Cleaning and diluting with

water

APPLICATIONS

New OP Process'® compact screwable tooling concept for fitting joint tape

- New OP Process'® screwable range: improves the rigidity of the pole/tool assembly
Overall compact system: Boom can be customised according to the stage of the worksite

- Roll'Enduit® - Coating roller

Easy to apply and to smooth

Consistent thickness of the coating, perfectly flat.

Recommended coatings: Ready-to-use paste plaster, Airless machine plaster, roller plaster.

Can be used with certain powder coatings, preferably drying and not setting, and prepared rather fluidly.

- Triflex'® knife: no excess clamping of plasterboard strips

Reinforced supports thanks to the double blade

+ High-performance Bi-Flex technology with PVC counter-blade

TECHNICAL DESCRIPTION:

- 15-pieces kit :

2 ParfaitLiss'® Light 45 and 60 cm

- 1 ParfaitLiss'® Rigid 35 cm

- 1 TriFlex'® clamping knife

- 2 OP Process'® pole 2x1 m

- 1 OP Process'® pole 2x0.7 m

- 5 OP Process'® connectors : 1 ParfaitLiss'® + 1

Corner trowel + 3 Frames (40, 80 and 180 mm)

- 3 Roll'Enduit® rollers refills (corner, 80 and 180 mm)

- Case : 105 X 30 X 11.3 cm

- Roll'Enduit® : High-resilience black 18 mm polyamide fibers

- 40 mm: With special reserve for corners

- 80 mm: In 1st pass to apply between tapered edges

- 180 mm: In 2nd pass to apply on both sides

- Smoothing blade : Hardened stainless steel blade

- Progressive rounded edges - Handle can be drilled

- Corner trowel: 0.5 mm stainless steel blade - turned edges - mounted on a ball-and-socket joint to choose your working angle

- OP Process'® 2-strand pole - Acme system screw-on head - Aluminium tubes - Non-slip rubberised handle

- Concept OP PROCESS'®

BÂTIR - RÉNOVER - DÉCORER
