for reprocessing in a Miele thermal disinfectant
- High cleaning performance
- Powder

ProCare Dent 30 C - 5 l
Acidic neutralisation agent, 5 l, based on citric acid.

- Particularly suitable for transmission instruments
- Formulated for reprocessing in a Miele thermal disinfectant
- Very gentle on materials
- Liquid concentrate

ProCare Dent 30 C - 1 l [Type 1]
Neutralising agent, acidic, 1 l with pouring aid, for optimum neutralisation based on organic acid.

- Particularly suitable for transmission instruments
- Formulated for reprocessing in a Miele thermal disinfectant
- Easier dispensing thanks to precise pouring aid
- Very gentle on materials
- Liquid concentrate

ProCare Dent – process chemicals for Miele thermal disinfectors

Product overview

ProCare Dent 30 P - 5 l

Acidic neutralisation agent, 5 l, based on phosphoric acid.

- Suitable for standard instruments (not transmission instruments)
- Formulated for reprocessing in a Miele thermal disinfectant
- Very gentle on materials
- Liquid concentrate

ProCare Dent 30 P - 1 l [Type 1]

Acidic neutralisation agent, 1 l, with pouring aid, based on phosphoric acid.

- Suitable for standard instruments (not transmission instruments)
- Formulated for reprocessing in a Miele thermal disinfectant
- Easier dispensing thanks to precise pouring aid
- Very gentle on materials
- Liquid concentrate

ProCare Dent 40 - 1 l [Type 1]

Surfactant, 1 l, with pouring aid, for rinse cycle.

- For improved and reduced drying
- Formulated for reprocessing in a Miele thermal disinfectant
- Easier dispensing thanks to precise pouring aid
- Liquid concentrate

ProCare Dent – process chemicals for Miele thermal disinfectors

Accessories

ProCare Universal 61
Reactivation salt, 3 x 2 kg, for regeneration of the integrated softener

- Prevents scaling and protects loads

ProCare Universal 70 ST - 500 ml
Multi-purpose cleaner, mildly alkaline, 500 ml for gently removing grease residues and contamination.

- Effective high concentrate for optimum cleaning results
- Excellent dissolving power for oil and grease
- Very gentle on materials
- Recommended for Miele Professional and Steelco stainless-steel products
- Awarded EU Ecolabel
- Recyclable packaging

CK/1 DIN 51
Canister key to open 5 l, 10 l and 20 l ProCare canisters

DTD 2
Drip tray, for secure positioning of canisters.

- Space for 2 canisters
- Secure place for 5 and 10 l canisters from the ProCare series
- Optimum emptying of media canisters due to storage at an angle
- Suitable for use in an adjacent unit
- H 62, W 420, D 261.9 mm

ProCare Dent – process chemicals for Miele thermal disinfectors

ProCare Dent 40

Additional security in everyday dental surgery work

Routine checks during the reprocessing of dental instruments

ProCare Sure I-PM

Benefits at a glance:

- The test system affords additional everyday security by additionally monitoring machine-based reprocessing in thermal disinfectors.
- Simple positioning in chamber thanks to robust plastic holder
- Simple before/after comparison based on coloured strips and a reference value
- Fast documentation thanks to self-adhesive indicators
- Proven Miele quality

ProCare Protein Check

Benefits at a glance:

- The faster way of testing for proteins
- Test to detect protein residue on completion of thermal disinfection
- Proof of presence of residues on instruments
- Precise application using indicator pen
- Short exposure time of 3 minutes

ProCare Protein Check and ProCare Sure I-PM

The benchmark during **commissioning** and **validation**

Client-specific indicator (incl. process chemicals, water quality) (No direct correlation to cleaning efficacy)

ProCare Sure I-PM

Visual comparison with benchmark **after reprocessing**

ProCare Protein Check

Enables visual check for residual protein **after validated reprocessing in a washer-disinfector**

Additional security in everyday dental surgery work

Routine checks during the reprocessing of dental instruments

ProCare Sure I-PM

Process indicator, sheets of indicators for visual routine monitoring during the cleaning and disinfection process.

- Additional security in routine use
- Simple to handle thanks to self-adhesive indicators
- 192 indicators per packaging unit
- Shelf life of 36 months from the production date
- Precise application with documentation sheet as [PDF download](#)

ProCare Sure H-01

Plastic holder for ProCare Sure I-PM indicators

- Stable plastic holder for simple positioning

ProCare Sure I-PM starter kit

Process indicator, starter kit for visual routine monitoring during the cleaning and disinfection process.

- Additional security in routine use
- Simple to handle thanks to self-adhesive indicators
- 2 plastic holders and 64 individual indicators per packaging unit
- Shelf life of 36 months from the production date
- Precise application with documentation sheet as [PDF download](#)

ProCare Protein Check

Protein Check, for detection and qualitative assessment of protein residues

- Test for residues following cleaning and thermal disinfection
- Precise application
- Short exposure time of 3 minutes
- 3 units per pack
- H 25, W 155, D 230 mm

Cube and Cube X small sterilisers

Miele benefits with a payback

Practical programme settings

Valuable cost and time savings in everyday surgery life thanks to customisable programme settings, e.g. programmable cycle starts.

Comprehensive process documentation

Simple traceability thanks to automatic saving of cycle reports to a USB flash memory. Simple and uncomplicated printing of barcode labels using the Miele APH 550 Sego label printer.

Individual user identification

If required, the users checking and approving Cube X sterilisation cycles can be registered digitally. The name of the operator can be saved together with approvals.

Optimised cycle times

The Cube X boasts cycles which are shorter, guarantees greater instrument longevity and compelling energy savings. With patented EcoDry technology, drying times are adjusted to load sizes.

Easy operation

The large colour touch display and an intuitive menu structure makes daily work in a surgery simpler, faster and more efficient.

Simple data transfer

Optionally, communication via WiFi is an alternative. This allows data to be ported simply to other software systems, e.g. DataDiary.

Model overview

Controls, programmes, cycle times

Cube – Class B steam steriliser

- Chamber volume 17 or 22 l
- Capacity: up to 5 trays (3 trays, convertible tray rack and tray holder included)
- User-friendly operation thanks to colour touch screen
- Practical programme settings
- User convenience thanks to ergonomic design
- Process documentation via USB, WiFi (optional)
- Flexible water supply: Automatic by connecting to a water pre-treatment system or manually via water tank

Cube X – Class B steam steriliser

- Chamber volume 17 or 22 l
- Capacity: up to 5 trays (5 trays, convertible tray rack and tray holder included)
- User-friendly operation thanks to colour touch screen
- Practical programme settings, e.g. programmable start
- User convenience thanks to ergonomic design
- Process documentation via USB, Ethernet, WiFi (optional)
- Flexible water supply: Automatic by connecting to a water pre-treatment system or manually via water tank
- Shorter drying times thanks to EcoDry technology
- S-Fast cycle for hand-pieces
- Individual user management catering for multiple users
- Modern maintenance support via machine display

Maintenance: Every 5 years or after 4000 cycles at the latest.

Components for Cube and Cube X

APST 009
Holder, rotates by 90°, for use in PST 1710 and PST 1720.

- Space for up to 5 standard trays
- Turned by 90°, suitable for 2 containers/cartridges
- Useable container surface [mm]: 190 x 70 x 300
- Useable tray surface [mm]: 188 x 21 x 300

APST 010
Holder, rotates by 90°, for use in PST 2210 and PST 2220.

- Space for up to 5 standard trays
- Turned by 90°, suitable for 2 containers/cartridges
- Useable container surface [mm]: 190 x 70 x 375
- Useable tray surface [mm]: 188 x 21 x 375

APST 003
Aluminium tray, for instruments or porous goods, small

- Perforated for optimum steam permeability
- High stability combined with low weight
- Suitable for the PST 1710 and PST 1720
- H 19.5, W 186, D 287 mm

APST 004
Aluminium tray, for instruments or porous goods, large

- Perforated for optimum steam permeability
- High stability combined with low weight
- Suitable for the PST 2210 and PST 2220
- H 19.5, W 186, D 379 mm

APST 005
Tray holder, for safe removal of aluminium trays

- Plastic handle

APST 002/1
WiFi dongle key, for simple connection of sterilisers to WiFi networks

- Easy to connect to a USB port on unit
- Transmission of process data to a WiFi-enabled device

Components for Cube and Cube X

Plug & Pure water treatment system – the compact solution for a high-quality supply of demineralised water

The Plug & Pure water treatment system can be connected directly to Cube and Cube X small sterilisers. High-quality supply of demineralised water using ion exchange principle.

Benefits of Plug & Pure water treatment system:

- Consistently high water quality in compliance with standards
- Cartridges replaced in only a few seconds
- No additional tools needed
- Convenient installation on feet or wall bracket

APST 000

Plug & Pure water treatment system for supply of fully demineralised water

- Consisting of connection kit, filter head and filter cartridge
- Innovative filter head for quick and easy replacement
- Stable and gentle on surfaces: plastic machine feet
- Wall bracket supplied for easy mounting on a wall
- Consistently high water quality
- H 476, W 124, D 123 mm

APST 001

Replacement cartridge, for the APST 000 water treatment system, for supply of fully demineralised water

- Compact dimensions for neat storage in a base unit
- H 469, W 123, D 123 mm

APST 011

Connection set for connecting Cube/Cube X sterilisers to a VE P 2000 or VE P 2800 full demineralisation cartridge

- Suitable for all Cube and Cube X small sterilisers
- For combination with VE P 2800 and VE P 2000
- Note: Only connect CUBE and CUBE X to VE P 2000 or VE P 2800 in combination with washer-disinfector
- Scope of delivery: Y-piece 3/4", 1.5 m stainless-steel hose, throughflow regulator, 2.5 m PTFE hose, gaskets and connectors

Components for Cube and Cube X

ZS 150-1

Helix test, for process control on small sterilisers.

- Testing of steam penetration with chemical indicator
- Display of results with colour change
- 1 process challenge device, 250 indicators
- H 22, W 117, D 177 mm

APST 006

Door gasket, seals pressure chamber

- Must be replaced after 800 sterilisation cycles

APST 007

Micro-fine filter, to remove bacteriological contaminants from ambient air

- Easy to replace on the front of sterilisers
- Must be replaced after 400 sterilisation cycles

APST 008

Filter, captures dust particles inside machine

- Compact slide-in cassette for easy replacement
- Must be replaced after 400 sterilisation cycles

For process documentation components, cf. Page 68 ff.

Process documentation system

App-based solution

The new DataDiary app – simple, economical, safe

To assist in the gap-free process documentation of instrument reprocessing, Miele Professional is now offering a particularly time-saving Plug & Play solution in the form of the DataDiary app. This collects process data automatically from PG 8581 and PG 8591 thermal disinfectors and CUBE and CUBE X sterilisers and enables reports to be generated from a tablet PC – without cables, USB memory sticks or other intermediate steps. This practical solution now supports up to nine Miele machines via a surgery WiFi network.

Easy to use

With DataDiary, Miele is offering an intuitive, app-based method of process documentation with a modern user interface. It is a plug & play solution – simply connect a unit and off you go!

Supports up to 9 different machines simultaneously

DataDiary now supports up to 9 thermal disinfectors from the PG 858x/9x thermal disinfectors and Cube small sterilisers.

Connection to a surgery network

The DataDiary app communicates with all connected machines via a surgery's existing network. If only a single unit is documented, this is still possible in the usual manner using Access Point mode.

Fast authentication

User authentication is simple using an NFC tag or a user ID/PIN.

Wireless & secure

Data transmission is wireless and secure using encoded WLAN (WPA2) via local surgery network. The WiFi connection is simple to set up with an SSID (Service Set Identifier) and a password.

PDF reports

The successful reprocessing of instruments must be documented in a gap-free manner. For this purpose, DataDiary offers a simple report creation process based on PDF files.

DataDiary process documentation system

App-based protocols

DataDiary

App-based process documentation for easy, wireless reports on PG 858x/9x.

- Low-maintenance Plug & Play solution
- Secure, wireless data transfer via encrypted WLAN link
- Protocolling in PDF format
- User identification via ID with password or NFC tag
- Incl. access to app, communication module and 5 NFC chipcards
- Compatible from Android 10.0 and iOS 12.4
- H 39, W 88, D 110 mm

DataDiary Cube

App-based process documentation for easy, wireless reports on CUBE small sterilisers.

- Low-maintenance Plug & Play solution
- Wireless data transmission via WiFi using a local network
- Protocolling in PDF format
- User identification via ID with password or NFC tag
- Incl. access to app, WiFi dongle key and 5 NFC chipcards
- Compatible from Android 10.0 and iOS 12.4
- H 10, W 25, D 69 mm

DataDiaryID

NFC chipcard, for easy user identification in the DataDiary app

- Easy user registration via NFC tag
- Includes 5 chipcards
- NFC tags are compatible with ISO/IEC 14443 (Type A)
- Use requires NFC-compatible tablet PC
- H 54, W 85.6, D 0.8 mm

Follow Dr. Dent as he uses the DataDiary app for process documentation.

Segosoft Miele Edition process documentation system

A certified approach to security

APS 101 Sego SegoSoft Miele Edition (license), for connection of one machine.

- User-controlled release of process reports for all machines
- Protection from manipulation thanks to digital signature
- Future-oriented product with regard to regulatory requirements
- Only process documentation software with a quality seal
- Service card guarantees compliance with medical devices directive
- H 1, W 86, D 55 mm

APS 102 Sego SegoAssign Plus, for connection of Segosoft to patient management system.

- For the paperless, quick and simple assignment of cycles to patients
- Service card guarantees compliance with medical device legislation
- The scope of services includes a licence card
- H 1, W 86, D 55 mm

APH 550 Sego Segolabel Miele Edition: Starter kit to create sterile supply labels

- Full package incl. printer, power unit, cables and 1000 labels
- Secure labelling of the packaged sterile goods
- Useful addition to Segosoft Miele Edition
- Useful addition for CUBE/CUBE X sterilisers
- Easy connection via USB cable
- H 178, W 135, D 240 mm

APH 595 Colour ribbon, for use in APH 550 Sego label printers

- Cable category 6
- Colour: Transparent silver

APH 596 Labels, for use in Segolabel APH 550 Sego printers

- 1 roll of 1,000 reusable adhesive labels
- Every label has a second adhesive surface with a separating layer

Segosoft Miele Edition process documentation system

A certified approach to security

APH 100

Segosoft Serial Industrial Converter, for serial connection of 2 machines to USB port on PC/laptop.

- Galvanic separation of all connections incl. surge protection
- Use of a USB port on PC/laptop for 2 machines
- Machines from other manufacturers on request
- For use with Segosoft Miele Edition
- Scope of delivery: Plug-in power unit (1.4 m), USB cable (0.5 m)
- H 109, W 31, D 90 mm

APH 110 Net500

Segosoft network converter, for connection of machines with serial interface to network.

- Converts serial data (RS 232) to network protocol (TCP/IP)
- Galvanic separation of all connections incl. surge protection
- Power over Ethernet (PoE) enabled
- For use with Segosoft Miele Edition
- Scope of delivery: plug-in power unit (1.4 m)
- H 90, W 109, D 31 mm

System requirements for all software systems

- CPU rate of at least 3 GHz, 4 GHz or higher recommended
- SVGA graphics with 1024 x 768 Px, 21" monitor or larger, recommended HD 1920 x 1080 Px
- Memory at least 4 GB, 8 GB recommended
- Hard drive with at least 256 GB free memory, 500 GB or higher recommended
- Min. 2 USB ports, 3 recommended, network interface, Internet access
- Operating system: Windows 10
- Adobe Acrobat Reader, Version 11.08 or higher
- Backup system recommended

Software download

- <https://www.miele.de/professional/service-und-support-52.htm>

Required additional service from Miele service partner:

ServiceCard and services (obligatory for Segosoft Miele Edition!)

- Update of digital signature extending legal validity
- Telephone support, software updates
- Flat-rate fee per surgery: € 215 (excl. SegoAssign Plus)
- Flat-rate fee per surgery: € 295 (incl. SegoAssign Plus)

Note: Legal validity of digital signatures in Segosoft Miele Edition in accordance with BSI (German Federal Office of Data Security). An extension of this legal validity is provided by the ServiceCard. (Flat-rate fee per surgery: € 215 (excl. SegoAssign Plus))

¹ Required additional service: ServiceCard (software maintenance/support)

Further process documentation components

APH 301

Connection cable Type 1, for connection of machine with serial interface to PC.

- Compatible with Miele PWD853x, PLW611x, PG858x/9x with XKM RS232 10 Med
- Compatible with models from Melag, Sirona, W&H and Hawo
- Crossover cable, length 3 m

APH 302

Connection cable Type 2, for connection of machine with serial interface to PC.

- Compatible with models from Sirona and W&H
- Zero modem cable, length 3 m

APH 303

Extension cable, 3 m, to extend connection cable Types 1 and 2.

APH 304

Extension cable, 5 m, to extend connection cable Types 1 and 2.

APH 305

Extension cable, 10 m, to extend connection cable Types 1 and 2.

APH 330

Gender-changer adapter to connect two same-pole serial connections.

- Compatible for use with Hawo heat-seal units
- 9-pin plug, m/m

Further process documentation components

APH 510 PRT 110

Printer for process reports.

- Dot matrix printer with ink ribbon
- Compatible with all Miele washer-disinfectors
- H 157, W 160, D 239 mm

APH 530

Connection cable, for interruption-free connection to printer.

- Compatible with APH 510 PRT110 report printer
- Length: 10 m

APH 592

Colour ribbon for APH 510 PRT110 report printer.

- Ink ribbon for dot matrix printer

APH 591

Paper reel for APH 500 PRT100 and APH 510 PRT110 report printers.

- 5 paper rolls per pack
- Width: 76 mm
- H 79, W 76, D 79 mm

APH 531

Adapter, for connecting Miele printer cable to machine.

- 9-pole adapter, for serial connections
- Male/female connection
- H 12, W 31, D 17 mm

Components: Communication modules

Machine networks and process documentation

XKM 3200 WL LMD

Communication module, for connection to Miele MOVE or other documentation software.

- State-of-the-art connection to the Miele Cloud Service
- Secure transmission over encrypted WiFi or Ethernet
- REST interface with data provision in JSON format
- Flexible operation on local networks
- Up to 30 process records are saved to machine
- This module is not compatible with DataDiary
- Length of mains cable: 1.5 m; cable extension possible
- H 39, W 88, D 110 mm

XKM 3000 L Med

Communication module with Ethernet connection for integration in a network.

- Ring buffer for up to 30 process reports and 2 graphic reports
- Additional components for direct/network connection not required
- DHCP support for automatic selection of network parameters
- Baud rate: 10/100 Mbit/s
- Length of mains cable: 1.5 m; cable extension possible
- H 39, W 88, D 110 mm

XKM RS 232 10 Med

Communication module with serial interface (RS232) for connection to a printer.

- Ring buffer for max. 25 process reports
- Differentiation between short and long reports
- Transfer speed: max. 38 kBit/s
- Length of connection cable: 1.5 m; extension up to 15 m possible
- H 39, W 88, D 110 mm

APST 002/1

WiFi dongle key, for simple connection of sterilisers to WiFi networks

- Easy to connect to a USB port on unit
- Transmission of process data to a WiFi-enabled device
- H 10, W 25, D 69 mm

DataDiary

App-based process documentation for easy, wireless reporting.

- Low-maintenance Plug & Play solution
- Secure, wireless data transfer via encrypted WLAN link
- Protocolling in PDF format
- User identification via ID with password or NFC tag
- Incl. access to app, communication module and 5 NFC chipcards
- Compatible from Android 10.0 and iOS 12.4
- H 39, W 88, D 110 mm

DataDiary Cube

App-based process documentation for easy, wireless reporting.

- Low-maintenance Plug & Play solution
- Wireless data transmission via WiFi using a local network
- Protocolling in PDF format
- User identification via ID with password or NFC tag
- Incl. access to app, WiFi dongle key and 5 NFC chipcards
- Compatible from Android 10.0 and iOS 12.4
- H 10, W 25, D 69 mm

Safety first:
Hygienic reprocessing of workwear

360 PRO

In order to protect oneself and others, it is particularly important to subscribe to hygiene rules. In times presenting an increased risk of infection, the proper use of protective clothing is vital. This is all the more important with respect to employees in dental and surgical practices.

Workwear brings the benefits of an on-premise laundry to the fore: Expensive textiles which are often in short supply are turned around fast, allowing full control of quality and safety in reprocessing.

The machines make the difference – all aspects must be just right

To prevent any potential risk of contaminated textiles or protective equipment spreading diseases, it is necessary to use a recognised disinfecting wash process. This is particularly important in a commercial setting. The objective of this process is to kill and deactivate pathogens and to reduce their numbers to levels which do not pose any further risk of infection. In order to reliably achieve this goal, numerous factors must come together. One of the most important factors is the choice of the correct machine.

Safe laundry care

A disinfecting wash in accordance with valid regulations can currently only be safely performed in commercial washing machines. Washing machines from Miele Professional feature recognised disinfection programmes which ensure compliance with critical process parameters such as temperatures and temperature holding times.

Thoroughly dried.

Moisture promotes the propagation of pathogens, in particular fungi, bacteria and other single-celled organisms. Consequently, it is imperative that textiles are fully and uniformly dried after washing. Only then can disinfected textiles be stored under controlled conditions until next used.

Additional hygiene and safety

Miele ProHygiene: Monitoring of disinfection performance in wash process using bio-indicators

+ PROHygiene

These guidelines recommend a disinfection wash:

- Robert Koch Institute (RKI)
- German accident insurance companies
- German Working Group for Hygiene in Dental Medicine
- Hygiene and Medical Products Competence Centre of Association of Statutory Health Insurance Physicians
- Guideline: Hygiene in doctors' surgeries

The benefits of perfect quality management in laundry care in a practice

- Guideline-compliant cleaning of workwear
- Washing with approved and efficient disinfecting programmes
- Disinfection wash process is continuously monitored

- Simple logistics in a closed-loop in-house system
- Clean workwear ready for use again faster
- Cost-efficient cleaning, even of small loads

Disadvantages and uncontrollable risks of reprocessing laundry in private households

- Laundry transported through public areas
- Possible cross-contamination of private laundry
- Domestic laundry machines lack suitable disinfection programmes

- Time-consuming laundry care (more laundry must be stored to ensure availability)
- Possible contamination of laundry during transportation from private home to surgery programmes

LITTLE GIANT hygiene washing machine

7 kg load capacity / M Select controls

| Washing machine | PWM 507 Hygiene |
|---------------------------------|---------------------------|
| User interface | M Select |
| Load capacity [kg] | 7 |
| Drum volume [l] | 64 |
| Max. spin speed [rpm] | 1,600 |
| g-factor/Residual moisture* [%] | 704/45 |
| Cycle time** [mins.] | 49 |
| Type of heating | EL |
| Drainage [DP DN 22 / DV DN 70] | Drain pump or drain valve |
| Front colour / material | LW or SST |
| External dimensions H/W/D [mm] | 850/596/714 |

EL = Electric, DP = Drain pump, DV = Drain valve, LW = Lotus white, enamelled, SST = Stainless steel
* Residual moisture after hot final rinse, ** Cycle time in 'Cottons 60°C, hot water fill

Hygiene model version

- Designed to meet the needs for greater hygiene, e.g. in dental practices
- Safe disinfection through numerous disinfection programmes, including RKI-listed programmes

M Select controls

- Rotary selector and segment touch display
- Programme symbols on control panel
- Touch display with all information in local language, 29 languages

Highlights

- Exclusive to Miele: Gentle and thorough laundry care thanks to honeycomb drum and perforated drum rear panel for fast wetting of laundry
- Very low residual moisture levels on account of high g-factor
- Installation as space-saving washer-dryer stack possible

Optional accessories

- Plinths for ergonomic loading and unloading
- Dispenser adapter for automatic dispensing of liquid detergent

XCI box

- Communication unit for connection to dispenser pumps and energy management systems

LITTLE GIANTS tumble dryers

8 kg load capacity / M Select controls

| Dryers | PDR 508 EL | PDR 508 HP |
|---|-------------|-------------|
| User interface | M Select | M Select |
| Drying system | Vented | Heat-pump** |
| Load capacity [kg] | 8 | 8 |
| Drum volume [l] | 130 | 130 |
| Cycle time Cottons/Mixed fabrics* [mins.] | 42/37 | 79/67 |
| Type of heating | EL | HP |
| Heater rating [kW] | 6.14 | - |
| Vented | DN 100 | - |
| Front colour / material | LW or SST | LW or SST |
| External dimensions H/W/D [mm] | 850/596/717 | 850/596/777 |

EL = Electric, HP = Heat pump, LW = Lotus white, enamelled, SST = Stainless steel, * Cycle time in Normal Dry programme, ** Contains FCs, hermetically sealed; Coolant R134a, Coolant quantity 0.61 kg, ODP of coolant: 1430 kg CO₂ e, ODP of machine: 872 kg CO₂ e

M Select controls

- Rotary selector
- Programme symbols on control panel
- Touch display with all information in local language, 29 languages
- Numerous special programmes as standard, e.g. Hygiene

Highlights

- Exclusive to Miele: Gentle and uniform drying with new patented honeycomb drum
- Spot-on drying results thanks to patented PerfectDry system
- Time savings and convenience thanks to large lint filters on vented dryers and excellent performance on heat-pump dryers thanks to a patented heat exchanger filtration system
- High efficiency through maintenance-free, energy-saving drive motor
- Installation as space-saving washer-dryer stack possible

Highlights: Heat-pump dryers

- Flexible installation without the need for vent ducting
- Energy efficiency rating A++:
Up to 60% energy savings compared with a conventional condenser dryer

Optional accessories

- Plinths for ergonomic loading and unloading

XCI box

- Communication module for setting up a connection with external systems.

Dishwashing in the staff kitchen – hygienic, safe and fast

ProfiLine

360 PRO

Commercial dishwashers are in their element, producing sparkling results, wherever domestic machines are stretched to the limit. Two separate model lines operating on the fresh water principle are geared to commercial use, with short cycle times and long-lasting product quality designed for multiple cycles per day. Combined with the optimal automatic dispensing of liquid products, optimum cleaning results are guaranteed, even when products are operated by different users.

Very short programme running times

3-phase connection, intelligent wash technology and two high-performance pumps achieve short programme cycles of as little as 17 minutes without any trade-off in terms of cleaning results.

¹⁾ European patent EP 2433549B1

²⁾ European patent EP 2120671B1

*Minimum requirements: Android 4.2+/iOS 9+

AutoOpen assisted drying²⁾

Excellent drying results, even on challenging loads, thanks to automatic door opening.

Miele ProfiLine dishwashers are fully compliant with safety regulations governing commercially used dishwashers (machines used outside a private home) as embodied in the EU Machinery Directive.

Further highlights of ProfiLine PFD 10x series

Flexible baskets + 3D MultiFlex drawer¹⁾

We have improved the cutlery tray on your dishwasher so it can now also accommodate small items such as espresso cups.

Intuitive user interface

These models are as easy to operate as their domestic counterparts. Thanks to the design of the fascia panel and its self-explanatory symbols, ProfiLine dishwashers are language-neutral.

Knock2open (only for PFD 104 SCVi)

Tap the front of fully integrated Miele dishwashers twice and the door will open automatically by about 10 cm thanks to a clever opening mechanism.

Virus Seal of Approval in Gold

Efficacy in combatting enveloped and non-enveloped viruses has now been scientifically confirmed (certification by InFluenc_H -Institute for Integrative Hygiene and Virology)

Air purifiers – Miele AirControl PAC 1045, PAC 1080, PAC 1200

With optimised air intake and distribution, AirControl ensures a healthy micro-climate. Automatic programmes allow power settings and operating times to be preset. An integrated sensor which continuously measures CO₂ levels in room air monitors the need for ventilation: The current concentration appears in the display. Easy to operate, mobile, reliable and quiet, AirControl is available in three different versions to provide dependable protection wherever people congregate in closed rooms.

| Air purifiers | PAC 1045 | PAC 1080 | PAC 1200 |
|--|--------------|--------------|--------------|
| Max. air throughput [m ³ /h] | 740 | 1300 | 3000 |
| Max. recommended room size [m ²] | 45 | 80 | 200 |
| External dimensions H/W/D [mm] | 500/500/1270 | 500/500/1270 | 700/700/1300 |

Highlights of Miele AirControl air purifiers

5-stage filtration system incl. HEPA H 14

The filtration system rids the air of more than 99.995% of particles such as viruses (including Corona), bacteria, odorous substances, pollen, smoke, etc.

Integrated CO₂ sensor

Integrated CO₂ sensor – enables CO₂-controlled operation, adjusting air throughput to the quality of room air. This results in a significant reduction in sound emissions.

Miele ThermoControl

After switch-off, the HEPA filter is dried at 70°C for 20 minutes in order to deactivate relevant pathogens.

Safe automatic operation

Three selectable automatic programmes guarantee smooth operation. Thanks to PIN code protection and a lockable access flap, unauthorised persons cannot access the controls.

| SST | Stainless steel |
| U | Undercounter unit |
| UL | Certified components for USA/CDN |
| WB | White/black casing |
| WF | Without front |
| WS | Water softener |
| HW | Hot water connection |
| XXL | Extra large chamber |

Miele & Cie. KG, Gütersloh
www.miele-professional.com

Forever Better

Since 1899, Miele – a family-run company – has subscribed to a clear corporate philosophy condensed into the two words 'Immer Besser' (forever better). This overarching claim is the foundation of Miele's proverbial quality and sustainability and the power of innovation of a brand 'Made in Germany'. A brand promise which gives professional users the certainty of having chosen the right product.

Award-winning

Uncompromising product reliability and service dependability is the reason why customers have repeatedly voted Miele the best and most trustworthy brand. Coveted awards such as the MX Award, the iF and reddot Design Awards and the German Sustainability Prize confirm the distinguished position Miele enjoys with respect to design, quality management and the sparing use of resources.

Proficient

Miele Professional has been developing and manufacturing a broad range of high-quality laundry machines, dishwashers, washer-disinfectors and sterilisers for decades. Carefully selected accessories, comprehensive advisory services and a Miele service operation which guarantees fast response times ensure that machines perform to perfection and offer the ultimate in capacity and efficiency.
