Welcome to a **start-up** that has been in business for over sixty years.

Come again?

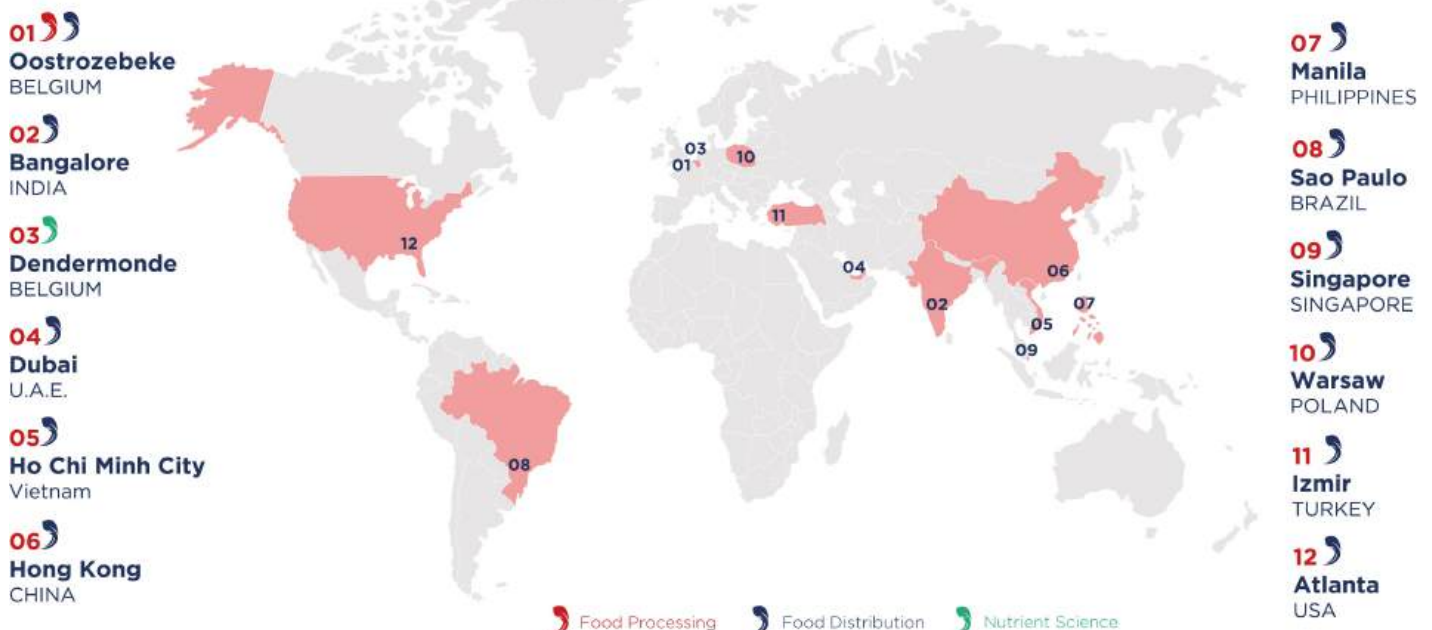

“Yes, the start-up period is long behind us, but we still have the pioneering drive.

Our roots? Chickens. In **1964** we started with Kipco and we are still using the name. Today we are a solid global player in the food business: Damaco Group, the powerful locomotive for 3 business units.

Excelling at **food processing** at home in the world of **food distribution** and carving out a niche for ourselves in **nutrient science**.

“In FOOD PROCESSING,
with our leading brand

Kipco-Damaco we are one of the
largest producers in the world of
mechanically deboned chicken and
turkey meat for processing. Our
product range consists of poultry
MDM/MSM, BAADER and skin.”

MDM / MSM

Kipco-Damaco uses a special soft production method to produce mechanically deboned meat (MDM) with a texture of ± 2 mm. This process guarantees the protein level of our MDM chicken and MDM turkey, making them suitable as stand-alone products, or for combining with other **Kipco-Damaco** products, such as Baader meat. As this production process also promotes binding and water absorption, our MDM meats are perfect for use in frankfurters, mortadella, nuggets, as well as canned and luncheon meat products.

BAADER

Would you like to add more texture to your products? Look no further than **Kipco-Damaco** products. Our chicken Baader, turkey red meat and chicken white meat are top of the line. With texture from 4-5 mm, they are perfect for meatballs, hamburger patties and a must for medium-fine sausages. Among the right combination of our **Kipco-Damaco** MDM, Baader or other meat types, your products will reach a level of quality that will satisfy any market demands.
