

Beauty white.

Jet Air Polisher

QUICK JET M

Polishing

Autoclavable

Compact

■ Your patients want white teeth.

The powder jet stream readily removes tobacco tar, tea tannin, stain, and plaque. With Quick Jet M, tooth whiteness and brilliance will be recovered speedily.

Compact design, handpiece type.

Easily portable space-saving design for storage. Attachable to turbine hose and no complicated installation is required. The user-friendly designed grip fits more comfortably in your hand.

Available in quick-disconnect couplings of major brands.

Quick Jet M is available various models in quick-disconnect couplings of major handpiece manufacturers as well as in 2-Hole and 4-Hole connectors to meet demands of users.

More cleaning efficiency with newly designed head.

The smaller nozzle outlet enables pinpointed and efficient cleaning in a short time. The rotary head easily cleans areas hard-to-reach with conventional jet polishers.

Sterilizable in an autoclave.

All components, not only the head are sterilizable in an autoclave. You can use it safely and hygienically. Inner powder passages can be cleaned from tip to toe easily and quickly.

Available in 2 colors.

Quick Jet M comes in 2 colors.
 ○ **ivory white**
 ● **black**
 You can choose the preferred and suitable body color for your dental office.
