# WATER-BASED & HOTMELT

OUR ADHESIVES PORTFOLIO

**Chlorine-free (CR-free)**

**Bio-based | Biomass-balance**

**Debonding | Peelable**

**Monomaterial**

**Cradle2Cradle**

**100% PP Hotmelt**

**PES Hotmelt**

# ENVIRONMENTAL SUSTAINABILITY

Chlorine-free (CR-free)

Odorless

No emissions

Low energy consumption

Carbon footprint reduction

Sustainable adhesive formulations

Fulfills far-reaching  
environmental guidelines

Eco-friendly, resource-efficient  
production

# VISIT OUR SIMALFA® INNOVATION CENTERS

## WORLDWIDE ON THREE CONTINENTS

### No Production Downtime

Send us your material and we'll take care of everything. This means you don't have to interrupt your production and you're guaranteed a smooth operation with no downtime costs.

### On-Site Visit

Visit us when you are ready; we will find the best solution for your needs and provide effective and efficient bonding solutions.

### Research and Development

Our in-house team develops innovative solutions for you to try first, and can advise on your individual requirements to keep your business competitive.

### Process Optimization

Our experts enhance your processes for maximum efficiency, boosting productivity and reducing costs.

### Training and Service

We offer bespoke training, empowering your team with the skills to maximize the benefits of your processes and products.

# ALWAYS A STEP AHEAD

### Cost Efficiency

The low application quantity of our product considerably reduces material consumption. This leads to a significant conservation of resources and delivers the **lowest overall costs**.

### Remarkable Resource Efficiency

SIMALFA® allows an extremely economical amount of adhesive to be applied, resulting in significant material and cost savings and enabling resource-efficient production.

### Trust Generated by Expertise

Customers benefit from the comprehensive advice and support of our SIMALFA® team, ensuring the successful transition to more sustainable production methods.

### SINCE 1972

We are a globally active, medium-sized Swiss family business with over 50 years of experience and an innovative and sustainable adhesives portfolio.
