

## Press Release-2

Date: December 17th, 2024

### “SEEKNIT C U R V E” \_ Koshitsu \_ Interchangeable Circular Needles Sets

#### [Pursuing the Ultimate Knitting Comfort and Ease of Use]

After years of dedication to enhancing the knitting experience, we have developed a new interchangeable circular needle, “SEEKNIT C U R V E,” featuring a beautifully flowing design. This innovation is now available in our newly designed sets.

These sets combine various sizes of interchangeable circular needles, accessories, and cases, offering flexibility to meet the diverse needs of our customers.

The new “SEEKNIT C U R V E” provides a smooth yarn glide, allowing knitters to enjoy the comfort of effortlessly progressing with their knitting projects just as they envision.

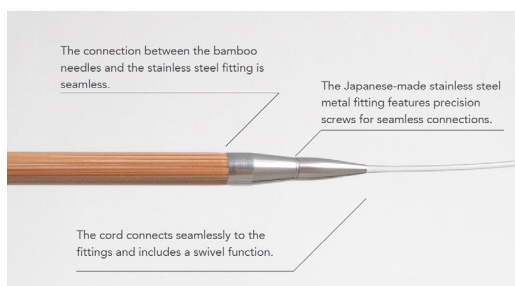

#### [Features of “SEEKNIT C U R V E”]

##### 1. Smoother and Seamless Join:

The overall design, from needle to metal fitting to cord, incorporates a gentle curve, allowing the yarn to glide smoothly, enabling faster and effortless knitting.

##### 2. Three Seamless Features for Smoothness:

- The connection between the bamboo needles and the stainless-steel fittings is seamless.
- Precision screws on the Japanese-made stainless-steel fittings ensure a seamless connection.
- The cord connects seamlessly to the fittings and includes a swivel function to reduce twisting.

## [Sets Maximizing the Features of “SEEKNIT C U R V E”]

Among the various options, the “15cm Premier Set” stands out as the flagship model. However, to cater to diverse knitting styles and projects, we offer a variety of sets with the following features:

- Needle lengths of 6cm, 10cm, 12.5cm, and 15cm.
- A wide range of 18 needle sizes, from 2mm to 10mm.
- Case options include the 100% cotton Fabric Case Set or the more affordable Paper Case Set.
- All sizes are also available for individual purchase.

## Example of Available Sets:

These thoughtfully designed sets enable knitters to fully experience the seamless functionality and beauty of Seeknit CURVE.

## [Many Customization Options]

Our bamboo interchangeable circular needle sets offer a wide variety of needle lengths, sizes, and cables, enabling many combinations to suit every knitter’s needs. To cater to diverse preferences, we provide a range of set options.

Additionally, individual components such as needle tips, cords, cord joints, stoppers, and fabric cases are available for purchase separately. This flexibility allows you to create a fully customized set tailored to your unique knitting projects and style.

### [Providing a Comfortable Knitting Experience]

The “SEEKNIT C U R V E” brand is crafted with our exclusive “Koshitsu” knitting needle line, known for its warm, glossy finish. These sets are paired with durable, swivel-function interchangeable cords, which prevent tangling and twisting, ensuring a smooth and enjoyable knitting experience.

### [We Are Experts in Bamboo Knitting Needles]

The concept of interchangeable circular needles, which is widely loved today, was developed by us as the first in the world. Additionally, the fundamental concepts of circular needles and asymmetric circular needles are unique ideas that we have nurtured over our long history. Furthermore, our distinctive hard resin technology sets us apart from others in the industry.

As a specialist manufacturer of bamboo knitting needles with 109 years of history, we use carefully selected Moso bamboo from Japan to produce “**Seeknit**” brand bamboo needles. We provide knitting needles that are loved by our customers, and we also develop Interchangeable Circular Needle Sets to meet diverse needs.

Through knitting, we sincerely hope to contribute to the joy of creating one’s own works, the peace of mind it brings, and the development of knitting culture worldwide.

Since 1916
