- Multiple Applications

HAWK1

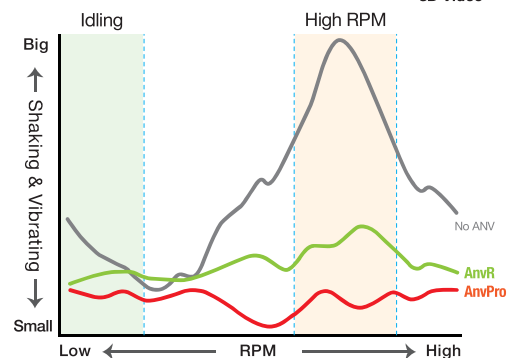

**Save Space 50%**  
**CONCEALED SPINDLE!**  
Compared to HAWK1, the fully opened jaws reduce space by 50%

## MAGLEV ANTI-VIBRATION

Decrease Shaking and Vibrating Effectively!

3D Video

This test result is based on T-PH05B standard version and Anti-Vibration version.  
\* ANV = Anti-Vibration System

According to the above figure, it shows the phone holder with ANV system could decrease the high frequency of shaking and vibrating effectively. It reduces the damage risk of the smartphone camera.

**Note!** Camera of the smartphone is precise, so the varied possibilities of damage couldn't be prevented at all.
