# COATINGS

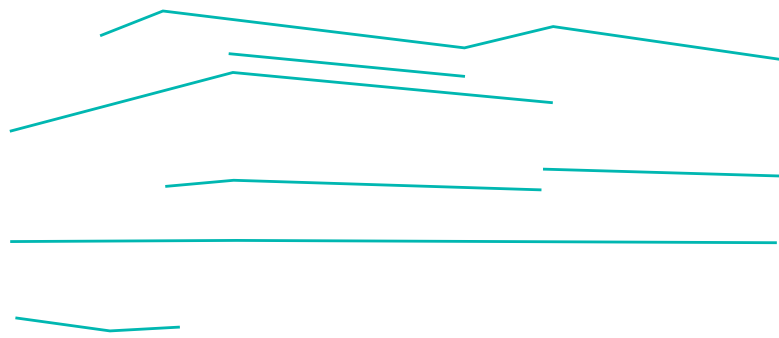

## We innovate

At i+Med, we are experts in creating biocompatible coatings with the ability to functionalize and enhance the material selected by clients.

**Our coatings incorporate Smart Nanohydrogels based on crosslinked polymer networks capable of providing a SUSTAINED RELEASE of active substances at the right moment.**

- + Promotes tissue regeneration and implant integration.
- + Maintains the optimal environment around the implant.
- + Decreases implant rejection.
- + Reduces the postoperative phase.
