

Corus, the European leader in state-of-the-art dental prosthetics

Leading company in Europe in the manufacture of state-of-the-art dental prostheses, with more than 70 laboratories spread over 9 European countries.

We promote innovation in dentistry with differentiated products and services based on digitization, aesthetics and a holistic view of the patient's dental care experience. We aim to become the European digital laboratory of reference and support the digital transformation of modern dentistry.
