Reach Global

Redefining standards in the Dental Industry

Reach Global is a highly reputed name in the dental industry in terms of product quality and financial performance with best-in-class service. Over the years, Reach Global has consistently kept itself abreast of the latest technologies and stayed ahead of the curve in the industry.

Operating as a true one-stop solution, Reach Global has always provided its customer network a basket of high-range performance products and solutions at an optimum cost. Besides demonstrated performance, durability, low maintenance and safe operations, the brand has earned itself the niche of also being rated high on cost-efficiency. Thereby delivering optimum value with thorough professionalism in business operations.

With the principal focus on providing solutions which are patient, doctor & environment friendly, the brand's innovative products meet the highest standards in the dental industry.

Besides India, the representative office is also strategically located at Shenzhen, Southeast China, to bring swiftness and convenience in routine logistics and delivery operations.

With a commitment to deliver 'No Infection Zone', Reach Global is pillared on the values of high quality, transparent dealings and flawless distribution to stay at the forefront of meeting each and every requirement of the dental industry in India and overseas.

INFECTION BARRIERS

BARRIER FILM

These perforated sheets with non-sticky edge are effective to reduce cross contamination with single-use and covers anything you might touch during procedure. Easy to protect the areas which are difficult to clean.

Smart packaging with self-dispense is best for direct usage with easy tear off .

SPECIFICATIONS

Code	Size	Packing
Blue, BF – 001	4" x 6", 1200 sheets	1 wrap / box, 8 boxes / case
Clear, BF – 002	4" x 6", 1200 sheets	1 wrap / box, 8 boxes / case

INFECTION BARRIERS

DISPOSABLE BARRIER ENVELOPES

Barrier Envelope protects the phosphor storage plates from mechanical damage and information loss caused by ambient light. The Envelope keeps the phosphor storage plate clean while reducing cross contamination.

Peel and stick end provide a consistent seal and tear off.

PROTECTIVES & ABSORPTIVE

PATIENT BIB AND CLIPS

ORO's 3-ply patient bib is made of soft tissue and poly of highly absorbent nature. The bonding of 2-ply tissues and 1-ply poly work securely together to eliminate separation of layers, and the reinforced edges provide added strength and durability. The tissues resist ripping even when wet, and can therefore double as a counter top drape for soaking up fluids.

Twisted clips are suitable to be used with the bibs while operating on the patient. The sufficient length ensures comfort.
