Chairside Light
Whitening System

Every day live bleaching with fläsh!

Gentle, effective and fast

fläsh Chairside Light Whitening with active chlorophyll is gentle on teeth with a low sensitivity rate. Effective whitening in 3–4 treatments of 15 minutes each in one session.

Cosmetic tooth whitening with 6% hydrogen peroxide. Medical tooth whitening with 32% hydrogen peroxide and with medical indication only.

The treatment can be intensified by subsequent use of fläsh Take Home Whitening.
