

## Press Release | Compass Intense Awards

At Powermints GmbH we're honoured and excited to announce that Compass Intense has been awarded Best Hard Candy and Best Packaging at this year's ISM Middle East! Out of only eight awards, our small yet passionate brand captured two, showing that a commitment to quality and authenticity can truly stand out in a crowded industry.

Since our beginnings, Compass Intense has been driven by a simple vision: to create beautifully crafted mints using pure, natural ingredients, packaged sustainably, and made to offer something truly special. These awards reflect our dedication to this vision and the belief that consumers deserve more than the mainstream.

Our General Manager Jannis V. C. Theileis 🌿 stated: "This recognition means so much to us, but more importantly, it celebrates the incredible team behind Compass Intense who pour their hearts into every detail. We're grateful to the ISM organizers and judges who saw the work we've put into Compass Intense and believed in the value it brings. Thank you for recognizing a brand that strives to make a difference, no matter its size."
