

Great tofu doesn't need a PhD.

Just clean ingredients, a time-tested method that's been around for, oh, about 2000 years, and zero weird additives that neither you nor we can pronounce.

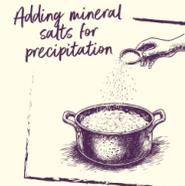

For over 30 years, we've kept it simple: make tofu the way we like it – tasty, high-quality, and easy enough to toss into any meal, any time, any way you want.

Our story began in the basement of the family home in Banská Bystrica, where Ján Lunter started making tofu. Back then, tofu wasn't exactly trending. And as Mr. Lunter likes to say: "If you didn't have sausage slices for dinner every night, it was like you didn't exist." But he believed tofu belonged at the everyday table. It was versatile, nourishing, and - most importantly - something everyone could enjoy.

Today, we continue to follow Ján Lunter's vision with heart and dedication - and we'd love for you to be part of that journey, too.

Tofu with heart (and history)

Sure, we've got shiny machines now. But the way we make tofu? That part hasn't changed much in, oh... about 2,000 years. We still follow the traditional method - slow, simple, and full of respect for the craft. Because some things are too good to mess with.
