

MED·|·PACK

Medipack Medical Packaging MFG. Co.

Medipack was established over 30 years ago, in the year 1981. As one of the first company that manufacture medical sterilization packaging in Asia, Medipack is always dedicate in serving our customer with our best, maintain our best quality and develop new products to satisfied our cutomer. With over 30 years manufacturing experisence, Medipack is definitely your best choice of reliable supplier.

In year 2000, Medipack saw the change of demand in the new market, so the firm decided to expand our production facility from Taiwan to Mainland China. The factory is located in Dongguan, China. The construction was done in year 2002, and it starts to manufacture since then.

After a long time research, in year 2003, Medipack has developed a new line of products, surgical tapes. Since then, tapes have become Medipack's major products. In year 2004, with the success of surgical tapes, Medipack introduced Adhesive Bandages into the product line.
