The better of our life

## HISTORY

**2002**

Incorporation of Bowon Dental Materials

**2010**

Obtained a license for medical device manufacturing business and FDA approval

**2012**

Obtained the venture company certificate and concluded a U.S. agency contract

**1985**

Establishment of Bowon Dental Materials

**2007**

Obtained a license of the importing business

**2011**

Developed and patented a single-use articulator stopper

**2013**

Obtained the certification for medical device manufacturers from the ministry of health and welfare in Japan

“A company with growth driven by it's vast experience and outstanding know-how”

**LEPIO** is a manufacturer and distributor specializing in the manufacture, distribution, export and import of all types of all types of dental materials and equipment from it start on April 20th, 1985, LEPIO (formerly, Bowon Dental) has endeavored to enhance it's reputation through honesty toward consumers.

Since the company's incorporation in 2002, LEPIO has diligently developed and patented various products based on it's experience and know-how.

In order to take another leap forward as a customer-oriented company, we changed our name to LEPIO in January 2019 and promise to repay the continued support from our consumers with all our capabilities and passion.

ISO 9001 / ISO 14001 / CE / Global Leading Company 1,000+ / Certi cate of venture company / Certi cate of Inno-Biz / Honor of the National Quality Master / Research institute

#### 2014

Obtained the certification of promising exporters/ Moved to the High-tech medical complex

#### 2016

Opened the affiliated lab/ Obtained the Inno-Biz certification/ Selected as P-STAR/Obtained ISO-9001/ Developed the LEPIO brand

#### 2018

Expanded the lab in the High-tech medical complex

#### 2023

Global Leading Company 1,000+

#### 2015

Jointly developed new materials for dental technicians

#### 2017

Obtained ISO-14001. CE and PRE-STAR/ Developed a new technology using high frequency

#### 2019

Received commendation from the director of Daegu Gyeongbuk Free Economic Zone Authority/ Changed the company name to LEPIO

#### 2024

One Million Dollar Export Tower Award

## Dental Lab Materials **S Base**

### Intended Use

Used for pin and modeling work

### Features

Saving time money / Simple shape and light weight / Accuracy of a model guaranteed / Easy to work with pins because of no need for plaster

No need for additional equipment or tools / Possible to be used by a dental technician immediately after attaching an articulator

## Dental Lab Materials **Dowel pin**

### SD-Pin

#### Features

No deformation of the sleeve occurs by use of a steam cleaner or heat of plaster curing

The sleeve is made of plastic, so it comes out smoothly when separated from the pin

Made of double pin for outstanding stability

Metal Pin	1,000PCS
Plastic sleeve	1,000PCS
Cap	1,000PCS

### SM-Pin

#### Features

Made of double pin, it is highly durable, and the different length of both sides allows a technician to check the results of the work easily with one hand

The groove of the sleeve helps to maintain durability when joining with and detaching from a model

The sleeve is made of metal, and so durability is maintained when it is separated from the pin. The proprietary design is registered.

Metal Pin	1,000PCS
Metal sleeve	1,000PCS
Cap	1,000PCS

### S Dia-Pin

#### Features

The proprietary design guarantees excellent work ability  
Prevents rotation and movement when making prostheses

The design with very narrow side makes it easy to work with short interdendum of the anterior mandible

The rubber end cap is very easy to move from the pin

Metal Pin	1,000PCS
Plastic sleeve	1,000PCS
Cap	1,000PCS

---

## S-Single Pin

---

### Features

Small pin size and width suitable for the anterior  
Single-side cutting prevents rotation or movement

Qty 1,000PCS

---

## S-Rubber End Cap

---

### Features

Conical-shape rubber end cap, applicable to any dowel pin  
Easy attachment/detachment of an abutment model

### Applicable products

SM-Pin / SD-Pin / Single Pin and many other Dowel Pins

Qty 1,000PCS

---

## Pin Stand

---

### Intended Use

Storage of a dowel pin & tools

### Features

High work efficiency and easy inventory management  
Storage of various materials

Qty 1EA

Color- Yellow / Sky blue

---

## Dowel Pin Bur

---

### Intended Use

Bur for a pin works

### Features

Easy and convenient exposure using the dowel pin bur  
after modelling work  
More neat grinding with equal width use guring pin work if there is no end cap

Qty 1EA

## Dental Lab Materials **Articulator**

### SN-Articulator

#### Intended Use

Disposable Articulator

#### Features

Mandibular repositioning device for any type of occlusion  
Highest occlusion accuracy  
Easy pin work because no plaster is used to fix the articulator of a model  
Single use with no need to remove best performance and best prices

Qty 100SET

### X-Articulator

#### Intended Use

Disposable Articulatorbase

#### Features

Made with reinforced and durable plastic for more heavy duty use  
Optional adjustable stopper for added stability and support  
Compatible with all bases that fits slotted hinges very light and easy to mount

Qty 100SET

□ Stopper

## BQ-Metal Articulator

### Features

Easy to use articulator with simple design for varied occlusal adjustment

Vertical, lateral and backward movement available

Fitted with a metal magnetic plate for convenient rework of a model

Compatible with other plates developed by the company

Upper adjustment screw used as a stopper during the work for the upper pre-end case

3shape MEDIT Scanning Plate

Jig

Standard

## LEPIO-Articulator

### Features

Divided into standard and High, applicable to various clinical cases

Fitted with a metal magnetic plate for convenient rework of a metal

Compatible with other plates developed by the company

Low price for reducing consumers' burden

3shape MEDIT Scanning Plate

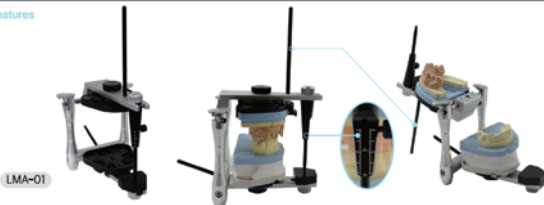

Jig

Standard

## LMA-Articulator

### Features

LMA-01

## Metal Plate

### Features

3Shape, MEDIT, Scanning Plate  
Compatible with Magnetic Plate  
D : 700~1,000  
E : E1, E2, E3

Qty 10PCS

## Metal Plate-Hoby

### Features

Copitable with Hoby Articulator

Qty 10PCS

## Magnetic Plate

### Features

3Shape, MEDIT, Scanning Plate  
Compatible with Magnetic Plate  
D : 700~1,000  
E : E1, E2, E3

Qty 10PCS

## Metal Button

### Features

Copitable with Articulator

Qty 10PCS

## Metal Jig - Partial (E,L,M-Base)

Qty 20PCS

Upper-Right (Lower-Left) : 10EA  
Lower-Left (Lower-Right) : 10EA

## Metal Jig - Full&Anterior (E,L,M-Base)

Qty 20PCS

# Dental Lab Materials **Cutting / Abrasive Materials**

## Ultra thin disk

### Features

The disk contains fiber so that it hardly breaks or generates heat

Use all ceramic and regular porcelain disking  
Flexible and thin disk  
More effective grinding and separating

Size 22 x 0.2mm  
25 x 0.2mm

Qty 20EA /SET

## Zr-Magic Wheel

### Features

Used after grazing sintering, ceramic denture base and orthodontic resin

Qty 12EA /SET

Magic Wheel - Soft  
Magic Wheel - Hard

## Zr-CAD/CAM cutting tool

### Features

Zirconia, Soft Metal cutting tool

Qty 10EA /SET

## CR-CO Wheel

### Features

CR-CO, Ni-CR, ETC Metal

Qty 12EA /SET

## Zr-Titanium Wheel

### Features

Implant abutment, Titanium, Gold, ETC Metal

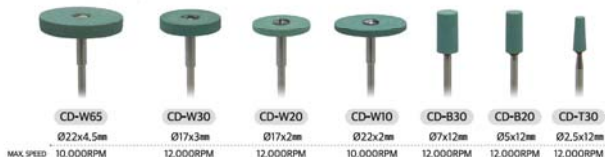

Qty 12EA /SET

## Diamond Stone

### Features

Diamond impregnated green mounted stone for Zirconia and all other types of ceramic.

## Zr-Dia Super Glaze

### Intended Use

Zirconia high-gloss glazing

Qty 3EA / SET

## Zr-Dia Point (Stone)

### Intended Use

Zirconia ceramic polishing

Qty 4EA / SET

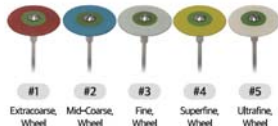

## Diamond Grinder / RDPW

Ø22x3mm

## Diamond Grinder / RDPD

Ø22x3mm

## Diamond Grinder / RDPP

## Diamond Grinder / DG-WD1

Ø22x3mm

MAX.SPEED: 10,000~15,000RPM

## Dental Lab Materials **Other Accessories**

### Zir-Holder

#### Intended Use

Reverse forceps for crown tweezers for crown

#### General use

Anterior/Posterior compatible

Prevents scratches and damage to zirconia, coping and crowns  
Silicone tube finish to prevent slipperiness / scratching / damage

#### For Anterior

Tiny folk make easy to grip small space

Prevents scratches and damage to zirconia, coping and crowns  
Silicone tube finish to prevent slipperiness / scratching / damage

#### For Posterior

Wide folk give stability grip for posterior crowns

Prevents scratches and damage to zirconia, coping and crowns  
Silicone tube finish to prevent slipperiness / scratching / damage

### Pen Blader

#### Intended Use

Porcelain cut back and trimming knife

#### Composition

Pen blader holder 1EA+Basic blader 6EA+Margin blader 5EA

#### Basic Blade

Qty 6EA /Sheet

#### Margin Blade

Qty 5EA /SET

## Mouth Checker (Lip Form)

### Features

Used to check the smile line while working on the porcelain or contouring  
The pink color helps shade matching of porcelain  
Comes in three styles for efficient work  
Used to check the smile line and midline

Qty 3EA /SET

1 Square type

2 Oval type

3 Taper type

## Air gun (Air blower)

### Intended Use

Air gun for a dental technician with easy control of air volume or (strength)

### Features

Made of silicone for excellent grip  
Designed to adjust the amount of air easily  
Air gun hose and hook included in the set for convenience use  
Used by a dental technician for varied work and easy to store  
The diameter of the air tube is 6 Ø

Qty 1EA

## Model Box

### Intended Use

Case for keeping a model

### Features

The sponge inside helps to protect the contents  
The exterior is made of hand plastic to keep the contents safe  
Made of translucent materials to check the contents from outside  
Effectively reduces shock

M 115x93x(H)55mm

Qty 200EA /Box

L 110x135x(H)85mm

Qty 100EA /Box

## FG Bur Holder

### Intended Use

Used with the average holder length (FG Bur)  
Using FG Bur at (for) Micro motor

### Features

Functional bur holder, used just like a thin, short HP bur  
Designed to use 2.2mm general handpiece  
The long holder makes it possible to work on the deep area of the coping or crown of zirconia or porcelain

Qty 1EA

## Crown Box

### Intended Use

Portable box for a crown

### Features

Prevents damage during delivery of coping or crown  
Easy to carry around  
Easy to check the contents outside  
Plastic film inside the case keeps contents safe

Qty 90EA /Box Dimensions / 45x50mm

## Lab Sand

### Intended Use

Storage of a dental works

Qty 30EA /Box Dimensions / M 90x90mm  
L 110x110mm

## Lab Box

### Intended Use

Storage of a dental works (specialized at denture)

Qty 10EA /Box Dimensions / 100x100x50mm

## Crown Case

### Intended Use

Storage of a dental works

S 28x28x102mm

Qty 300EA /Box

M 56x43x102mm

Qty 130EA /Box

## Model Case

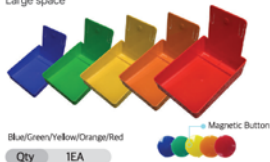

+ Magnetic Button

### Intended Use

Working pan

### Features

Effective classification of work with 5 colors  
Sufficient space to store wax bite, metal coping, or gum  
Easy to keep work orders with a magnet  
Sufficient space for a large articulator  
Large space

Blue/Green/Yellow/Orange/Red

Qty 1EA

## Working Pan

### Intended Use

Working pan

### Features

High-brightness urethane material  
Easy classification of work with 5 colors  
Sufficient space for a large articulator  
Clips for keeping work orders easily  
Economic price

Red/Yellow/Green/Blue/Gray

Qty 1EA

## PUK Saw Blade & Handle

### Features

Highly durable  
Compatible with domestic saw blade and handle  
Made of heat-treated steel and thus lasts long  
From Germany

S 100mm (3.93 in)

M 120mm (4.72 in)

L 135mm (5.31 in)

Sawing rod (S,M,L)

Qty 1SET

## Pen Blaster Holder

### Intended Use

Pen-type micro sand blaster for crown & bridge

### Features

Comes in two sizes (1.5mm/2.0mm), easy to use on both inside and outside  
Both glass beads / alumina applicable  
Tip replaceable for economical use  
Compatible with all pen-type blaster machines  
The hard tip part can be heat-treated  
Highly durable and has a long life

Qty 1SET

☐ Pen blaster  
Exchangable Tip

1.5mm

2.0mm

## Dental Lab Materials **Porcelain Brushes**

### LEPIO Brush

**Intended Use** Brush for build-up / Ceramic

**Features**

- Tip replaceable
- Natural bristles (Kolinsky brush)
- Adequate weight for precise work
- All parts made of metal
- Three parts-brush, handle and vibration with scope-separated

**Qty** ISET (#1, #3, #4F, #5, #6)

## S-Stick Brush (Natural / Artificial)

### Intended Use

Brush for build-up

### Features

Natural bristles (Kolinsky brush)—Natural brush  
Thin, flexible brush tip  
All parts made of plastic with a brush and handle  
integrated Economical-Artificial

S-Stick Brush  
(Green)

## S-Cap Brush (Natural / Artificial)

### Intended Use

Brush for build-up

### Features

Natural bristles (Kolinsky brush)—Natural brush  
Thin, flexible brush tip  
All parts made of plastic with a brush and handle  
integrated Economical-Artificial

S-Cap Brush  
(Green)

## S-Big Brush (#8)

### Intended Use

Brush for build-up

### Features

Natural bristles Kolinsky brush  
Thin, flexible brush tip  
Easy to apply a large amount of porcelain  
Contains an adequate amount of moisture

Qty 1EA

## S-Wax Brush

### Intended Use

Used for wax crown work and dusting

### Features

Soft and long life  
Restore to the best condition  
Polishing effects  
Made of swine and artificial bristles

Qty 1EA

## SMT Brush

### Intended Use

For build-up finishing touch

Qty 1EA

## Brush Mate

### Intended Use

Porcelain brush Cleaning basket (or bottle)

### Features

Holds up to 150ml of water  
Designed to store a professional pop-up sponge

Qty 1SET Brush Mate 1EA + Sponge 2EA

## Pop-up Sponge

### Intended Use

Natural cellulose sponges for porcelain apprentice

### Features

Contains an adequate amount of moisture always  
Keeps the shape and moisture of a brush has a long time

Qty 2EA Dimensions / 60x90x30mm

## Brush Stand

### Intended Use

Multi-purpose cradle (stand)

### Features

Keeps a brush, carving knife and many other tools prevent rolling  
Made of silicone and thus soft and not moving.  
Comes in various colors for customized use Autoclaveable

Qty 5EA/Box Purple/Blue/Blue Green/Gray/Green

## Dental Lab Materials **Tools for Dental Technicians**

### LUMIXPULSE

LP~460

#### Intended Use

Zirconia Furnace

#### Features

Interface operation with an 8-inch touch screen

Up to 20 schedules can be entered as desired by users

Oxygen injection via upper door control increases the transparency of Zirconia

Enables rapid and safe temperature control (MOSIZ\*4)

A variety of scheduling from 1 hour to 10 hours

Upper door control reduces heating wire contamination and creates cleaning effects

The tray can be stacked in two tiers, so a large amount can be sintered at once

#### □ Components

Tray (2EA)

Bead 100g  
(1EA)

Tray Support (2EA)

Tray Forceps (1EA)

## LEPIO BARREL

### Intended Use

(Crown, Denture) Automatic grinding & polishing machine

### Features

Trim the surface of metal-based pores and increase the gloss

Set rotational speed and operating time to operate the facility fully and automatically

Work on up to four prosthetics at a time

Use dedicated abrasive

Patent application: The top cover on/off method is convenient

Adjust the bolt with a hex wrench

### □ Components

Abradent (A, B)

Hex Wrench

Polish

Brush

## LEPIO SAW

### Intended Use

Model cutting machine

### Features

Sawing machine for pin base

Both foot switch and palm switch available

Laser beam to mark a cut easily

DC 24V input, safe

Cross section cut neatly because of uniform dia particle shape

Applicable to single side, full and anterior and featured by a large radius of rotation

Sawing unit made of stainless steel and marked with scale for convenient use

/ How to use

### □ Components

Sawing Disk  
(Additional sold separately)

Dental Work Jig

Pedal

24V Adapter

## LEPIO CLEAN - AUTO STEAM

### Intended Use

Steam cleaning tool / Sterilization

### Features

Boiler type steam washer with heater: heater for long time using with digital display, intuitive operating checking.  
10 min to heat & steam from power on.  
Two water supplying, tap water / tank water.  
Infinity steam by stopless water supplying.  
Steam pressure settled 6.0-6.3  
Slim tank for quick heat and access with infinity water supply

## Titanium Anodizing Unit

### Intended Use

Anodizing machine for titanium

### Features

Easy and convenient to use  
Excellent durability and vivid colors  
Highly uniform film and colorization a  
No burning occurs  
Low maintenance costs

## Dental Lab Materials **Motor / Handpiece (Air)**

### Aqua Mill

High-speed water cooling air turbine for zirconia and ceramic

#### Features

Coupling type for easy separation of the main body and handpiece  
Fitted with leakage prevention feature  
Spray-type water injection for preventing micro cracks during zirconia coping or crown work  
Large-capacity (250ml) water tank durable to with stand 200,000~300,000 RPM  
One-touch bur fastening / removal  
No need to use lubricant

Components Body / Pedal / Funnel / Handpiece connecting hose / High-speed turbine handpiece  
Dimensions (W)200x(L)101x(H)167mm

### Air Mill

For zirconia and ceramic

#### Features

Air turbines system to maintain a comfortable working environment  
Designed for cutting ceramic pores of zirconia  
Reduce the dispersion of debris  
One-touch bur separation-type

Components Body / Pedal / Dry-type handpiece  
Dimensions (W)105x(L)100x(H)150mm

Connect the handpiece  
to the air inlet

1) Pedal connection  
2) Air inlet

Turn the dial left and right  
to control pressure and  
maximum speed

## Dental Lab Materials **Electric Wax Unit**

### LEPIO Wax Men

#### Features

Induction heater perfect replacement of an alcohol lamp  
Electric carving knife handle with two different temperatures supported

Induction located in the center part, which can replace the alcohol lamp, according to the ergonomic design  
Temperature controlled in Celsius / Fahrenheit  
(min 50°C, max 200°C / 122°F-392°F)

Seven tips with 24K plating optimized for precision work  
Automatic temperature control (50°C and 200°C), and memory storage

Seven tip styles available

### LEPIO S-Wax Pen

#### Features

Smaller than other products, easy to store and convenient to use

Two handles operated independently  
Temperature controlled in Celsius / Fahrenheit  
Automatic temperature control (50°C and 200°C) and memory storage

Seven tip styles available

## Dental Lab Materials **LAMP / Dental Clinic Supplies**

### LED microscope lamp

Microscope to be purchased separately

#### Intended Use

LED lamp designed for 8x microscope

#### Features

LED lamp which can be used semi-permanently  
LED lamps arranged in a circle for uniform illuminance  
Smart on/off with one touch  
Brightness light control effective use  
Easy removal / attachment and convenient to use

### Digital X-Ray Sensor Holder

#### Intended Use

Holder for a digital X-ray sensor

#### Features

Flexible design to be used for any touch in the mouth  
Single holder for any area in the mouth  
No need to put a hand in the mouth of a patient  
Autoclave sterilization

Size II 43x30mm

Size 0 37x24mm

## Dental Lab Materials **Dental Hygiene Products**

### LEPIO 153 Toothbrush set

#### Intended Use

Toothbrush

#### Features

Soft charcoal fine bristles, antibacterial function  
Patented product, including a portable case and cup  
Excellent PR efficiency compared to the price  
Suitable for various events, promotions, and free gifts

2PCS

4PCS

### LEPIO Dental Kit

#### Intended Use

For office toothbrush set

#### Features

Containing a toothbrush, toothpaste, tongue cleaner and portable case  
Soft charcoal fine bristles, antibacterial function  
Toothpaste containing licorice extract and sophora flavescens extract  
Patented product, including a portable case and cup  
Excellent PR efficiency compared to the price  
Suitable for various events, promotions, and free gifts
