

# 4 implants – 1 system

one surgery-set for all implants

biological • reliable • made in Germany 

# Timeline

2000

2006

2009

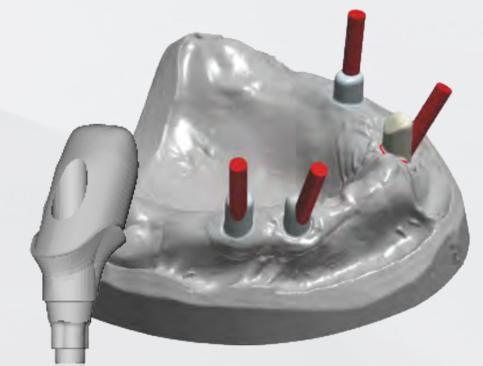

2015

Cooperation  
**METOXIT**  
high tech ceramics

2017

2020

# FairOne

optimized biology and very low treatment costs

- pure titanium, BONIT<sup>®</sup> coating
- one phase implantation
- high primary stability

made in Germany 

# FairTwo

maximum flexibility in prosthetic care

- pure titanium, BONIT<sup>®</sup> coating
- conical interface/platform-switch
- fully digital workflow

made in Germany 

# FairWhite

aesthetic and metal-free bioceramics

- high strength Zirconia
- high primary stability
- preparable prosthetic head

# Instruments

- solutions for all bone classes
- punch system (minimal invasive)
- implant drills run very smooth and long by generating bone chips

# Distribution concept

**German**  
speaking countries  
**FairImplant**

**Non-German**  
speaking countries  
**local distribution**  
**partner**
