# YOUR SMILE, OUR PASSION

Pesitro was created to be not only an oral health company, but a lifestyle company that develops, manufactures and markets high-quality material. Our main goal is to bring comfort and design to your days by offering uncomplicated products to make your life functional and stylish.

Pesitro is about generating creative and expert dental supplies and helping you to get the lifestyle you want in your days. We assist people's dental care routines by creating and connecting the right product to the right person. That is why Pesitro's passion is your smile.

Oral health is an essential part of general health and well-being. Our mission as a company is to enable people to keep their teeth healthy for life. Therefore, we developed the perfect toothbrushes for each stage of life, from childhood until elderly, Pesitro wants to offer the right match for you and your family.

One of our aims is to lead the way in our field. That means our innovative ideas and dental expertise are here to keep us at the forefront of raising awareness of oral health worldwide.

As a company, we want our brand to be a true quality experience today and in the future. Pesitro stands behind every product made and sold and every customer around the world who places their trust in us.

# DENTAL FLOSS

## UHMWPE dental floss

PESITRO's UHMWPE dental floss is mint-flavored and anti-carries coated floss which is extremely resistant and non-shredding. This is one of the most effective tool for cleaning food particles or plaque stuck between your teeth, and it refreshes your breath.

## Professional double clean flosser picks

PESITRO's Professional double clean flosser picks has a curved end handle holding a UHMWPE dental floss. As a bonus, the other end features a small plastic pick that can be used instead of a wooden toothpick to remove large food particles that can get caught along the gum line or between the teeth. Feel the power of double cleaning. Its pack comes with 100pcs + a compact travel case.

### Flosser for braces

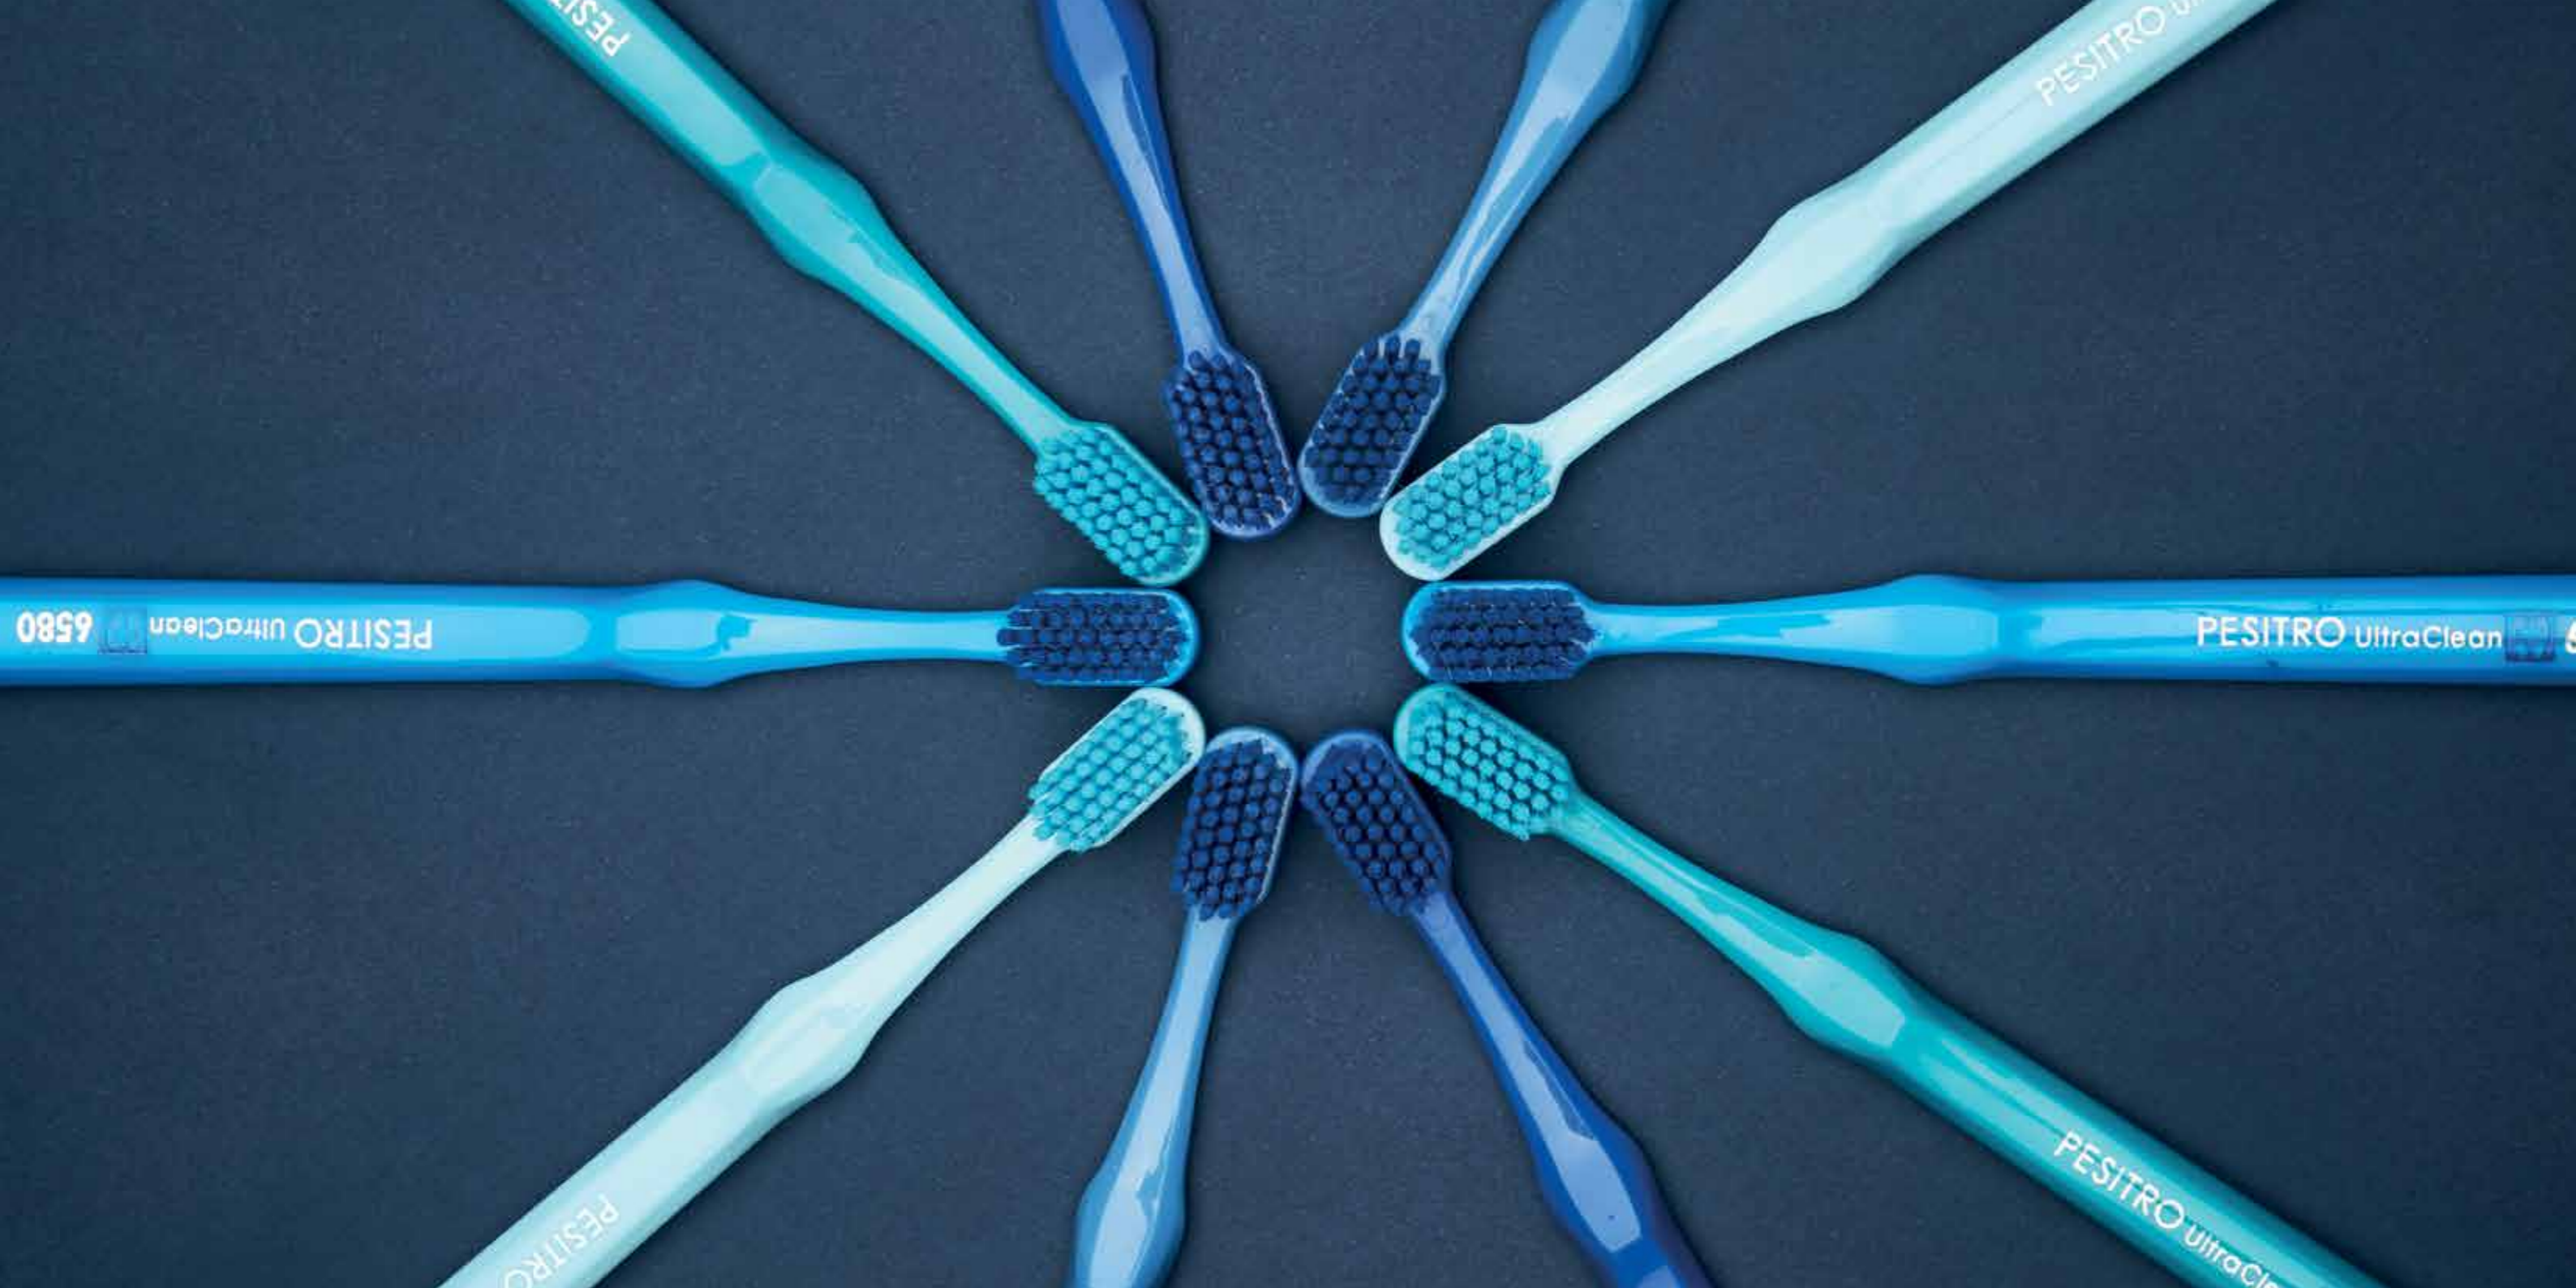

It is specially designed as an excellent choice for people with braces. It is the combination between the Interdental brush and dental floss. These uniquely designed flossers for braces slide easily between teeth and bracket wires, removing those unwanted food particles and plaque.
