SUSTAINABILITY

PLANET

Reducing our carbon, water and waste footprint

PRODUCTS

Solving today's and tomorrow's food challenges

Quality from farm to fork

PEOPLE

The main ingredient in our success

PARTNERSHIP

d'Arta and its growers, keeping it close as family

We care about people

Our aim is to get the crops from the field to our processing sites as quickly as possible. That is why we have located ourselves in the richest agricultural areas of Europe.

Northern Europe:

- The site in **Ardoio** (BE) is located in the middle of Flanders, an area responsible for 30% of Europe's output of frozen vegetables. Here, we source peas, beans, carrots, spinach, cabbage and onions, among others.
- In **Yorkshire** (UK), d'Arta joined forces with a farming cooperative and a bio energy firm to build one of the UK's greenest food processing facilities, Yorkshire Greens. This site secures our supply of the well-known Yorkshire peas.

Southern Europe:

- In our plant in **Avis** (PT), we source Mediterranean crops, including broccoli, peppers, tomatoes and strawberries.
- In the fertile Fucino Valley in **Celano**, d'Arta teamed up with Agrifood, where a local cooperative grows and processes typical high-quality 'made in Italy' products, including tomatoes, onions, leeks, parsley and many more.
