Passion *on dentistry*

Company Profile

Zhuhai Siger Medical Equipment Co., Ltd is a professional company dealing with R&D and manufacturing of clinical dental equipments. Tens of scientific results have been approved as national patents, by those SIGER manufactured the every first fully digitally controlled dental unit in China, which reaches the leading international technological standard and fills the domestic gap. Since its founding in 2005, Siger has been continuously investing in R & D and keep developing new products. In the face of fierce competition in the globalized market, on one hand, Siger keeps the technological leadership of existing products. On the other hand, it enriches the production line to provide more choices for the customers, such as operating light, ultrasonic scaler, painless periodontal treatment device, intraoral X-ray unit and autoclave.

SIGER has obtained ISO9001 certificate and CE certificate. Its products have been fully recognized and highly valued by the professionals and users from home and abroad. At present, large quantities of SIGER dental units has been installed and used in a lot of specialist hospitals in China and exported to 60 nations and districts globally. SIGER is doing really well especially in the high end market of West Europe.

CNC Machining Center

Yiwei is a large-scale CNC machining center under Siger Medical, with a total area of more than 3,000 square meters. There are dozens of advanced CNC machining equipments and nearly 40 professional workers in the CNC machining base.

CNC sheet bending machine

CNC machining center

Automatic welding robot

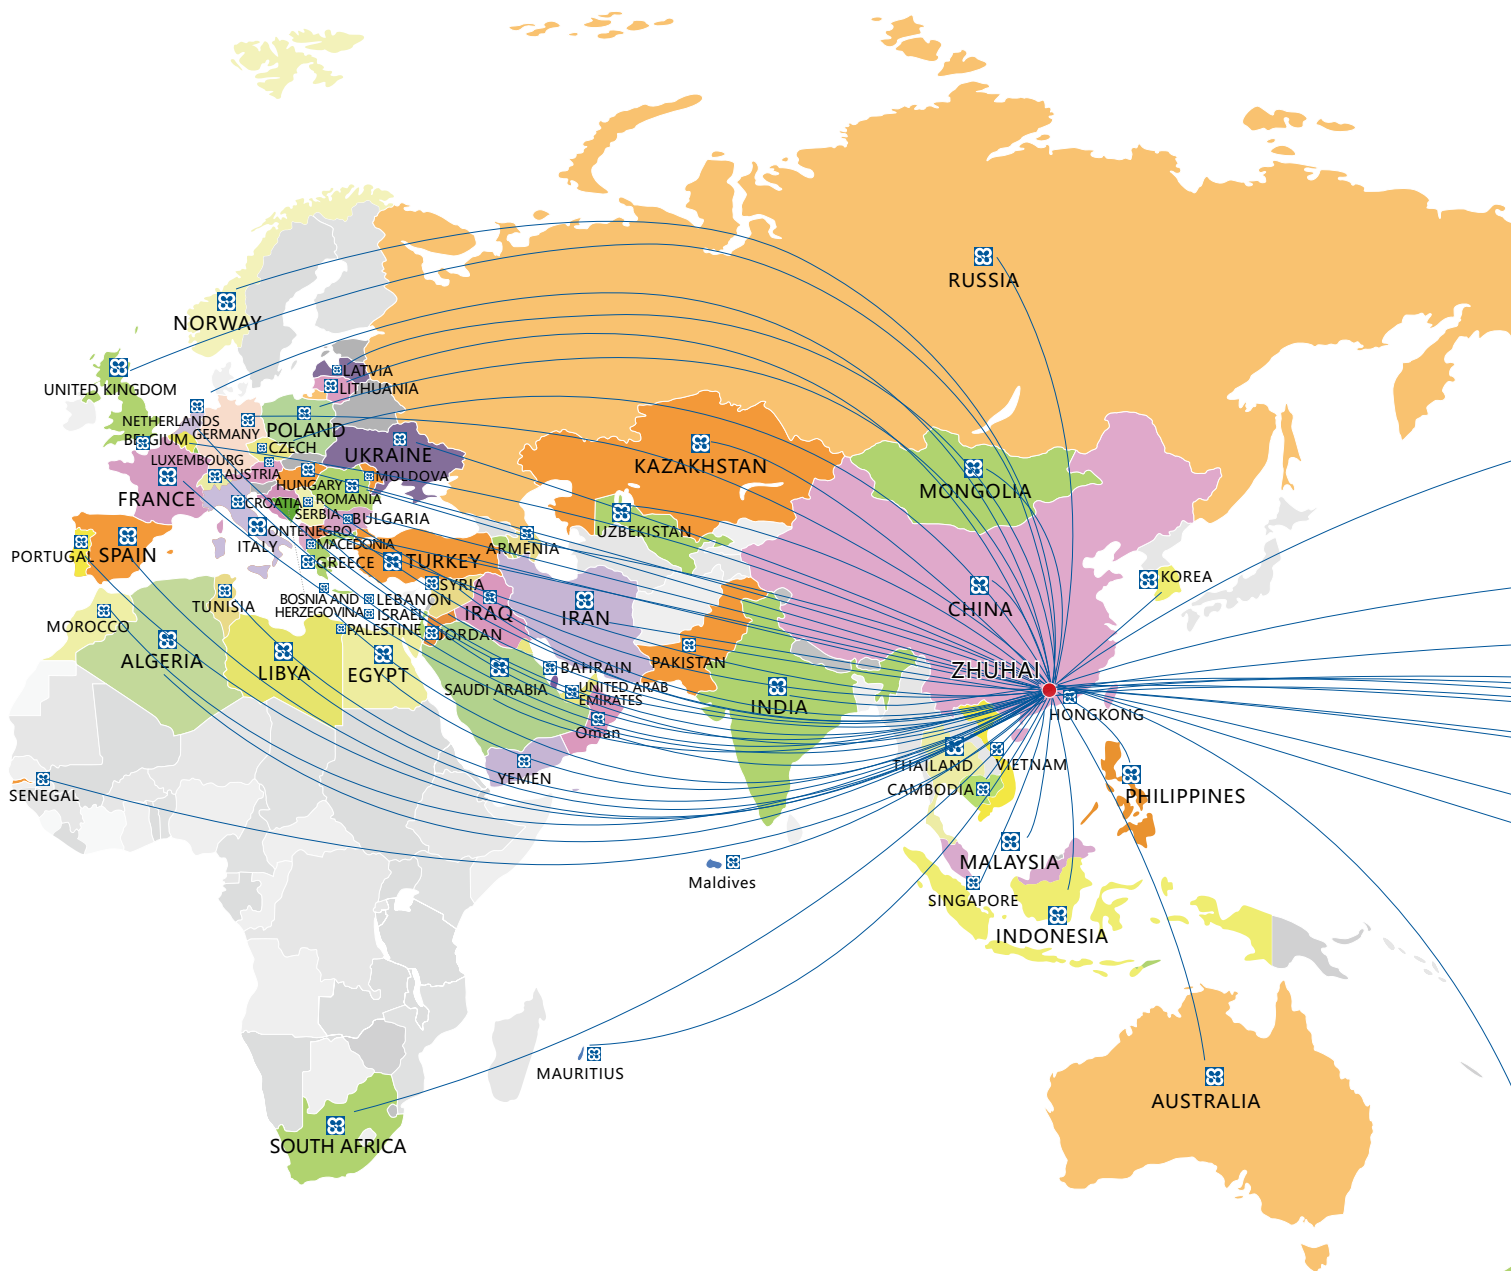

Laser cutting machine

Along with the establishment of CNC machining base,

- ⊕ The quality of metal parts with standardized production is stable.
- ⊕ The metal parts are much precise.
- ⊕ Working efficiency is greatly improved.

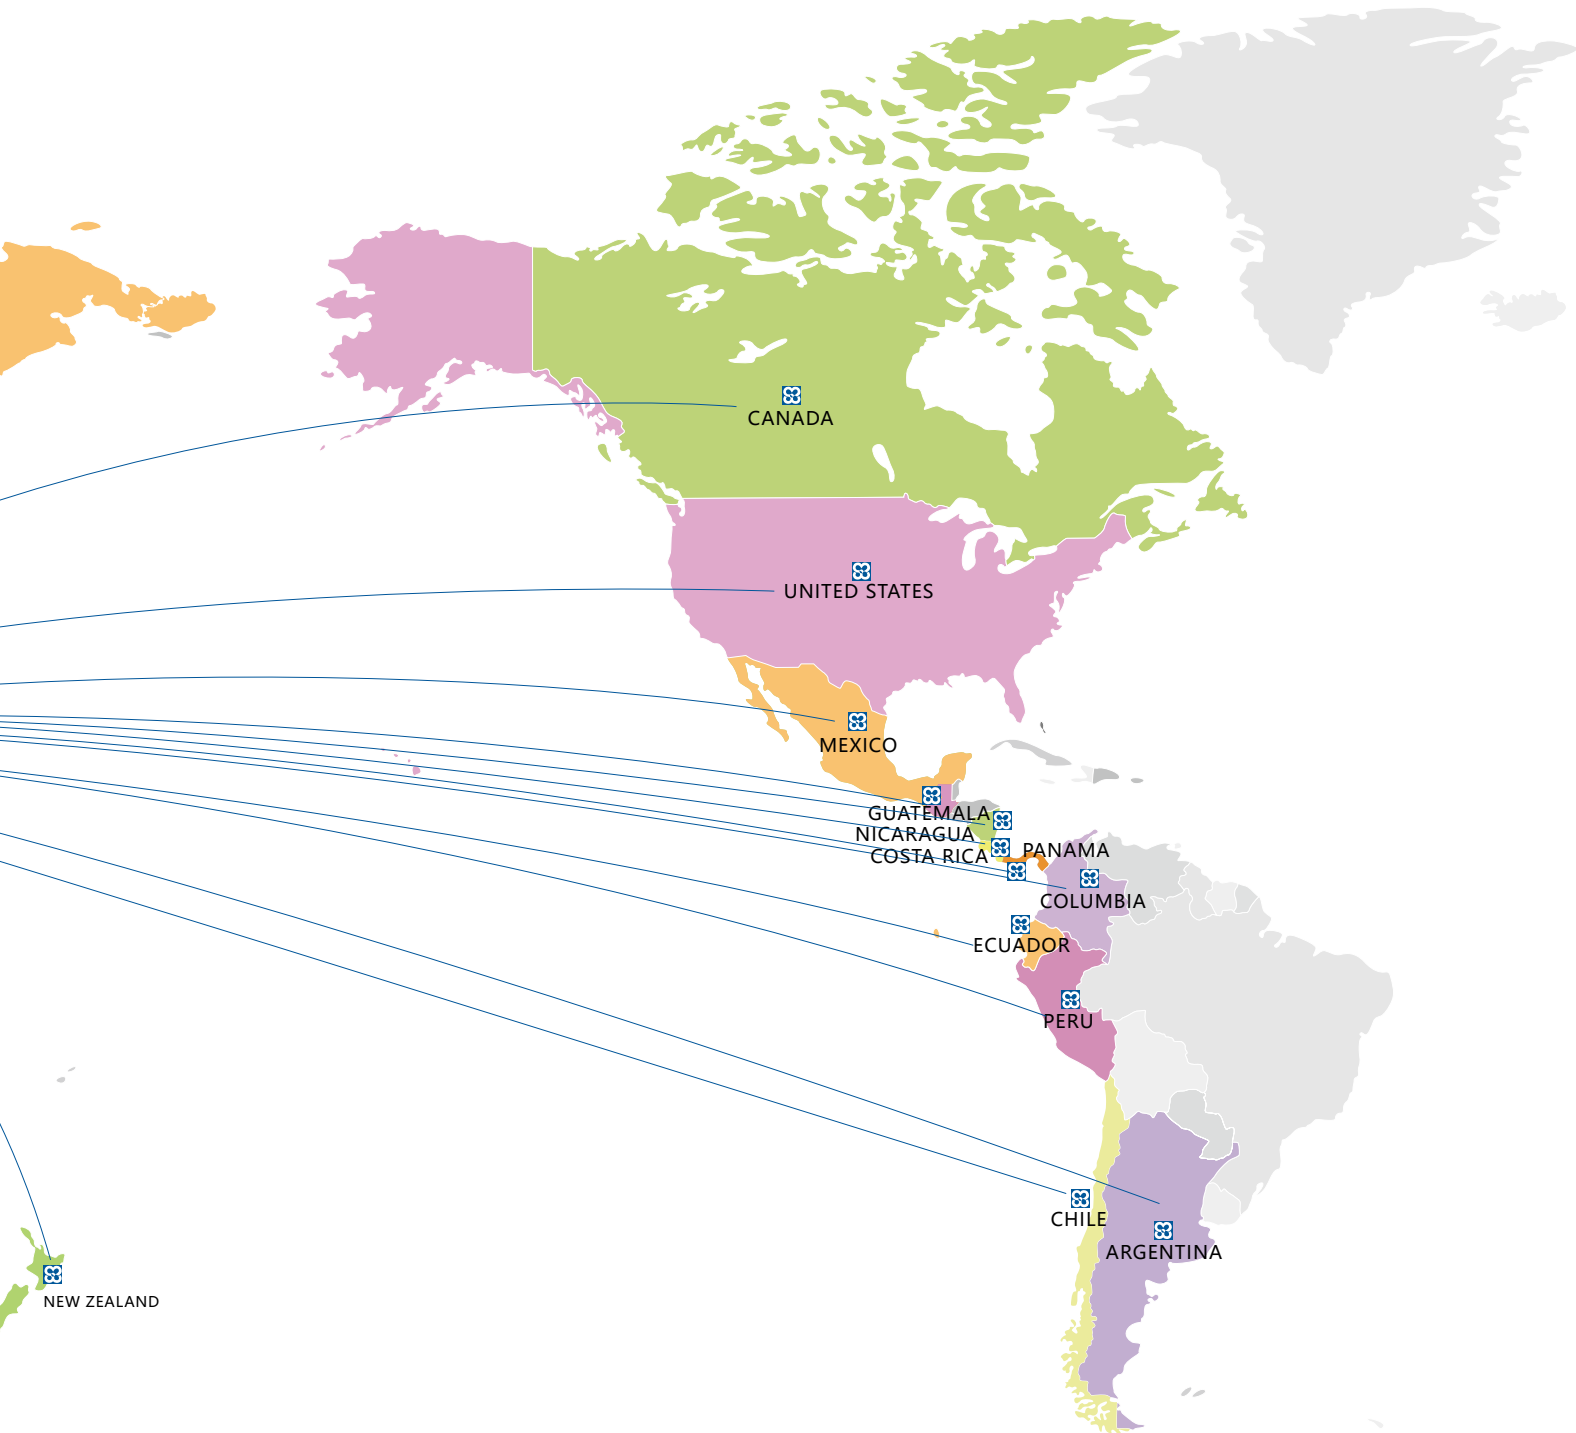

Sales Network

► SIGER's products have launched into **more than 70** countries and regions all over the world.

Dental Unit

S90 / S60 / S30 / U200 / U100 / V5000 / V2000 / V1000

S90

Digital control technology makes work easier

- ⊕ 18-key touch control panel.
- ⊕ Accurate control of the instrument.
- ⊕ Standard configuration of BIEN-AIR MCX brushless micromotor.

Three sets of working programs for three user.

Accurately control the micromotor.

High quality parts

- ⊕ High quality PA internal tubing.
- ⊕ Danish LINAK motor.
- ⊕ ABS engineering plastics, injection molding process.

12-level height adjustment of assistant element.

Aluminum casting backrest

Italian solenoid valve

SIGER

Combination of practicality and technology

- ⊕ Intelligent linkage program by only one button to control cup filling, bowl rinsing, chair position and operating light on/off.
- ⊕ Anti-suction system of dynamic instrument to reduces iatrogenic infection.
- ⊕ Multifunctional foot pedal for chair position adjustment, handpiece chip blow and dynamic instrument working control.

Fast connection system for dynamic instruments.

Danish LINAK motor.

Cost-effective choice

- ⊕ Simulating control technology, enhanced functionality.Touch control panel.
- ⊕ Instrument interlock: When one instrument is working, the others are locked safely to prevent accidental injuries and improve work efficiency.
- ⊕ Ergonomic design and patient chair movement protection.

On/Off of all the dynamic instruments can be controlled by the photoelectric sensors.

Patient chair with scientific linkage design.

Steble Reliable Hygiene

- ⊕ 90° rotatable hydro group.
- ⊕ Sensor adjustment for operating light.
- ⊕ Removable silicon pad of instrument table for cleaning and sterilization.

Detachable ceramic spittoon for cleaning.

Detachable cup filler for cleaning.

Detachable suction system for cleaning.

Humanized design to meet different clinical needs

- ⊕ Cup filling sensor is upgradeable.
- ⊕ LED V1 Operating Light with sensor.
- ⊕ The upholstery of the dental chair are made of microfiber leather, high-grade and comfortable.
- ⊕ Wireless foot control is optional.

Bigger tray T2(40*30cm) is upgradeable.

Rotary upper tray T3 is upgradeable.

Efficient & convenient

- ⊕ 11 key touch control panel for assistant element.
- ⊕ Instrument holder with photoelectric sensors is easy to clean.
- ⊕ 90° rotatable assistant element help the nurses to work conveniently.

On/Off of all the dynamic instruments can be controlled by the photoelectric sensors.

Air break switch can easily adjust and lock the height of the instrument table.

People-centered and economical

- ⊕ 16 buttons touch control panel for instrument table can provide 5 preset memory positions.
- ⊕ Intelligent linkage program by only one button to control cup filling, bowl rinsing, chair position and operating light on/off.
- ⊕ Multifunction foot control.

LED V2 Operating Light
with sensor.

Assistant Element.

Large Instrument Table

Simulating control system

Pneumatic control system

- ⊕ Large Instrument Table , Large instrument table can be placed three trays, which can meet the needs of doctors and nurses to place a great number of instruments at the same time.
- ⊕ Foldable instrument rack is beautiful and greatly convenient to use.
- ⊕ The water pipe is separated from the circuit to reduce the failure rate.
- ⊕ Optional Fast connection system for dynamic instrument provides great convenience for disassembling the pipes, cleaning and disinfection.

Optional Tubing Flushing And Disinfection System

Regular flushing/disinfection for the dental chair water pipes

- ⊕ Prevent biofilm formation on the pipes wall.
- ⊕ Reduce the risk of iatrogenic cross-infection.
- ⊕ Ensure the health and safety.

Disinfection tray

Automatic switch of disinfectant/working water

Disinfection tray

- ⊕ Automatic switch of disinfectant/working water.

Specific holes for putting handpieces and syringes

Specific holes for putting handpiece tubings

Disinfectant storage tank

Inspection window

SIRAY PLUS ▲

(Floor-mounted)

- ⊕ The cross arm allows 360 degrees rotation and easy positioning.
- ⊕ Lifting patient chair is well-designed and comfortable.

► Four mounting methods are available according to actual clinic environment

Floor-mounted

Wall-mounted

Floor Stand

Mobile Stand

► High frequency DC constant voltage control technology

Compared to power frequency technology:

- ⊕ Better image quality.
- ⊕ Compared to traditional AC generators, it greatly reduces the radiation dose.
- ⊕ Extend the service life of the X-ray generator.
- ⊕ The amount of radiation output is not affected by voltage fluctuations.

► Scientific design of X-ray tube head

- ⊕ Unique ergonomic design makes it convenient to move and easy for cleaning.
- ⊕ Scientific weight ratio makes sure the smooth rotation and positioning without drifting.
- ⊕ Scale for the cone angle makes the positioning easy and accurate.

► High quality image

- ⊕ Advanced high frequency and constant voltage DC generator.
- ⊕ Canon DC X ray tube.
- ⊕ Focal spot of 0.7mm delivers sharp images with optimal details.
- ⊕ The selectable kV values (60kV / 70kV) and mA values (4mA / 7mA) provide excellent image for diagnosis and research.

► The combination of convenience and personalization

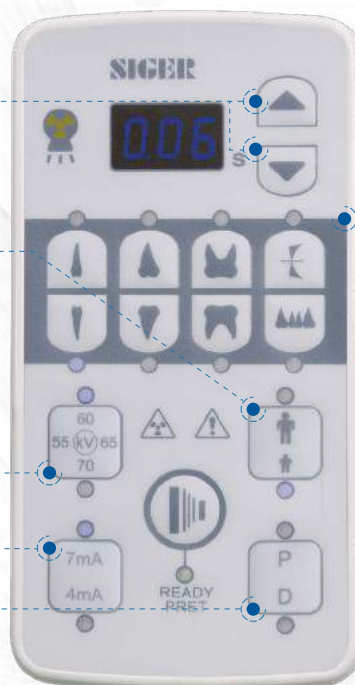

- The exposure time can be adjusted between 0.02 and 3.2 seconds.

- Adult/child mode selection key is available.

- 55kV, 60kV, 65kV and 70kV anode pressure is selectable.

- 4mA and 7mA anode current is selectable.

- Film-based mode, phosphoric mode and digital imaging mode selection key is available.

- 8 preset programs can be chosen quickly according to the type of teeth.

- Maxillary anterior and mandibular anterior programs
- Maxillary premolar/canine and mandibular premolar/canine programs
- Maxillary molar and mandibular molar programs
- Maxillary occlusal and mandibular occlusal programs
- Bite-wing program

- ⊕ Optional remote control

CONTROL PANEL

SIRAY

(Wall-mounted)

► Humanized design of support arm

- ⊕ Accurate positioning is a prerequisite for high-quality images.
- ⊕ SIGER SIRAY support arm with a new optimal design make sure of smooth and flexible movement and stable positioning, which brings pleasure experience for operator.

SIRAY Max

SIRAY Mia

► Humanized design

- ⊕ The exposure time can be adjusted between 0.02 ~ 2.00S.
- ⊕ High capacity battery, continuous exposure for 300 times after full power storage.
- ⊕ Exquisite and compact appearance, easier to handle.
- ⊕ 1.9kg light weight design, more comfortable to hold.
- ⊕ Build-in overheat protection procedure, effectively protect the tube.
- ⊕ Several languages are optional for operation interface.

► High quality image

- ⊕ Advanced high frequency and constant voltage DC generator.
- ⊕ Canon DC X-ray tube.
- ⊕ 0.4MM focal point, clearer image.
- ⊕ 2mA tube current and 70kV tube voltage to guarantee stable imaging quality.

► Clear and sensitive operation interface

- ⊕ SIRAY Max Touch screen
- ⊕ SIRAY Mia Key screen

► Convenient imaging options

- ⊕ Adult/child mode is selectable.
- ⊕ Tooth type exposure program is selectable.
- ⊕ The exposure time can be adjusted and memorized.
- ⊕ Film-based mode, CR and digital imaging mode selection key is available.

► Wall mounted

Class B Steam Sterilizer

EGO / AMI / Accessories

EGO-17B

EGO-17B+

► Sterilization cycle with high performance and reliability

⊕ European Class B standard model, with 3-stage pre-vacuum process.

- ⊕ HAFC system (Hot Air Forced Circulation) improves the dry efficiency significantly;
- ⊕ Unique air-water separating system enhances system efficiency and reliability;
- ⊕ High-speed process-controller and the special hydraulic circuit allows the autoclave to perform a Quick Class-B cycle in only 20 minutes;
- ⊕ Unique steam diffusing solution ensures an evenly heating up inside the sterilization chamber;
- ⊕ Original POST-DRY program delivers extra-dry and cool instruments even without opening the door;
- ⊕ THT process validation system monitors the temperature and pressure in real time, thus ensures the validity of the sterilization;
- ⊕ Auto-start Cycle enables the doctor to start a cycle at any specific date/time;
- ⊕ 5 sterilization cycles available: Universal B, Quick B, Quick S, Gentle B and Prion;
- ⊕ 4 test programs onboard: B&D test, Helix test, Vacuum test and Water Quality test;
- ⊕ Universal RS-232 serial port allows the user either to connect the autoclave to a label printer, or to a PC to monitor and test the validation of the sterilization cycles.

EGO-23B

EGO-23B+

► Excellent traceability

- ⊕ Onboard printer automatically prints the sterilization data and result at the end of each cycle;

- ⊕ Universal USB port allows the user to download and store the sterilization record with memory stick;

- ⊕ Barcode label printer (optional) ensures the identification and traceability of every single sterilization pack;

► Ergonomic design

- ⊕ Color touch screen with excellent sensitivity, showing the data of the sterilization, cycle progress and errors in real time.

- ⊕ 5L built-in clean water tank allows the user to perform 10 sterilization cycles;
- ⊕ Built-in water sensor and built-in float switch.

- ⊕ Automatic and manual waste water discharge solution is optional.

- ⊕ EGO 17B+, EGO 23B+ are our servo-assisted electric door model, easy and extra-safe.

AMI-17B

AMI-23B

► Sterilization cycle with high performance and reliability

- ⊕ European Class B standard model, with 3-stage pre-vacuum process.

- ⊕ A special vacuum pump with cooling system can improve the performance of vacuum.
- ⊕ Unique air-water separating system enhances system efficiency and reliability.
- ⊕ Unique steam diffusing solution ensures an evenly heating up inside the sterilization chamber.

► Excellent traceability

- ⊕ Universal USB port allows the user to download and store the sterilization record with memory stick.

- ⊕ Built-in printer automatically prints sterilization data and results after each sterilization process.

► High-quality component

- ⊕ The pressure sensor from the USA makes sure the cycle is safe and reliable.
- ⊕ The advanced ST CPU supports the powerful function of the sterilizer.

► Easy door adjustment

- ⊕ The adjustment of the door-tight can be easily performed in 5 seconds.

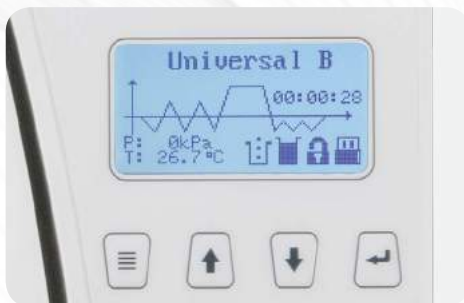

► Hygienic and practical water tank design

- ⊕ The capacity of water tank is over 5 liters, which allows the autoclave to perform about 11 sterilization cycle.
- ⊕ Separate tank for used water and distilled water can avoid water contamination .
- ⊕ A fully open distilled water tank is inspectable and easy for cleaning and disinfection.

► User friendly

- ⊕ It is simple to select the sterilization cycle through the intuitive graphical button.

- ⊕ It is easy to read the pressure curve in real time during the cycle from the high-brightness LED digital display.

► Accessories

Sterilizer Tray Handle
For taking out the Trays.

17L Trays
Dimension : 287x186x17mm

23L Trays
Dimension : 410x186x17mm

17L sterilization rack
Space between each layer : 42mm/26mm
Dimension : 320x200x200mm

23L sterilization rack
Space between each layer : 42mm/26mm
Dimension : 410x200x200mm

- ⊕ Rotate the sterilization rack to contain 3 regular trays or 5 regular trays.

Sealing Machine

► Excellent performance

- ⊕ The special heater makes the sterilization bag evenly heated and has good sealing performance.
- ⊕ The 12mm sealing band makes a stronger seal.
- ⊕ Built-in stainless steel blade makes a flat cutting.

► Better using experience

- ⊕ The integrated design of the sealing machine is firm and stable.
- ⊕ The optimized design of roller shaft makes the sterilization bag rolls smoothly.
- ⊕ Bi-directional handle provides comfortable operation.

► Easy machine maintenance

- ⊕ Simple blade replacement saves maintenance costs.
- ⊕ The clamp can be adjusted at any time to achieve a good sealing effect.
- ⊕ The ASA plastic cover is not easy to age and discolor.

► Ergonomic design

- ⊕ Our PCB of sealing machine is programmed to standby when it is not used for half an hour, which makes it safe and avoids wasting electricity.
- ⊕ Optional tray layer with silkscreen graduated scale helps to pack multiple bags at the same time and get the dimension of the sealing bags.
- ⊕ 34cm wide operation port can meet the needs of sealing various sizes of sterilization bags.

► Options of Sterilization Paper Roll

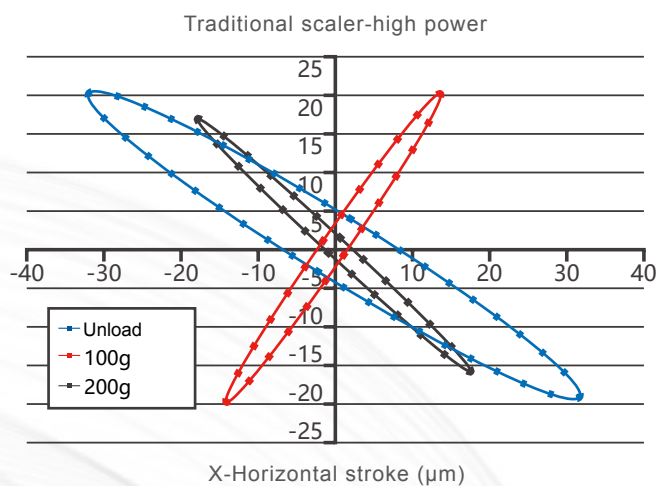

- ⊕ To pack the dedical equipments for sterilization.
- ⊕ Dimension :
 - 75mmx100m
 - 100mmx200m
 - 250mmx100m

Painless Periodontal Treatment Device

NP Compact / NP Pro / NP I

Perfect Combination of Efficiency and Comfort

- ⊕ Advanced smart cruise system
- ⊕ Real-time feedback of load
- ⊕ Automatic frequency tracing
- ⊕ On time power compensation

Before and after treatment

- ⊕ Less pain treated by SIGER periodontal treatment device.

Treated by traditional ultrasonic scaler

Treated by Siger periodontal treatment device

- ⊕ Elliptical stroke pattern.
- ⊕ 30 HRC medical titanium tip, low hardness and less injury.
- ⊕ Frequency: 32KHz.
- ⊕ Vibration Amplitude: 20-90μm.
- ⊕ Treatment depth reaches 14mm.

NP Compact

- ⊕ Advanced smart cruise system.
- ⊕ Scaling, Perio and Endo function.
- ⊕ Two kinds of water supply system.
- ⊕ Multifunction touch panel.
- ⊕ Fault indication.
- ⊕ LED lightening mode optional.
- ⊕ Leak-proof water tank design, easy operation.
- ⊕ Handpiece holder with lock button, anti-maloperation.

Professional perio and endo treatment kit:

NP Pro

- ⊕ Advanced smart cruise system.
- ⊕ Multifunction touch panel.
- ⊕ Fault indication.
- ⊕ LED lightening mode optional.
- ⊕ Leak-proof water tank design, easy operation.
- ⊕ Handpiece holder with lock button, anti-maloperation.

Professional periodontal treatment kit:

Multi-functional Moveable Cart

- ⊕ Minimalist industrial design, beautiful and easy to install.
- ⊕ All metal material, sturdy and durable, easy to clean and disinfect.
- ⊕ Professional medical casters for flexible and quiet movement.

- ⊕ Three-tiered storage space on which different dental equipment, instruments and supplies can be placed according to the needs of treatment.

- ⊕ The bottom layer can be placed the foot switch of painless periodontal treatment devices, scaler or implant unit, which is neat and beautiful and easy to move.

- ⊕ The two sockets on the dental cart can supply power for two devices at the same time, which provides great convenience for using the equipment.

E Series Multifunction Ultrasonic Scaler

Compatible with EMS, MECTRON, W&H, WOODPECKER scaler.

E2+ / E2 / E1

E2+

- ⊕ SMART-CRUISE SYSTEM: Automatic frequency tracing; Real-time feedback ensures on time power compensation;
- ⊕ Controlled oscillating action ensures gentle treatment for uniform surface roughness with minimum abrasion of tooth surface.
- ⊕ Scaling, Perio, Endo multifunction.
- ⊕ LED handpiece ensures optimal viewing conditions at all position.
- ⊕ Detachable handpiece is autoclavable.

E2

- ⊕ SMART-CRUISE SYSTEM: Automatic frequency tracing; Real-time feedback ensures on time power compensation;
- ⊕ Controlled oscillating action ensures gentle treatment for uniform surface roughness with minimum abrasion of tooth surface.
- ⊕ Scaling, Perio function.
- ⊕ LED handpiece ensures optimal viewing conditions at all position.
- ⊕ Detachable handpiece is autoclavable.

E1

- ⊕ SMART-CRUISE SYSTEM: Automatic frequency tracing; Real-time feedback ensures on time power compensation;
- ⊕ Controlled oscillating action ensures gentle treatment for uniform surface roughness with minimum abrasion of tooth surface.
- ⊕ Scaling, Perio function.
- ⊕ Detachable handpiece is autoclavable.

S Series Multifunction Ultrasonic Scaler

Compatible with SATALEC,DTE scaler.

S2+ / S2 / S1

S2+

- ⊕ SMART-CRUISE SYSTEM: Automatic frequency tracing; Real-time feedback ensures on time power compensation;
- ⊕ Controlled oscillating action ensures gentle treatment for uniform surface roughness with minimum abrasion of tooth surface.
- ⊕ Scaling, Perio, Endo multifunction.
- ⊕ LED handpiece ensures optimal viewing conditions at all position.
- ⊕ Detachable handpiece is autoclavable.

S2

- ⊕ SMART-CRUISE SYSTEM: Automatic frequency tracing; Real-time feedback ensures on time power compensation;
- ⊕ Controlled oscillating action ensures gentle treatment for uniform surface roughness with minimum abrasion of tooth surface.
- ⊕ Scaling, Perio function.
- ⊕ LED handpiece ensures optimal viewing conditions at all position.
- ⊕ Detachable handpiece is autoclavable.
