OUR STORY

1996

PROJEKT LOGOTYPU

*We combine quality, respect for tradition and brand, innovation, and progress to maintain our leading position on both domestic and international markets.
This is our commitment.*

The Kubala Company has enjoyed a long tradition, as equally long-lasting as the recognition of our brand on the market. We have been conducting activity **since 1987**. We started with just a few groups of tools, to eventually, over a few decades, expand our offer to several hundred types.

Thanks to the strict quality control and implementation of innovative solutions, **Roman Kubala**, the founder of our Company, has created a strong brand, he currently develops with the next generation.

Vision, work and passion have enabled **Kubala** to become a traditional family company enjoying recognition and the top position as the industry leader.

KEEP ON EVOLVING

1987
