

Everad is a French firm founded in 1969 and located in Marlenheim, near Strasbourg in the north-east of France.

Inspired by our “Sticking ideas” signature, we develop smart multi-technology bonding solutions for industry and ideas that “stick” perfectly to what our customers want.

Our method

We adopt a **process of close cooperation with our customers** at every stage of product development to provide a solution to their bonding needs.

Our values

Flexibility : we are attentive to our current and prospective customers’ requirements and tailor our know-how to offer specifically optimised solutions.

Expertise : as multi-technology bonding specialists, we call on our expertise to guarantee outstanding products and solutions.

Commitment : as a company, we are passionate about what we do. This day-to-day commitment is conveyed in our total dedication to customer satisfaction.

Cooperation : we base our approach on close cooperation with customers from day one, to forge a partnership built on constructive exchanges.

Trust : all our business relations are founded on mutual trust and respect – prerequisites of our commitment.

Our scope

Everad focuses its activities on **4 application sectors** :

- Cellular foam (mattresses, seats, technical foams)
- Construction (wood, composites, sandwich panels, weatherproofing and insulation systems)
- Assembly (transport, paper/packaging/film, technical textiles, etc.)
- Toll-manufacturing (water-based adhesives and reactive systems)

We also heavily integrate **new market trends** – eco-friendliness, “green” organic solutions, fire resistance, reactivation process – into every step of our development operations.

Our know-how

Our skills set focuses **on the development, production and marketing of specialist adhesives**. Our specificity lies in our **multi-technology expertise** :

- water-based adhesives (dispersion adhesives, contact adhesives and binders),
- reactive systems (1 & 2-component PUR, MS, Hybrid and STP adhesives),
- hot-melt (thermoplastic, reactive) adhesives,
- new-generation solvent-based adhesives.

We guarantee secure delivery of our products in suitable packaging and provide ongoing customer support in the use of our adhesives.

Our facilities

We manage our entire product development and service chain from the heart of Europe where all our activities are based : technical and commercial departments, R&D, application labs, quality control, supply chain, production and logistics from the heart of Europe.

Our geographical markets

While trading mainly with European customers, an increasing proportion of Everad's market is located on other continents.

Our certificates

- ISO 9001 : 2015
- ISO 14001 : 2015

A member of

Holding LAS (CH) including the companies Everad, Artimelt, Collano.
