# EPOXY RESIN to Locking Pliers...

- **20 TIMES** more **corrosion** resistant than **nickel** or **chrome** plating.
- The spreading of rust is much quicker below nickel plated surfaces than epoxy painted surfaces.

- A colour painted finish is more **visible** in the work place. Reduces loss and risk of injury.
- Greater resistance to **welding pellets**.

➤ Epoxy paint distinguish the tools on the Market

- ✓ Environmentally Friendly.
- ✓ Corporated colors for OEM.
- ✓ Greater **VISIBILITY**.
