## COMPANY INTRODUCTION

### 公司简介

Fosun Yitian Medical Equipment Co., Ltd. founded in 2014, is a high-tech company specializing in manufacturing small dental equipment products such as high-speed and low-speed dental handpiece, covering an area of more than 5000 square meters, which is equipped with precision machining, lathe production workshop, accessory assembly workshop, testing room, painting room and warehouse. With 50 employees, we have a production team led by experienced professional engineers and a group of processing and after-sales service teams.

We focus on dental high-speed handpiece, low-speed handpiece, oral camera, root canal treatment equipment series, light curing series products. We not only provide our own brand products, but also provide OEM processing and production services.

At the same time, we have also established a perfect warranty and maintenance after-sales service system. In just eight years, we have obtained all the production qualifications in China, cooperated with some important foreign markets (Russia, India, Europe), established cooperative relations with up to 500 companies, and shipped an average of 5000 high-speed and low-speed dental handpiece every year. The company has "focusing on products, attentive service" as its core value and "reputation first, pragmatic innovation, continuous improvement, excellence" as its business philosophy. We hope to get more people's recognition and cooperation through our professional level and unremitting efforts.
