Specifications

G-effect

A product with a perfectly synchronized emboss effect, it is hard to recognize this is a printed product, not a real wood veneer.

G-effect / FORCE

This superb product presents a touch of the sanded real wood veneer with sensation.

G-effect / TACTILE

A sophisticated product with a strong synchronized emboss with a sublenatural feeling.

Added Value

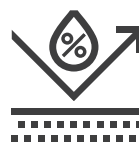

VS (Vapor Shield)

VS is highly resistant to moisture, water, and dirt, protecting the product from warping, scratches, and stains while maintaining its design. Additionally, the thickness of VS tolerates and hides some uneven surface of the substrates.

Water Proof

Moisture Proof

Covering Irregularities
