

Mamboobaby® Float

INTRODUCTION

MAMBOBABY FLOAT: Rated as THE BEST BABY FLOAT by Parents

Mam**bo**baby® Float

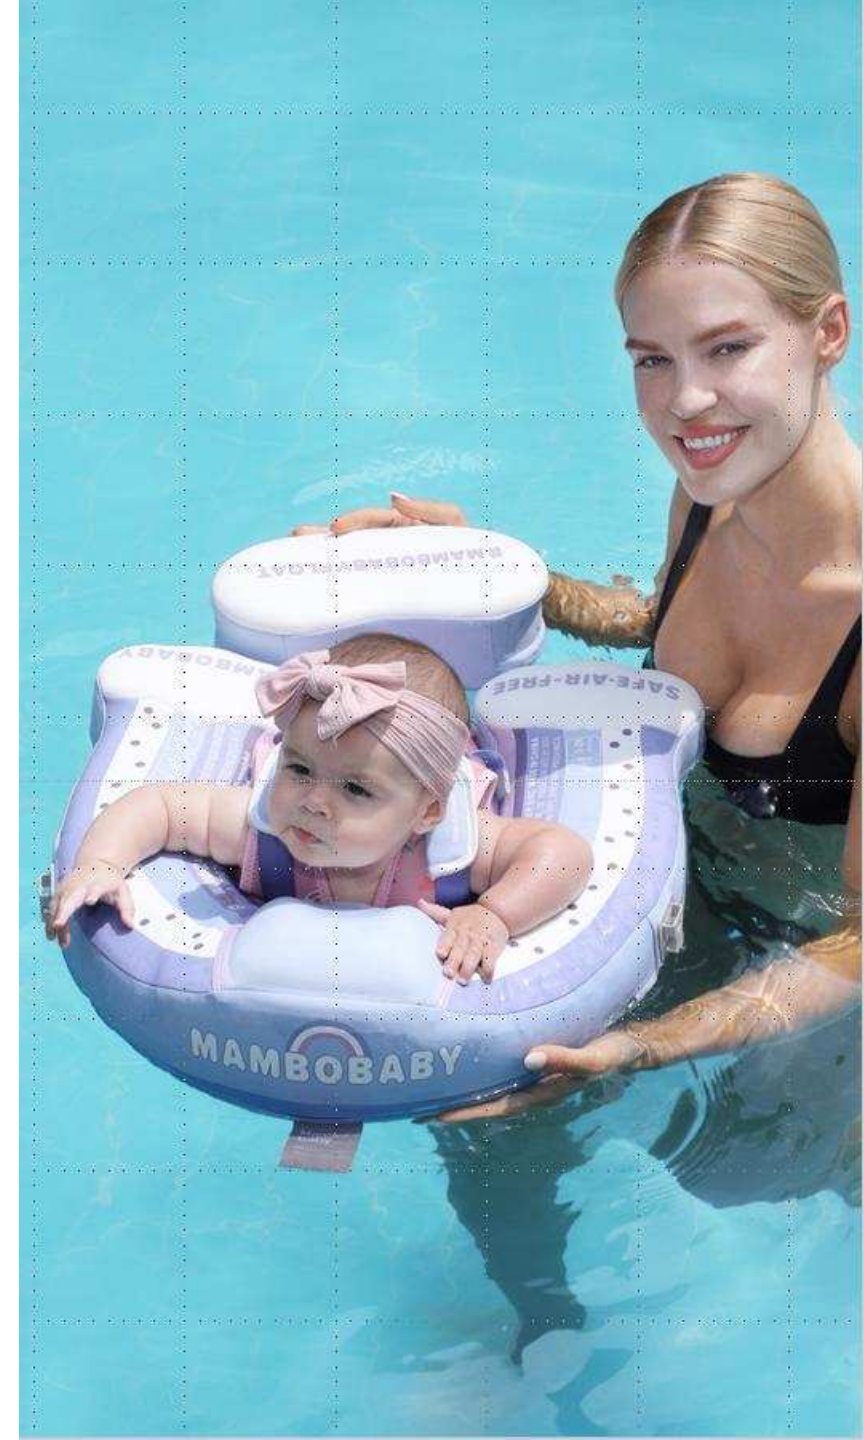

Founded in 2006 by Remus, a dedicated father and engineer, MAMBOBABY is more than a brand, it's a pioneer in baby flotation gear. Driven by a passion for safety, comfort and design, we've redefined the standard for infant swim products and earned recognition as the #1 choice in baby floats among families who prioritize quality and peace of mind.

Our team is committed to crafting fresh, innovative product lines each year, backed by global patents that protect our breakthroughs and set us apart in the market. Safety is our top priority, with all products meeting the highest international standards, including EN13138 (Europe), ASTM F963 and UL1123 (U.S.), AS/NZS 1900 (Australia).

As a fully in-house developed premium brand, MAMBOBABY sells over 500,000 units annually, with a production capacity of up to 1 million units. Our products outperform conventional inflatable floats in safety, comfort, and quality, making them truly one-of-a-kind.

As part of our retail expansion strategy, MAMBOBABY launched on Amazon in 2018, expanded to Target.com in 2024, and is now available at select Dick's Sporting Goods locations in the U.S.

Every product we create embodies MAMBOBABY's premium positioning, design philosophy, and deep commitment to children's well-being.

INSPIRED BY REAL TODDLER JOURNEYS

As a dad of three, founder Remus noticed his little ones' frequent knocks while crawling and taking their first steps. The Mambobaby Guard Headwear reimagines comfort-focused headwear with all-around cushioning — crafted for toddlers' wobbly explorations.

WHY PARENTS CHOOSE US

Enhanced Protection

Thoughtful Toddler Comfort

Multi-layer cushioning gently softens the feel of knocks across key areas (forehead, sides, back) as toddlers crawl and totter. Made with lightweight EVA foam and a stretchy, soft shell to move easily with little ones during daily play.

Breathable Comfort

Top ventilated elastic band + large surface airflow pores + internal air channels prevent overheating.

Lightweight mesh lining (82% polyester + 18% spandex) ensures soft contact with delicate skin.

Ultra-Lightweight Design

Weighs <100g (lighter than an apple) for unrestricted movement Ergonomic stretchable fabric adapts to head growth (6–24 months).

Certified Safe | Parent-Tested

CPSIA-compliant & phthalate-free materials
