

Schilsner: a reliable edgeband partner for furniture industry

Schilsner is an innovative manufacturer that has been designing and producing furniture edgebands since 2005. Edgebands are our expertise and our focus. We know our product inside out, from raw ABS to a ready roll. Our mission is to provide perfectly matching edgebands for every project.

We have been supporting furniture manufacturers for almost two decades. While being in touch with our Clients daily, we continuously develop our understanding of their needs to be able to support them both in their everyday business and their new projects.

We believe that in order to be a trustworthy partner we must depend on reliable machinery resources. This is why we have a particular focus on our production technologies. Our machinery park allows for optimized and highly efficient production. Consequently, we are able to quickly react to our Customers' demands, even in terms of high-volume orders.

At the same time, being a highly specialized manufacturer with an in-house design team, we are ready to respond to the most individual requests, from the development of perfectly matched custom decors to non-standard cuts and special packaging.

It is our objective to build long-term relationships. We approach each partner individually. At the beginning of a new cooperation, there are personal meetings that let us understand their goals and challenges and find out how we can best support their business. We are eager to learn and adapt to achieve common objectives.

Our Partners' success is our success.

Are you a furniture manufacturer looking for reliable partners?

We are exhibiting at Interzum 2025! Visit our stand A020 in hall 01.2 and let's discover how we can boost your business.
