

PoolTiger®, the only 100% natural water purifier, is easily installed in the delivery pipe, without the need for electricity or replacement parts.

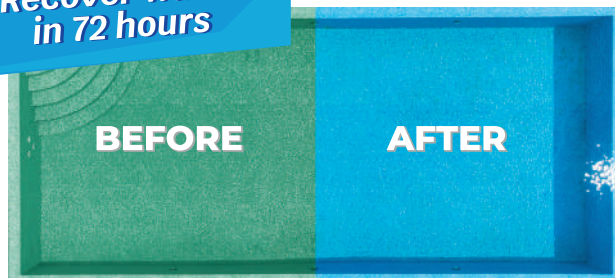

How does it work?

It works through hydrodynamic cavitation. Transforms water from liquid to gas and back again to liquid, generating a heat signature up to 200°C.

This process disinfects (reducing the demand for chemicals), changes the molecular structure of the water and offers three crucial benefits: it negatively charges particles for a crystal clear pool, protects and hydrates the skin, prevents the adhesion of dirt and algae, and prevents limescale.

With PoolTiger®, you will enjoy clean water without chemicals and protected surfaces.

PoolTiger® Benefits

PoolTiger® is a water purifier unique and 100% natural. Simple installation, without electricity or future spare parts. Transforms water through hydrodynamic cavitation, offering notable benefits:

- ▶ No electricity consumption or maintenance.
 - ▶ 2 year warranty, extendable to 5 years.
 - ▶ Reduces chlorine and chemicals up to 85%.
 - ▶ Prevents and eliminates limescale (calcareous scale).
- ▶ Eliminates chlorine odor (Combined Chlorine).
 - ▶ Eliminates algae and bacteria.
 - ▶ Quick installation in <20 minutes.
- ▶ Ideal to extend the life of your pool and protect your equipment.
 - ▶ Generates structured water, protects the skin, your health and surfaces.
- ▶ Compatible with other disinfection systems.
 - ▶ Gradually reduces isocyanuric acid.
 - ▶ Healthy and pleasant experience.
- ▶ Prevents whitening of fiber pools and Liner (Armed Sheet).

“Easy installation”

In new pools, PoolTiger® should be installed last in line return. In pools with a heater, it must be installed before the heater on the return line.

If the return line is too short to install the PoolTiger® inline, a bypass must be performed. Pool Tiger® can be installed horizontally, vertically or diagonally.
