About Us

Market leaders in international business development

Founded in 1990, and built upon core family values, Brecon Foods has grown in tandem, and alongside the international frozen food industry throughout the last three decades.

Our business is based on long standing relationships throughout the supply chain, along with the commitment of our dedicated employees who possess an unparalleled level of expertise within the industry. With a growing network spanning across 60 countries on all 6 continents, our multilingual, multicultural team is well immersed and competent. When you partner with Brecon, you partner with highly qualified sales individuals, logistical planners, quality assurance specialists and a finance team who together, create the best extension of your business, be it on the front end or the back end.

For over thirty years, our company has built and maintained valuable relationships with global players around the world. We specialize in all major frozen food segments, with pronounced success in fruits, vegetables, meat and poultry.

President
Brecon Foods Inc

Our Mission

To ethically source
and supply the
highest quality of
frozen food to and
from, every corner
of the globe.

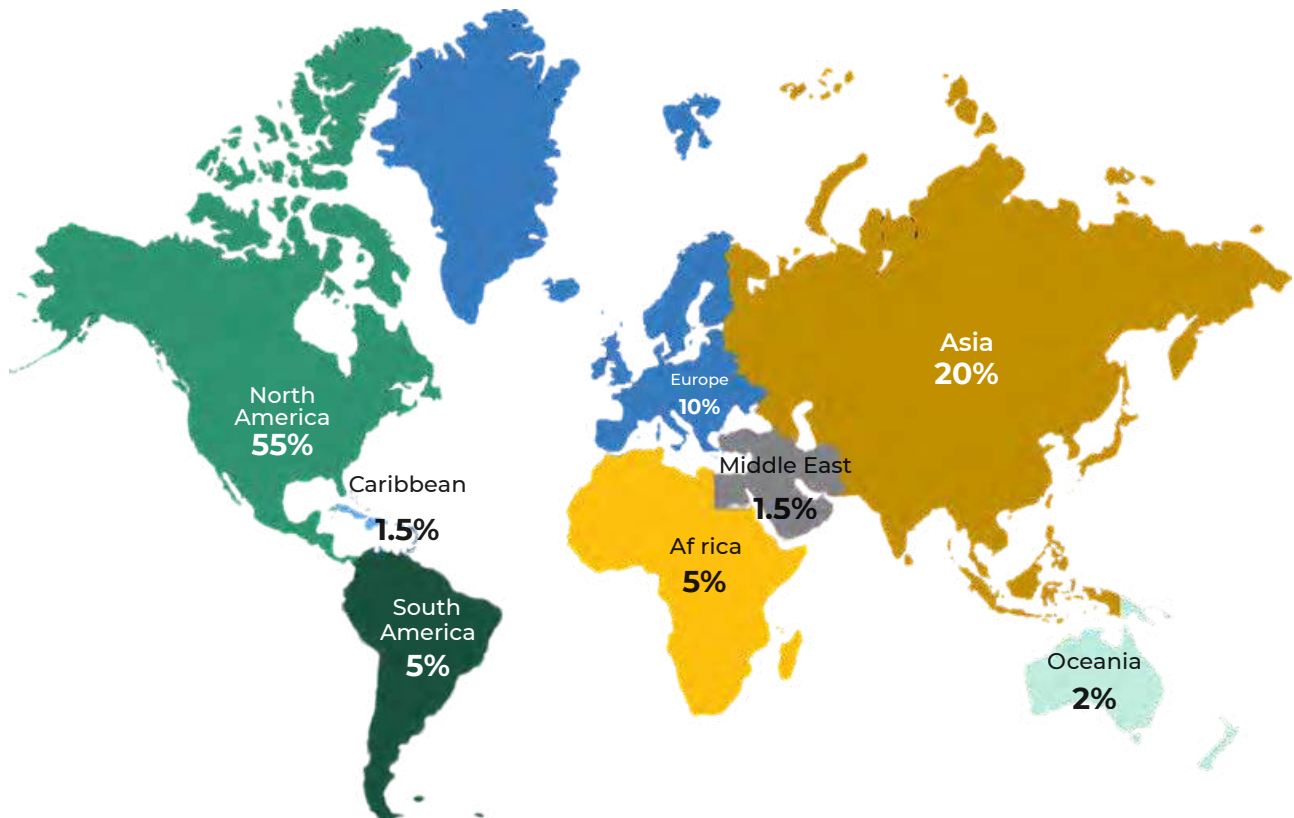

Our Vision

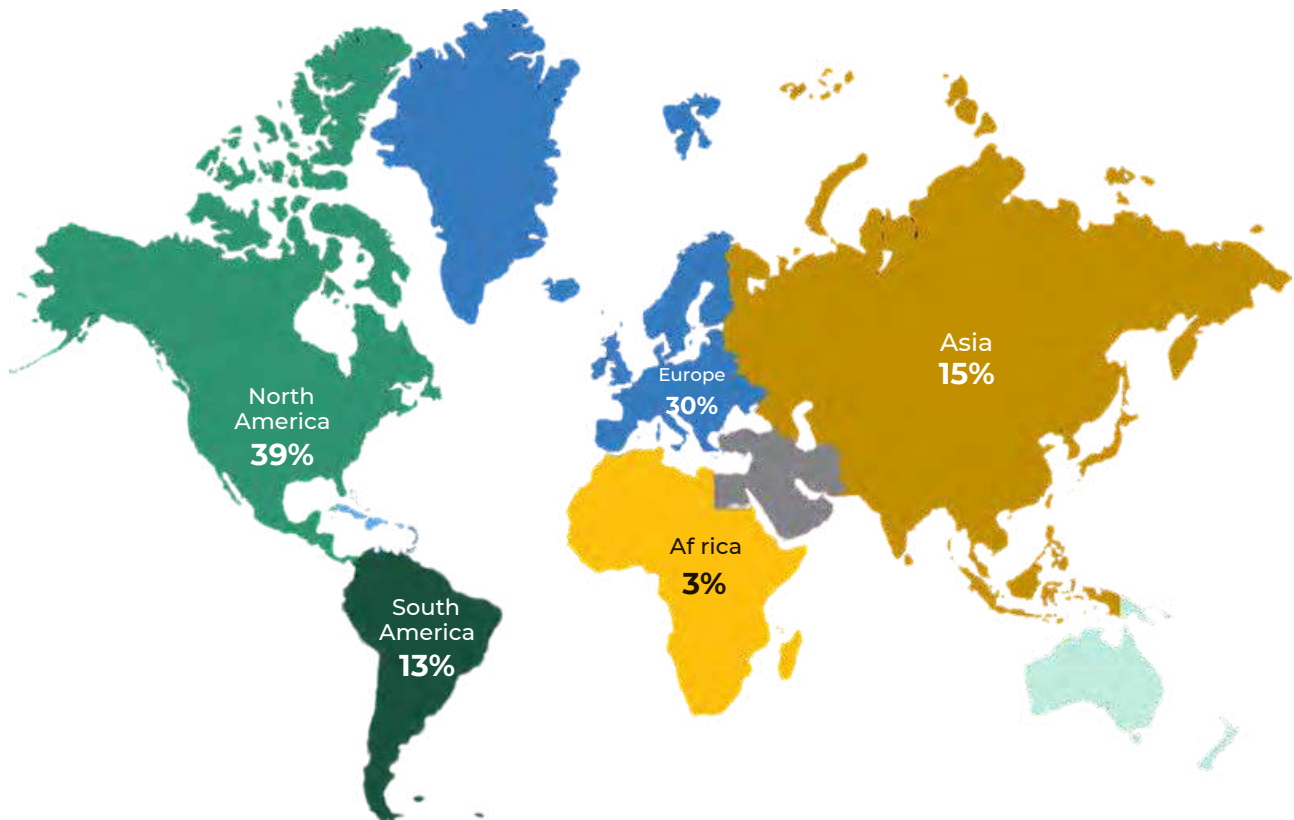

A world where every supply chain has the resources to be strong, accountable and successful.

As the international market expands and fluctuates, so does our need for durable and diverse supply chains. We provide you with access to new markets and better business opportunities so that you find synergy and stable sourcing. Our established network of accredited supply chain partners allows us to be better prepared for unforeseen market or crop conditions. That's the value of working with Brecon: we do the problem solving so you can focus on growing your business .

Our Clients

Global Sourcing Solutions

MAP

QUALITY • SAFETY • SOLUTIONS

Brecon's **BRC certified** Manufacturer Approval Program ensures full traceability.

Partnering with Brecon means partnering with peace of mind.

GFSI Audit's provide the foundation for our facility partner reviews. Non conformities are identified and corrective actions are assessed throughout the onboarding process. Partners are further evaluated on ethical trading practices, sustainability initiatives, food safety culture and investments in infrastructure and technology. Vendor performance is reviewed annually and re-audited every 3 years.

Field to Freezer

MAP

QUALITY * SAFETY * SOLUTIONS

Our experts specialize in import, export and third party shipments and will work diligently to ensure that all aspects of the supply channel run smoothly and efficiently. We ensure compliancy through our work with veterinary inspectors and government representatives from around the world. CTPAT certified and committed to continuous improvement, Brecon understands the importance of getting your product to destination both on time and in optimal condition.

Brecon Analytics

Brecon's trading platform provides access to global commodity price data from our network of pre vetted facilities from around the globe. Let Brecon's 30+ years of industry knowledge transform your procurement strategy.

Commodity Market Intelligence

5000+ IQF commodity pricing across 6 continents worldwide.

Strengthen your supply chain with instant access to our global pricing intelligence.

Risk Mitigation

With over 600+ GFSI certified facilities that have been further certified Under our MAPTM Program, you can have confidence that our commodity pricing is derived from facilities that value both food safety as well as fair and sustainable business practices.

Deep Learning

Built in commercial intelligence that prioritizes each client's unique requirements and connects the right partners throughout the entire supply chain.

Win Back Time

A document repository that connects our system's food safety requirements and client specific needs. Reducing data entry points for all business partners.

Actionable Insights

From demand and supply to foreign exchange, freight rates and political stability, get real time information on the key drivers that affect your business.

An International Perspective

Representing over 13 countries worldwide, our diverse team from North America, Europe, Oceania, Middle East, Asia, South America, Middle East, Caribbean, and Africa brings an International perspective to the table, allowing us to deliver unique solutions.

Fruits, Vegetables, and Proteins

ORIGIN:

**North America, South America,
Europe, Africa, Oceania, Asia**

All our ingredients are GFSI certified and approved under our Manufacturer Approval Program. Quality requirements are further documented by client to ensure that every sourcing option meets our individual client requirements. Our Benchmark program provides clients with consistent international supply options throughout the crop and counter crop seasons. Our full list of products include:
