## Modern Büro Lifestyle

DPMA registered · EUIPO & CNIPA patented  
Dynamic furniture for the future of work

The world of work is undergoing a profound transformation. With the growing integration of artificial intelligence into business processes and the rise of hybrid and mobile work models, our workspaces are changing fundamentally. The traditional office is no longer the sole hub of productivity – instead, work environments must now be flexible, ergonomic, and dynamic.

This is where **Bürolife** comes in. The brand was founded with a clear vision: to rethink the workplace – not as something static and rigid, but as intelligent, adaptable, and human-centered. As a registered trademark with the DPMA in Germany, and with our FlexiSmart product patented at both the EUIPO and CNIPA in China, Bürolife stands for German engineering excellence combined with international innovation.

The idea was born from a simple observation: modern teams are no longer tied to fixed desks. Instead, they move between **collaborative hubs**, where creativity and teamwork flourish, and **home offices**, which demand ergonomic solutions even in compact spaces. Bürolife develops furniture that integrates seamlessly into both worlds – **lightweight, modular, ergonomic**, and always ready to adapt to the shifting demands of modern work life.

### *At the core of our design philosophy are our guiding principles:*

## **1 Flexibility**

Workstations that transform in seconds, from focused individual work to collaborative team settings.

## **2 Mobility**

Furniture that is easy to move, rearrange, and reconfigure.

## **3 Ergonomics**

Supporting healthy posture and well-being, whether at home or in the office.

## **4 Space Efficiency**

Designs that maximize usability while minimizing footprint.

With Bürolife, we are building more than furniture. We are shaping the workplaces of tomorrow – environments where people feel empowered, comfortable, and inspired to thrive.

# Why Dynamic Furniture?

## 1 Flexibility

Switch from sitting to standing, solo to team, work to presentation

## 2 Portability

Compact and lightweight, ideal for moving between spaces.

## 3 Ergonomics

Adjustable heights, correct posture support, reduced strain.

## 4 Space-Saving

Foldable, multifunctional, efficient in small apartments or offices.

## 5 Hybrid-Ready

Seamlessly integrates into office, home, school, or coworking setups

# Introduction of FlexiSmart Desk

Your Entire Office in One Smart Desk.

Ergonomic

Compact

Luxury Design

The patented FlexiSmart Desk is a revolutionary 4-in-1 solution that transforms in seconds. Designed for hybrid professionals, startups, and corporate teams who need mobility without compromise.

# FlexiSmart Desk Benefits

*Better posture, less pain, greater focus.*

Sitting too long reduces focus, energy, and health.  
The FlexiSmart Desk gives you movement and variety:

## **Better Posture**

Less pain on back and prevent neck strain

## **Compact Design**

Fits any space, from apartments to corporate hubs.

## **Standing Options**

Improved circulation, more energy.  
Prevents back pains due to long sitting.

## **Whiteboard Enabled**

Presentation option with multimedia

# FlexiSmart Desk

## 4-in-1 Functions

The FlexiSmart Desk is more than a workstation. It is a complete ecosystem for modern work. With just one unit, you can instantly switch between four core functions:

### 1 **Height-adjustable workstation**

Move seamlessly between sitting and standing, protecting your health and boosting concentration.

### 3 **Multimedia whiteboard with monitor lift**

A sustainable alternative to paper. Replace flipcharts and printed notes with an interactive surface that combines writing, sketching, and digital display. This solution reduces paper waste, supports digital workflows, and creates a green, paperless office.

By integrating whiteboard functionality with a motorized monitor, FlexiSmart encourages environmentally responsible working: no stacks of printed handouts, no wasted paper sheets. Every idea can be written directly on desktop and take a photo and shared, and saved digitally. This not only contributes to sustainability but also ensures smoother collaboration in hybrid teams.

*FlexiSmart is not just flexible  
it is a step toward smarter,  
greener workspaces.*

### 2 **Standing collaboration table**

Engage with colleagues dynamically, whether in brainstorming, agile sprints, or presentations.

### 4 **Foldable, lockable tabletop**

Save valuable space when the desk is not in use, ideal for hybrid offices and compact living.

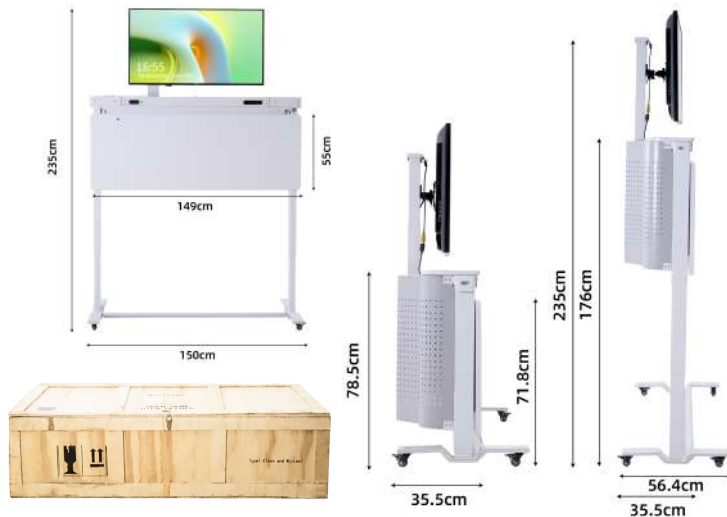

## 4 MODES. 1 DESK

# FlexiSmart Desk

## Technical Specifications

The FlexiSmart Desk combines German engineering precision with practical versatility. Every detail is designed to optimize performance, ergonomics, safety, and sustainability.

### Dimensions & Weight

- **Closed desk dimensions**  
150 × 78.5 × 35.5 cm (W × H × D)
- **Transport / wooden box dimensions**  
165 × 85 × 45 cm (W × H × D)
- **Desk weight (without monitor)**  
80 kg
- **Shipping weight (desk + wooden box)**  
134 kg

### Color Options (Standard)

- **Type 1 (Clean and Minimal)**  
All desk parts Traffic White RAL 9016, back cover RAL 7035 (Light Gray)
- **Type 2 (Modern and Sleek)**  
All desk parts Light Gray, back cover Dark Gray RAL 7016, main sheet Traffic White RAL 9016
- **Type 3 (Executive and elegant)**  
All desk parts Dark Gray RAL 7016, back cover Black RAL 9005, main sheet Traffic White RAL 9016

*All desk parts are fully customizable to special colors on request (corporate identity or project-specific).*

## Monitor Installation & Lifter Features

- **Single Monitor Installation**  
Any size up to **43"**
- **Double Monitor Installation Options**  
**2 × 24"** monitors  
**1 × 24" + 1 × 32"** monitor setup
- Compatible with **Apple monitors** using Apple-to-VESA adapter, and with all standard VESA-mount displays.
- **Motorized Monitor Lifter** ensures best head posture and prevents neck strain
- Integrated **anti-collision safety system**: both the monitor lifter and the desk lifting columns automatically stop if resistance or obstruction is detected.

## Lockable Features

- **Monitor lid**  
Lockable, secures screens when desk is closed

- **Main sheet**  
Foldable surface with locking function

- **Under-main-sheet drawer**  
Lockable storage fitting laptops up to 17" including accessories (mouse, charger). Equipped with protective foam for safe transport and storage

- **Compatible with workplace safety standards**  
EN527 and ISO27001

## Integrated Options & Mobility

- **Wireless Charger (15W)** on left shoulder, can be replaced with a cup holder if not needed.
- **Cable Grommets** for clean cable management and to avoid "cable salad":
  - Right shoulder of the desk
  - On the main sheet
  - At the back of the under-main-sheet drawer

- **3-Position Memory Function:** Store up to three preferred desk heights for instant adjustment at the push of a button.

- **Two mobility configurations:**
  - Fixed version with structural pins.
  - Portable version with 360° lockable wheels

## Assembly & Packaging

- There you can state: The desk is delivered 90% pre-assembled. Only the feet need to be screwed on to complete installation. Each unit is shipped in a protective wooden box to ensure safe transport.

The FlexiSmart Desk supports not just multiple working styles but also multiple display configurations. With anti-collision safety, lockable components, and custom color options, it is a future-ready, secure, and versatile workstation for hybrid offices.

# Introduction of FlexiSmart Tribune

*Your Entire Classroom in One Smart Tribune*

Ergonomic

Space-Saving

Innovative Design

Designed for schools, universities, and training centers that need to save space, adapt formats, and combine physical and digital teaching.

## 5 in 1 Tribune Desk

FlexiSmart Desk

# FlexiSmart Tribune Benefits

- 1 Saves up to 30% classroom space
- 2 Supports hybrid learning (physical + digital)
- 3 Enhances teacher ergonomics & student focus

The FlexiSmart Tribune is designed for modern learning and hybrid workspaces, delivering both ergonomic comfort and significant space efficiency.

- **Foldable main sheet**

Depth reduces to just 35 cm when folded, allowing the Tribune to be stored neatly in a corner.

- **All-in-one solution**

Functions as desk, whiteboard, and tribune podium – eliminating the need to purchase separate items.

- **Space & cost savings**

Frees up valuable square meters and delivers up to 30% space cost savings for schools, universities, and offices.

- **Enables hybrid teaching**

Supports chalkboard-style writing, whiteboard presentations, and multimedia integration in a single unit.

- **Improves ergonomics**

Adjustable height and dynamic setup reduce strain on teachers, helping to minimize fatigue during long lectures or workshops.

- **Flexible learning formats**

Switch effortlessly between lectures, workshops, and group work, adapting to diverse teaching and collaboration needs.

- **Efficient logistics**

Compact when closed, requiring less space during storage and transport.

**Result:** With FlexiSmart, institutions can reduce costs, save space, and provide a healthier, more flexible environment for both educators and learners.

# FlexiSmart Tribune Desk

## 5-in-1 Functions

The FlexiSmart Tribune is more than a podium – it is a complete teaching and presentation tool that transforms instantly to meet different needs:

### 1 **Closed Tribune**

Compact, height-adjustable lectern for classic presentations or speeches.

### 2 **Height adjustable Tribune**

standing tribune is the desk in closed position and just the height is increased.

### 3 **Normal Desk**

Integrated motorized monitor lifter creates a digital workstation for teaching or training in seated position.

### 4 **Standing Desk**

Adjustable to a dynamic standing position, reducing fatigue and supporting healthier posture for educators.

### 5 **Whiteboard + Monitor Mode**

Combines traditional writing with multimedia presentation on a single unit, enabling paperless, hybrid teaching.

**One Tribune, multiple roles:** By combining the functions of a tribune, a desk, and a whiteboard, the FlexiSmart Tribune removes the need for separate equipment – saving both space and cost while creating a more flexible learning environment.

## Ergonomics & Well-Being

### Good design improves health and productivity

At Bürolife, ergonomics is not an option – it is built into every detail of the FlexiSmart system. Designed to support health and comfort, the desk and tribune actively reduce strain and create a workplace that adapts to the human body, not the other way around.

- **Motorized Monitor Lifter**

The integrated monitor lift allows the screen to be positioned at the correct eye level, eliminating neck strain and ensuring a natural head posture. This prevents long-term discomfort and supports healthier vision habits.

- **Portability**

With lockable 360° wheels, FlexiSmart can be moved effortlessly. This allows users to change position quickly if direct sunlight, noise, or distractions interfere with concentration, supporting both comfort and productivity.

- **Smart Technical Details**

Integrated features such as a 15W wireless charger and a cable grommet ensure tidy, convenient use of digital devices. Together, these create a comfortable, organized workstation that reduces stress and distraction.

- **Height Adjustability**

Smooth, electric height adjustment makes it easy to alternate between sitting and standing positions. This reduces back strain, improves spinal posture, and helps stimulate blood circulation – avoiding the health risks associated with long periods of sitting.

- **Multi-Functionality**

By combining desk, whiteboard, and tribune into one system, FlexiSmart enables users to switch working modes instantly. This variety promotes movement and avoids static, unhealthy working postures.

### **Result:**

*The FlexiSmart system transforms every workplace into a healthier, more productive environment by actively supporting the body and mind throughout the working day.*

# Sustainability & Materials

# About Hoxivion & Bürolife

## Our Founder's Vision

*After years in the industry, I saw the need for dynamic furniture that reflects today's hybrid, AI-powered world. Bürolife is my answer: where German precision meets modern flexibility.*

### **Behnam Hosseinzadeh**

*Founder of Bürolife, Germany*

At Hoxivion, we create dynamic office furniture that adapts to people — not the other way around. Under our registered German trademark Bürolife, we design solutions that respond to the needs and challenges of today's modern work environments: offices, home offices, coworking spaces, schools, and universities.

We believe the era of static office furniture is over. Today's workforce needs furniture that is flexible, ergonomic, and adaptive — supporting collaboration, creativity, and well-being in hybrid and AI-driven workplaces.

## Our Vision

To lead the global shift toward dynamic, adaptive workspaces — empowering people to work smarter, healthier, and more flexibly than ever before.
