

## WHO WE ARE

LM-Dental™ develops, produces and markets high-tech dental hand instruments and their tracking system together with ultrasonic devices, orthodontic appliances, and services related to these.

# WITH US YOUR DENTAL CARE IS IN SAFER HANDS

We take great pride in turning dental care into a pleasant experience that is safer and more efficient than ever before.

For decades, our Nordic roots have been the bedrock of innovative and high-quality dental products that are trusted by dental professionals and patients around the world.

By continuously improving our trusted services and standards, we create genuine value for dental care professionals by making a difference where it counts: helping people in all aspects of dentistry.

The logo consists of the letters 'LM' in a bold, white, sans-serif font, set against a dark blue rectangular background.

LM

feel the  
difference

A woman with brown hair tied back, wearing a white lab coat over a light green button-down shirt. She is smiling warmly at the camera with her arms crossed. She is wearing a silver watch on her left wrist. The background is a blurred dental office.

**We are helping  
people in all  
aspects of  
dentistry.**

# OUR MISSION

Making dental care safe, efficient and pleasant.

# FROM THEN TO NOW

Over the past 40 years we've grown from a small garage workshop in the Finnish archipelago to a distinguished player in the global dental industry.

What once was just an idea by dentists who felt the need for better equipment to perfect their job has now become an industry leading company.

LM

feel the  
difference

We have  
been setting  
the industry  
standards  
since 1970s

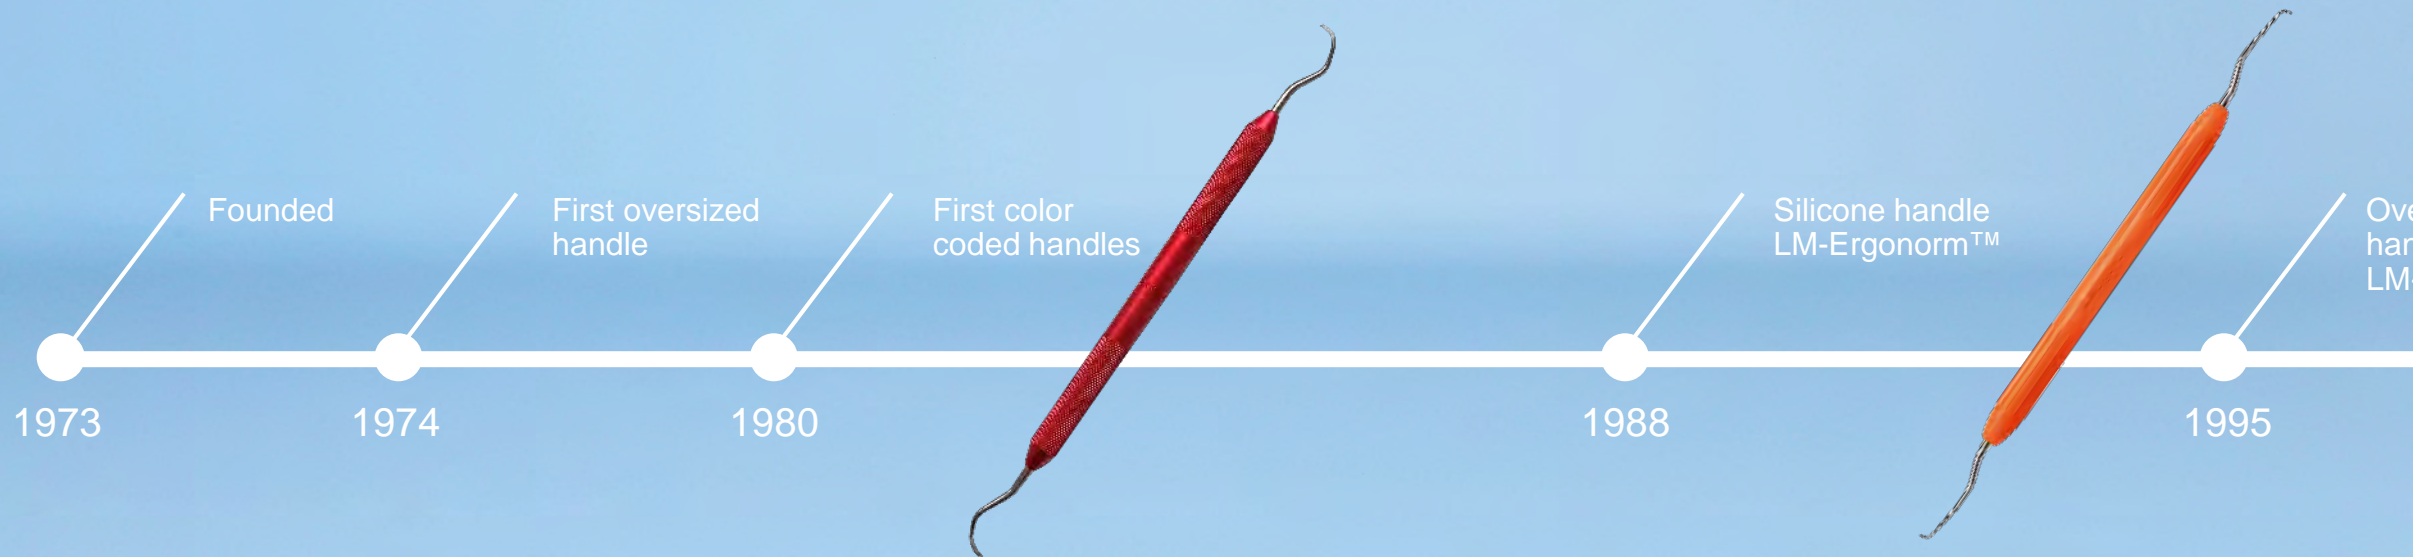

# PIONEER IN INSTRUMENT ERGONOMICS

The ergonomics has been the guiding light of our product development since the establishment of the company.

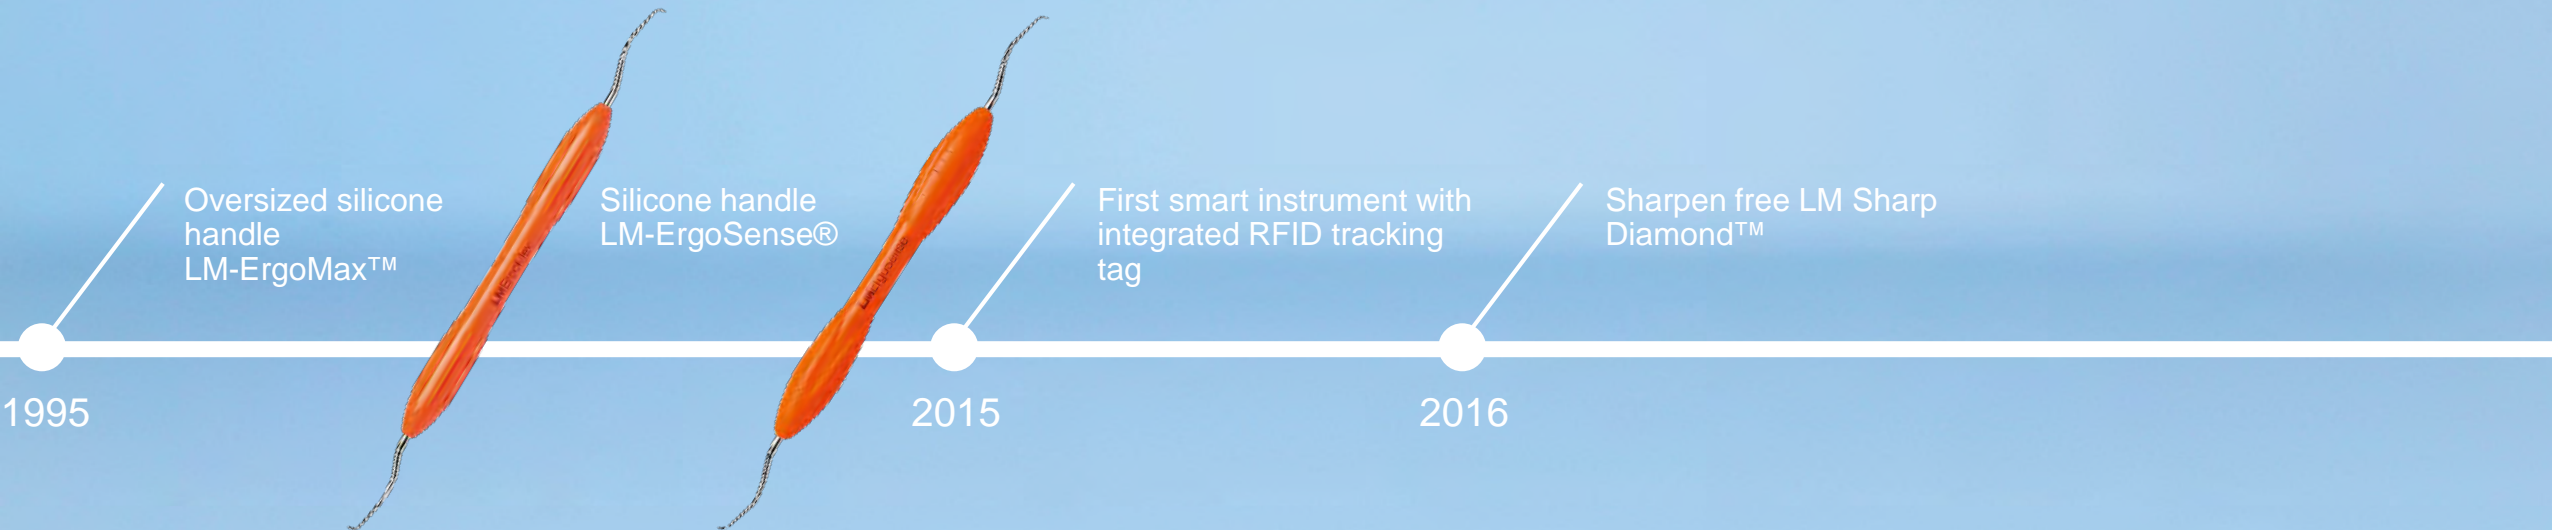

Whether you are a dentistry professional, student, or a patient, we have taken your needs to heart. Together we develop and manufacture equipment which make dental care safe, efficient and pleasant.

# WE WILL CONTINUE TO SET STANDARDS

# VISION

The most wanted partner with the best-in-class dental products and smart solutions.

# FEEL THE DIFFERENCE

Our distinguishing factors are Nordic high quality, technology, ergonomics, safety, durability and design.

# OUR VALUES

---

## FAIR PLAY

We support each other,  
communicate with honesty and  
respect.

We commit to Fair Play in our LM™ team. Our customers are the most satisfied in the world. We make the difference!

LM

feel the  
difference

**Whether you are a  
dentistry professional,  
student, or a patient,  
we have taken your  
needs to heart.**

## RELIABILITY

We always deliver what our partners expect, or more.

We promise reliability in our partnership, customer care and service. We promise reliability in our products' quality with high standards, ergonomics, safety, as well as logistics and timely deliveries.

# IMPROVEMENT

**We have an approach that encourages continuous improvement.**

We are always aiming for improvement. Our product development is highly tied to our clients' needs of now and tomorrow, and we constantly improve our existing and new products, as well as our processes.

**We are constantly working for a more pleasant user experience.**

## INNOVATION

We are pioneering, innovative and open to new ideas.

As a manufacturer of high-tech dental instruments and products, innovation is at the core of our business. We aim to fulfil and surpass our clients expectations for tomorrow's dental equipment, and are always innovating new future of clinical dental care.

LM Dental Tracking System™

# HIGH-TECH PRODUCTION TECHNOLOGY COMBINED WITH HANDMADE CRAFTSMANSHIP ENSURE TOP FUNCTIONALITY

Innovation and improvement focused Nordic dental care company. All LM-Dental™ products are produced in Finland. Our dedication to manufacturing excellence makes our products precise, reliable and safe.

# PUTTING PEOPLE FIRST RESEARCH AND DEVELOPMENT

We are in constant communication with the end users of our products to keep our product development on the cutting edge. Our research continues from design through manufacturing, allowing us to produce instruments that meet existing standards and perform excellently.

# HIGH QUALITY STANDARDS GUARANTEE SAFETY FOR YOU AND YOUR PATIENTS

Like every true professional, we aim for ultimate perfection in our work. We devote our entire product development and production processes to achieve the best possible quality, guaranteeing your success in treatment results.

# WE MAKE THE DIFFERENCE

It is the collaboration of our people and partners that create the genuine value, that makes the difference.

# OUR MAIN PRODUCT CATEGORIES

---

LM™ hand instruments and accessories

LM™ Dental Tracking System™

LM™ orthodontic appliances

LM™ ultrasonic devices and air polishers

# HAND INSTRUMENTS

Our instruments vary from orthodontic appliances to extraction instruments and from periodontal instruments to the LM Dental Tracking System™, an IOT-solution for clinics. All these are crafted by decades of experience, and our dedication to manufacturing excellence makes our products precise, reliable and ergonomic.

# LM™ ORTHODONTIC APPLIANCES

LM-Activator™ made of safe & soft silicone gently guides itself to the correct place and position in the mouth.

LM-Activator™ supports the natural growth of the jawline for achieving a healthy relationship between upper and lower teeth.

Soft guidance to teeth and jaws is used to avoid and correct incorrect development.

Four models to fit the individual malocclusion and eruption characteristics.

## LM DTS™

LM Dental Tracking System™ is designed to provide a unified solution in the field of dentistry: via RFID technology, it provides a holistic approach for improved safety, cost-efficiency, and asset management.

Through LM DTS™, dental equipment such as instruments, sensors, handpieces, filling materials, implants, and more from different manufacturers are wirelessly read in a few seconds. Automating traceability, logistics, and infection control documentation allow staff to work more efficiently and focus both on their tasks and on their patients.

# LM™ ULTRASONIC DEVICES AND AIR POLISHERS

Versatile LM-ProPower™ ultrasonic and air polishing devices for professional dental care.

Distinguished ergonomics

Autoclavable LM-ErgoGrips™ for efficient operation

Supra & subgingival air polishing

Built-in solutions for integration to all dental units

**YOUR SKILLS ARE WORTH LM™**
