

JAKOBSEN HOME.

Integrity in craft

WELCOME HOME

Founded in Denmark, still proudly Danish-owned, Jakobsen Home crafts custom-made furniture from our ultra-modern facilities in Lithuania. For over fifty years, our principles have remained as Danish as they ever were: trusted, forward-looking, and quietly superb.

OUR STORY

Jakobsen Home was originally founded in the 1970s, manufacturing premium upholstered furniture in the classic traditions of Danish craftsmanship.

In 1999, the company was relocated to Lithuania. In 2006, Esben Jakobsen took charge, developing the brand into what it is today. We have now grown from a staff of 27 to a company of 300, with a full research and development department, seamsters, upholsterers, and designers. Today, we operate in state-of-the-art digitized facilities, with a production philosophy of precision and speed rooted in the heritage of craft.

TECHNOLOGY IN THE SERVICE OF HERITAGE

The precision and speed of ultra-modern digital fabrication tools offers a great advantage: we can make at scale with no loss of agility.

With the intelligent management of materials, we can focus on specific product groups for made-to-order across multiple product lines simultaneously.

Every one of the many thousands of fabrics and leathers we have, every component, is exactly where we need it, when we need it, anywhere in the 14,000m² of our Lithuanian facility. So you can be as responsive to your market as you need to be.

WELCOME HOME TO EXCELLENCE

All our technology is overseen by craftspeople. Human experience remains at the heart of what we shape. Our technicians and designers work closely with clients to make sure every detail, every material, is right – from prototypes built using the latest prototyping technology, to every finished piece of high-quality upholstery.

And every piece we produce is quality approved in point-to-point inspections. Our automated sofa packing line even photographs every individual component before it's packed, ensuring quality and thorough documentation.

IN YOUR SERVICE

We have put technology to the service of better serving our partners and clients.

Our work literally begins and ends with you – the business of handling orders to submitting invoices. We set out to optimize these things in the same philosophy of our production – heritage values of service with the elegance and precision of intelligent methods.

RESPONSIBLE PRODUCTION

We are responsible – socially, towards our employees, and the community in which we operate, and environmentally, with regard to the provenance and choice of our materials and to the impact of our production. Our ethos is one of constant improvement.

A GOOD FUTURE IN STORE

Whether you're going to market as a brand or a private label, engaging customers is key.

So we offer tailor-made and fully customizable in-store displays. These come with an overall plan of the shop display and point-of-sale materials, including beautifully presented swatches of your leathers and fabrics.

MAKE YOURSELF AT HOME

You know your market better than anyone. Whatever it demands, you can demand from us. We'll shape it, to fixed lead times, and then ship it, at speed – our distribution platform is excellent.

Our focus is long-term partnerships. For us, these are founded on our consistency in expertise and values – things that can't be separated from our Scandinavian heritage and vital to our philosophy of craft in business.

We know what it takes to make something great. We also know what it means.
