VISIT LANDGEFLÜGEL AT THE ANUGA 2025!

As part of the vertically integrated Rothkötter group, Landgeflügel sells and distributes fresh and frozen chicken products, both for retail as well as for manufacturers and wholesale across the EU.

The Rothkötter group employs about 4,500 staff members at six production sites in northern Germany and generates a turnover of more than 1.8 billion euros. In our two slaughter and processing plants in Haren (Emsland) and Wietze (Celler Land), we slaughter approximately 4 million chickens per week. We produce 36% of the total slaughtered weight of broilers in Germany. The group also includes three compound feed mills, several parent stock farms, and its own hatchery.

The Rothkötter group stands for quality, responsibility and efficiency – it takes care of the entire value chain from parent animals to eggs, from own feed production and chicken farming to meat processing and distribution.
