## BUILD & GROW YOUR CLEAR ALIGNERS BUSINESS

Are you a dentist or an orthodontist?  
Are you a DSO?  
Are a Dental Lab who wants to build a clear aligners services business?

ODONTO is the perfect solution to build & grow your clear aligners business. We work with some of the best orthodontists to provide the most effective and efficient systems to design, plan, manufacture & track clear aligners.

## MODULES & PROCESSES FOR CLEAR ALIGNERS.

**ODONTO** provides you the freedom to choose how you want to build your clear aligners business. Apart from being an end to end clear aligners solutions provider, **ODONTO** also provides outsourcing services for individual modules or components of the clear aligners process.

You can choose to outsource any of the processes related to the clear aligners treatment:

- 3D model preparation & Segmentation of teeth.
- Treatment planning and staging.
- Manufacturing services like 3d printing, vacuum forming, trimming & packaging.

## EDIT PLANS & MOVE TEETH IN YOUR BROWSER

The **ODONTO DIGITAL PORTAL** provides you the power to submit cases, manage your cases, approve treatment plans, track treatment progress and also share treatment plans with patients.

- Powerful web portal for managing cases.
- Accessible on any device (mobile or desktop)
- Intuitive & easy to use portal
- Submit & upload scans & photos of new cases
- Edit treatment plans, move teeth, edit attachments
- Order aligners or download STL files to make your own aligners

## BETTER PLANS. BETTER OUTCOMES.

Our participative and collaborative model ensures efficient treatment planning, diligent patient compliance and proactive case tracking and monitoring which results in predictable and better outcomes or prognosis.

Why **ODONTO** provides better outcomes?

- Planning by qualified orthodontists
- Collaborative planning by involving with treating dentists
- Wide variety of attachments for precise movements
- Facility to upload OPGs, Ceph Data & observations
- Intelligent Interface to facilitate better treatment planning
