

ProvaCharge Foam

PRODUCT OVERVIEW

ProvaCharge Foam is a two-part liquid disinfectant designed for biofilm and resistant pathogen control on food and non-food contact equipment and surfaces.

When mixed at time of use, ProvaCharge Foam (ProvaCharge F100 + ProvaCharge P500) has the unique ability to penetrate and destroy biofilms and simultaneously kill pathogens such as *Listeria monocytogenes*, *Salmonella enterica*, *E. coli*.

2-PART LIQUID DISINFECTANT

PT 1

PROVACHARGE F100

25 Litre #30610183
220 Litre #30610184

PT 2

PROVACHARGE P500

25 Litre #30630187
220 Litre #30630188

EFFICACY

Bacteria + Yeast 10 minute contact time		Biofilm Bacteria 10 minute contact time		Spores 10 minute contact time	
Organism	Method	Organism	Method	Organism	Method
<i>Pseudomonas aeruginosa</i>	EN 1276 EN 13697	<i>Pseudomonas aeruginosa</i>	ASTM E2871-21	<i>Bacillus subtilis</i>	EN 13704 EN 13697
<i>Staphylococcus aureus</i>		<i>Staphylococcus aureus</i>			
<i>Escherichia coli</i>		<i>Listeria monocytogenes</i>			
<i>Enterococcus hirae</i>					
<i>Candida albicans</i>	EN 1650 EN 13697				

APPLICATIONS

Open Plant Cleaning (OPC)

Drains

Food Processing Equipment

Storage Areas

Floors

Food Contact Surfaces (conveyor belts)
