TWISTER™

The new way of dispensing

**Rio introduces the first ever
recyclable mono-plastic dispenser:
the unique patented Twister!**

Being European market leader in private label sweetening solutions and supplying nearly all major supermarkets comes with responsibility. Responsibility to come up with future-proof packaging and the ultimate consumer experience.

The Twister dispenser is the answer to all the challenges in the current market environment. The innovative mechanism, smaller packaging and smooth tablet dispensing are properties that offer both the retailer and the consumer an improved experience and help to reduce waste.

The advantages in short:

- **Revolutionary Patented Design**
- **Jam-free Dispensing**
- **Mono-plastic (100% recyclable PP)**
- **Weight Reduction (30% less plastic)**
- **Size Reduction (30% less footprint)**
- **Logistics Improvement (45% more dispensers on pallet)**

Visit Rio at Anuga in hall 4.1, booth E090A to obtain your sample and experience the ease of use and advantages of the revolutionary Twister!
