Reliance

Reliance Dental Manufacturing, LLC

The Right Choice Starts with **Dura**

Reliance Dental Manufacturing, LLC, provides only the highest quality products, affordable prices, and personal attention to every customer.

Our **Dura** line of dental acrylics features outstanding accuracy, reliability, and ease of use. We take pride in knowing our products are designed to provide both **comfort** and **value** — ensuring a better experience for both patient and dentist.

Dura ... the first name in reliable dentistry.

DuraLay – Our signature inlay pattern resin sets in 5 minutes, forming a dense, accurate, non-shrinking pattern that can be trimmed, handled and invested without fear of breakage, chipping, or distortion.

DuraLay Temporary Crown & Bridge – A self-curing tooth shaded acrylic. Temporary Crown & Bridge provides very little shrinkage, is very hard, and easily polished and trimmed. Sets up in 4 to 5 minutes.

DuraBase Soft Cushion Rebase – Self-curing, soft-cushion rebase material for relining dentures. Will last 9-12 months in the mouth. Provides relief and comfort for even the most sensitive patients.

Dura Rely-A-Soft – A long-term soft denture liner for chairside or laboratory use that provides added comfort and will last up to 2 years in the mouth. Available in pink or clear.

DuraLiner II – A permanent, hard, self-curing chairside rebase material for relining dentures. Low exothermic reaction; will not sting or burn the patient's tissue. Available in pink, clear and nylon fibers.

DuraConditioner – A tissue conditioner and functional impression material that treats and tones irritated tissue. Generates a functional impression.
